King, 2008 One of the main problems faced by teachers and students who have a scholarly interest in Southeast Asia is the lack of general user friendly texts in the social sciences The absence of an introduction to the sociology of Southeast Asia is especially unfortunate This volume attempts to meet these needs This is then the first sole authored introductory sociology text on Southeast Asia that focuses on change and development in the region provides an overview of the important sociological and political economy writings and considers the key concepts and themes in the field since 1945 Some multiauthored works do exist but these either are outdated or focus on specialized topics Aimed primarily at undergraduates up to the final year it will also be a useful reference work for post graduates and researchers who lack such a general work **New World Order** Mark Poynter, 2015-05-11 Examines the geopolitical developments which have taken place since the end of the Cold War and assesses the impact of Francis Fukuyama's *The End of History* 1989 and the extent to which the spread of globalisation has shaped the New World Order *Forthcoming Books* Rose Army, 2001-06 The Publishers Weekly, 1968 **Pathways for Irregular Forces in Southeast Asia** Atsushi Yasutomi, Rosalie Arcala Hall, Saya Kiba, 2022-03-30 An exploration of the roles that pro and anti government militias private armed groups vigilantes and gangs

play in local communities in the new democracies of Southeast Asia. Scholars have typically characterized irregular forces as spoilers and infiltrators in post conflict peacebuilding processes. The contributors to this book challenge this conventional understanding of irregular forces in Southeast Asia, demonstrating that they often attract solid support from civilians and can be major contributors to the building of local security, a process by which local residents in the absence of an effective police force develop partner or are at least included in the management of community crimes and other violence. They analyze irregular forces' dealings with political actors at the community level, explaining why and how forces are incorporated in and collaborate with legitimate institutions without using violence against them. Offering a new approach to dealing with irregular forces in Southeast Asia, contributors explore new theoretical frameworks that are better suited for evaluating irregular forces' relationship to different security providers and the political environments in the region. Specifically, they examine case studies from Indonesia, Timor-Leste, the Philippines, and Thailand. A valuable resource for researchers, students, and practitioners in the areas of conflict resolution, peacebuilding, and security governance, especially those with a focus on Southeast Asia. This book will also be of great interest to scholars of the sociology and anthropology of the region.

Currents in the Interpretation of Paul Neil Elliott, 2024-09-05. The apostle Paul has long been championed or criticized as a Christian thinker, as a brilliant theological genius, or an enthusiastic convert who spun arguments to justify his new allegiances. In these essays, Neil Elliott engages some of the most provocative currents in contemporary scholarship, including Paul and the nature of violence, the presumptions of religious, cultural, or national innocence in particular interpretations of the apostle, the recent enthusiasm for Paul in some streams of Marxist thought, competing construals of economic realities in Paul's day, and our own questions surrounding Paul's legacy today. *Library Journal*, 1968. *Subject Guide to Books in Print*, 1993.

Markets and Development Toby Carroll, Darryl Jarvis, 2017-10-02. *Markets and Development* presents a series of critical contributions focused on the political relationship between citizens, civil society, and neoliberal development policy's latest form. The dramatic increase of access to finance, investments, newly gender-sensitive approaches to building neoliberal labour markets, the universal promotion of public-private partnerships, and the development financing of extractive industries have all seen citizens' social movements and NGOs variously engaged in and against neoliberalism like never before. The precise form that this engagement takes is conditioned by both the perceived and real opportunities and the risks of an agenda which seeks to intern emerging and frontier markets deep within a concretising world market with transformative repercussions for both those involved and notably for state-society relations. The contributors to this volume focus on essential aspects of the contemporary neoliberal development agenda and its relationship to and with citizens and civil society, tackling questions related to the roles that various actors within civil society in the underdeveloped world are playing under late capitalism and how these roles relate to current efforts to establish and extend markets and market society more broadly in a neoliberal image. This book was originally published as a special issue of *Globalizations*.
