Economic Diplomacy Embargo Leverage And World Politics:

Economic Diplomacy M. S. Daoudi, 2019-03-05 The 1983 collapse of world oil prices revived memories of a time only a decade earlier when the price of a barrel of oil did not exceed three dollars By the late 1970s spot market prices had reached peaks of forty dollars a barrel A major role in creating these new realities was played by the 1973 1974 Arab oil embargo which formed the psychological political and market conditions for the dramatic price surge This important study probes the embargo in detail thoroughly examining its history the motivations that caused it and its ripple effect on world politics and the international economic order The authors carefully examine the interruption of oil supplies to Western Europe during the 1956 Suez Canal crisis the growing momentum of Arab oil leverage beginning with the First Arab Petroleum Congress in 1959 the decline of the oil companies domination of the petroleum industry and the Arab political environment between the 1967 Arab defeat and the 1973 Arab oil embargo The book concludes with a chapter addressing the lessons to be learned from these recent embargoes

Chinese Economic Diplomacy Shuxiu Zhang, 2016-07-01 Economic diplomacy was declared in 2013 by Beijing as a priority in its comprehensive strategy for diplomacy The political elite undertook to further invest in economic diplomacy as an instrument for economic growth and development Globally Chinese cooperation in multilateral economic processes has become critical to achieving meaningful outcomes However little understanding exists in current literature on the factors and mechanisms which shape the processes behind China s economic diplomacy decision making Chinese Economic Diplomacy provides an understanding of the processes and practices of China s economic diplomacy with multilateral economic negotiations as the primary basis of analysis specifically the UN climate change talks and the WTO Doha Round trade negotiations It examines how early economic diplomacy in global governance contributed to the varied and evolving nature of its present day decision making structures and processes Demonstrating how China s negotiation preferences are driven by networks of political actors in formal and informal domestic and systemic environments it also highlights the capacity of international negotiation practices to alter and re shape China s approach to multilateral economic negotiations As a consequence the book presents a framework for understanding China s economic diplomacy decision making processes that is systemically constructed by domestic and international agencies Offering a Chinese perspective of the notion of economic diplomacy this book will be of interest to students and scholars of Chinese Economics International Relations and Political Economy

Theories and Practices of Compliance with WTO Law Yen Kong Ngangjoh Hodu, 2012-08-01 Compliance with international institutional norms is often conceived as a yardstick with which to test the effectiveness of international law However the ongoing failure of the WTO regime to elicit compliance with its agreements has led many legal theorists to reject this view in favour of a realism that describes an international system void of any authority to enforce rules in which egoistic states calculate their own interests in light of the existing distribution of power An institutionalist riposte which insists on the capability of states to come together nonetheless to make binding rules that

will determine their behaviour vis vis each other of necessity focuses on developing enforceable remedies when rules are not complied with Confronting this stark and apparently intractable situation this book applies social science theories to the question as to why nation states comply or do not comply with international trade law obligations The author examines various theories of compliance in the context of world trade law and discusses ways in which a much more robust compliance with global trade rules may be ensured In the course of the analysis numerous germane issues arise including the following the stalemate in the WTO judicial and political process third party rights and WTO Law compliance the role of arbitrators in determining reasonable period of time contract theory reputation costs good faith obligations required by pacta sunt servanda imposing remedies collectively multilateral enforcement of DSB findings and early determination of injuries once nullification and impairment have been established The author s approach leads not only to a new understanding of the function of the WTO as a legal system but also to well grounded recommendations concerning remedies that address the issue of continuous breach of legal duties in the WTO This is a timely and accessible analysis of an increasingly important aspect of the interface of international trade law and economics It will undoubtedly lead to a deeper debate and accelerate the inevitability of effective practical action Policymakers practitioners and academics in different fields of social sciences will appreciate its forward looking perspective in identifying the issues that are now assuming centre stage in international economic law

How Foreign Policy Decisions Are Made In The Third World Bahgat Korany, 2019-09-17 This textbook analyzes eight crucial foreign policy decisions of the 1970s and 1980s emphasizing how decision making is influenced by the social characteristics of Third World states and their position in the global system Chapter 1 situates the Third World in the global system and traces the evolu

Bottleneck : Humanity's Impending Impasse William R. Catton Jr., 2009-05-06 Ecological roots of our troubled time are deeper than its economic manifestations Anguished posterity will look back on this 21st century as the bottleneck century Bottleneck Humanity's Impending Impasse was written to show how and why three converging trends have put humankind in much deeper peril than is generally acknowledged First there are many more of us inhabiting this planet than it can sustain Second technological advances of recent centuries have made gigantic and prodigal our per capita resource appetites and our per capita environmental impacts Third even though as the symbol using species we humans conceivably could do better at anticipating future circumstances and planning ahead our evolutionary heritage together with unanticipated dysfunctions of modern division of labor have kept us too preoccupied with short term concerns People today are dependent upon a fantastically intricate web of exchange relations the market Even when functioning normally and not in a collapsed condition as currently this system of relations has a serious and pervasive dehumanizing effect not adequately discerned by economists nor sociologists Recognition of and adequate adaptation to the deteriorating ecological context of human life has been impeded Human societies even our own are almost certainly going to act in ways that will make an

inevitably difficult future unnecessarily worse Factors analyzed in this book have made people seriously averse to the kind and extent of cooperation our difficult future will require Together with the basic trio of disturbing trendshumans having become so numerous so ravenous and so short sightedthis has made the nature of todays human prospect far more dire than most policymakers dare admit It tempts even the wisest and most civic minded to seek or promote remedial policies that will worsen the real predicament

The Netherlands and the Oil Crisis Duco Hellema,2025-10-01 The Netherlands played a remarkable role during the October War and the oil crisis of 1973 In secret the Dutch government sent a substantial amount of ammunition and spare parts to Israel The Dutch supported Israel also politically Within the EC they vetoed a more pro Arab policy The Arab oil producing countries punished The Netherlands by imposing an oil embargo The embargo against the Netherlands was intimidating The Netherlands was dependent on Arab oil The embargo seemed to threaten the Dutch position in the international oil sector The government introduced several measures to reduce oil consumption However within two months it became clear that oil continued to arrive in Rotterdam There was in fact no oil shortage in the Netherlands The Netherlands even profited from the oil crisis The energy situation in The Netherlands was much better than in other West European countries The Dutch therefore rejected French plans for a more interventionist energy policy Atlanticism and liberalism were the key words of the Dutch policy during the oil crisis This book is the result of intensive research in all relevant Dutch archives The authors had free access to all the files they wanted to see They also used resources from other countries involved Many politicians were interviewed The result is a surprising analysis of the oil crisis of 1973 and of the Dutch role in particular

The End of Ambition Mark Atwood Lawrence,2024-11-26 A groundbreaking new history of how the Vietnam War thwarted U S liberal ambitions in the developing world and at home in the 1960s At the start of the 1960s John F Kennedy and other American liberals expressed boundless optimism about the ability of the United States to promote democracy and development in Asia Africa the Middle East and Latin America With U S power resources and expertise almost anything seemed possible in the countries of the Cold War s Third World developing postcolonial nations unaligned with the United States or Soviet Union Yet by the end of the decade this vision lay in ruins What happened In The End of Ambition Mark Atwood Lawrence offers a groundbreaking new history of America s most consequential decade He reveals how the Vietnam War combined with dizzying social and political changes in the United States led to a collapse of American liberal ambition in the Third World and how this transformation was connected to shrinking aspirations back home in America By the middle and late 1960s democracy had given way to dictatorship in many Third World countries while poverty and inequality remained pervasive As America s costly war in Vietnam dragged on and as the Kennedy years gave way to the administrations of Lyndon B Johnson and Richard M Nixon America became increasingly risk averse and embraced a new policy of promoting mere stability in the Third World Paying special attention to the U S relationships with Brazil India Iran Indonesia and southern Africa The End of Ambition tells the story of this momentous change and of how

international and U S events intertwined The result is an original new perspective on a war that continues to haunt U S foreign policy today *The Responsibility to Protect* International Commission on Intervention and State

International Negotiations: A Bibliography Amos Lakos, 2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol **The Palestinian Refugees** J. Ginat, Edward Joseph Perkins, 2001 As violence escalates in the Middle East a peace agreement between Israel and Palestine seems more elusive than ever Yet one thing remains clear without constructive dialogue such an agreement cannot occur This timely volume presents just such a dialogue It brings together opinions perspectives and research focused on one of the region s most complex and volatile problems the Palestinian refugee situation Based on a 1999 conference at the University of Oklahoma International Program Center Palestinian Refugees combines contributions from Israelis Palestinians Jordanians Egyptians Americans and Europeans In addition to focusing on the Palestinian refugees the essays present various proposals for solving the Palestinian problem Organized in two parts the volume presents both scholarly essays and position papers The scholarly essays place current issues in historical context and explore the Palestinian belief in the right of return and questions of appropriate compensation The position papers focus on policy and offer a variety of perspectives Concluding the volume is a special essay on public polls that gauge how Palestinians and Israelis view the circumstances of Palestinian refugees and what they feel about possible solutions **The Jerusalem Journal of International Relations**, 1991 **The New Economic**

Diplomacy Nicholas Bayne, Stephen Woolcock, 2016-10-04 The New Economic Diplomacy explains how states conduct their external economic relations in the 21st century how they make decisions domestically how they negotiate internationally and how these processes interact Although the previous edition published in 2011 was able to reflect the impact of the financial crisis and the immediate reaction to it a lot has happened since then and the atmosphere of economic diplomacy has darkened To capture the emergence of new trends and the intensification of old ones the salient features of this new edition are The advance of China and other emerging powers at the expense of G7 governments despite some setbacks Much greater activity in negotiating regional and plurilateral trade agreements while the multilateral system struggles The persistence of problems exposed by the financial crisis notably the long running euro zone crisis The interaction between domestic and external forces the balance has shifted towards the domestic axis with international agreement more difficult to achieve This edition goes further in comparing the practice of different players to reflect the greater diversity of economic diplomacy

Based on the authors work in the field of International Political Economy it is suitable for students interested in the decision making processes in foreign economic policy including those studying international relations government politics and economics It will also appeal to politicians bureaucrats business people NGO activists journalists and the informed public
