Congress. Senate. Committee on Small Business. Subcommittee on Rural Economy and Family Farming, 1987 New Perspectives on Political Economy and Its History Maria Cristina Marcuzzo, Ghislain Deleplace, Paolo Paesani, 2020-05-13 This Festschrift is published in honour of Annalisa Rosselli a political economist and historian of economic thought whose academic activity has promoted unconventional ways of thinking throughout her career A renowned list of scholars articulate and respond to this vision through a series of essays leading to an advocacy of pluralism and critical thinking in political economy The book is split into five parts opening with a section on new topics for the history of economic thought including new perspectives in gender studies and an illustration of the fecundity of the link with economic history This is followed by sections that address relevant perspectives on the Classical approach to distribution and accumulation Ricardo interpretation of Sraffa and the legacy of Keynes This book will appeal to students interested in reforming economics as well as academics and economists

interested in political economy and the history of economic thought Foreign Aid: New Perspectives K. L.

Gupta,2012-12-06 Foreign aid has been an area of active scholarly investigation since the end of the Second World War but particularly since the early 1950s when a large number of the erstwhile colonies became independent Few areas of public policy involving the developed and developing countries have aroused more passion and ideological debate than foreign aid In spite of the massive amount of research in the field there is still not enough work in two areas the first involves the mechanisms through which aid influences the economies of the donor and the recipient countries and the second country specific assessments of the effectiveness of foreign aid Foreign Aid New Perspectives is aimed at making a contribution in these two areas The contents of this volume are divided into four parts Part I deals with some theoretical aspects of foreign aid while the second part analyzes some general policy aspects Part III turns to the donor experience and includes one paper on the Danish experience The last part considers the recipient experience and consists of five case studies **Japan's**

Trade Frictions A. M. El-Agraa,1988-06-18 *New Perspectives on Foreign Aid and Economic Development* B. Mak Arvin,2002-05-30 The success or failure of economic assistance programs is a shared responsibility of recipient countries and donors The negative attitude about aid prevalent today underscores a perception the aid has failed Critics often blame corrupt regimes weak governments or poor economic policies However the poor track record of aid is also due to donors inability to allocate limited funds effectively and poor coordination of their aid efforts Declining aid budgets have led to fundamental questioning of foreign aid s allocation and utility while the apparent ineffectiveness of aid has shrunk aid budgets and turned public opinion against providing it This edited collection containing pieces written by leading development specialists evaluates these emerging questions of allocation and efficiency Development economists policy makers and development specialists will benefit from reading this work Chapters examine the optimal and intertemporal allocation of aid the role and accountability of NGOs in allocation the importance of untying a new perspective on low levels of aid and links between the allocation pattern of donors Additional chapters deal with the impact of aid on economic growth democracy wage inequality between skilled and unskilled labor and the role of governance and institutional capacity in aid effectiveness An effective balance between theoretical and empirical models is offered to better illustrate the issues involved

Samuelsonian Economics and the Twenty-First Century Michael Szenberg,Lall Ramrattan,Aron A. Gottesman,2006-08-24 The underlying notion in this volume is to spotlight critically assess and illuminate Paul A Samuelson s extraordinarily voluminous diverse and groundbreaking contributions that encompass the entire field of economics through the lens of most eminent scholars All this in honor of his ninetieth birthday celebrated on May 15 2005 in Fairmont Hotel in Boston in the company of hundreds of scholars and their spouses Pref **Apostles of Development** David C. Engerman,2025-05-30 The battle against global poverty that began after World War II was a major undertaking engaging economists engineers and organizations Featuring front and centre were six remarkable economists Amartya Sen Manmohan Singh Mahbub ul Haq

Jagdish Bhagwati, Rehman Sobhan and Lal Jayawardena all born as colonial subjects in the British Empire and studied at Cambridge University. They represented a new figure on the world scene: the Third World development expert and played a crucial role in global debates about poverty and development. *Apostles of Development* examines their different economic doctrines and the ongoing debate surrounding economic theory in poor countries compared to rich ones. The lives of these apostles reveal how development did not begin with textbooks but with real world attempts to solve very specific and pressing problems. Finally, the book emphasizes that development was a Global South project first and foremost aiming to improve the conditions of the world's poorest countries. It challenges the conventional wisdom that sees development only as a tool of rich countries to dominate or as proof of their humanitarian spirit. It argues that development succeeds not when it follows ideological prescriptions but when it looks for what works. The fading of grand visions shaped by ideological concerns has been one of the lasting effects of the end of the Cold War. The book argues that the best way forward is determined modestly focusing on practical matters such as addressing gross inequality and insisting that development means more than just economic growth. Given the salience of questions of economic inequality and the constant visibility of the promises and problems of economic development in the world today, this is a timely and important read.

Measuring the Digital Economy: A New Perspective OECD, 2014-12-08. This report presents indicators traditionally used to monitor the information society and complements them with experimental indicators that provide insight into areas of policy interest.

Different Perspectives on International Development United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on International Development and Foreign Assistance, Economic Affairs, International Environmental Protection, and Peace Corps, 2014. *New Perspectives on Firm Growth* Per Davidsson, Johan Wiklund, 2013-01-01. This collection of articles by an internationally recognized team of authors is a welcome addition to the literature on firm growth. The authors singly and together have previously made important contributions with regard to frameworks for understanding growth as well as cutting edge empirical research on the actual growth process. In this volume the authors bring previous research up to date providing a critical look at what has been published in the last decade and offering new theoretically informed insights in how and why firms grow. Howard Aldrich, University of North Carolina, US. This insightful volume presents a collection of cutting edge works by two of the leading researchers of firm growth. The studies extend previous research by providing stronger theoretical underpinnings and using longitudinal databases that can separate in time the firm's growth from its presumed causes. They also break new ground by examining different modes of growth such as sales growth vs employment growth and organic growth vs acquisition based expansion. Further, the studies investigate the drivers of firm growth and take a critical look at the effects such as under what circumstances high growth is associated with high profitability. The issue of how firm growth is achieved and managed and what consequences it has for different stakeholders is both theoretically interesting and practically important. The book will strongly appeal to academics of

entrepreneurship small business management and strategy New Perspectives on Economic Development Fu-Lai Tony Yu, 2011-04-27 This book is the first of its kind to use Austrian subjectivism to analyze issues in economic development Unlike scholars in mainstream neoclassical economics who explain economic development by quantitative growth models this book attempts to understand economic progress in human agency perspective In this approach human agency is placed at the centre of economic analysis This book begins with a review of the theories of economic development in the history of Austrian economics with the intention of extending the contributions of major Austrian economists to development economics After pointing out the weaknesses in the orthodox neoclassical approach to economic growth the book then puts forward a subjectivist methodology which integrates the contributions of Max Weber Alfred Schutz and Austrian Economists to interpret economic phenomena and policies This chapter also serves as a methodological foundation for arguments elaborated in subsequent chapters The rest of the book discusses important issues in economic development namely entrepreneurial process national capabilities innovation trade government transition and catching up strategies for firms in latecomer economies The book ends with concluding remarks and a proposal for a new research agenda in economic development This book is well written free from mathematics and is highly readable It adds new insights not only in economics but also in management politics and social sciences It will be useful to scholars policy makers and students in economic development entrepreneurship theory of the firm management of innovation government policy economic sociology Austrian and evolutionary economics *New Perspectives on International Migration and Development* Jeronimo Cortina, Enrique Ochoa-Reza, 2013-07-09 Through pressing current case studies contributors examine the ubiquitous interplay among migration development culture human rights and government all toward advancing more effective solutions to international migration issues **New Perspectives on Corporate Social Responsibility** Linda O'Riordan, Piotr Zmuda, Stefan Heinemann, 2015-04-14 Providing a timely contribution to the ongoing questions surrounding topics which are by definition subject to varying stakeholder interpretations this book addresses the missing link between theoretical CSR concepts and everyday management practice It acts as a guide to awaken managers to the advantages of adopting a CSR mindset when developing sustainable business strategies The book consists of three parts 1 A theoretical realm which establishes the key concepts and rationale for the adoption of a sustainable CSR approach 2 A practical realm which addresses putting CSR and sustainability into business practice 3 An educational realm which proposes how to incorporate the concepts into teaching and training *New Perspectives in Caribbean Tourism* Marcella Daye, Donna Chambers, Sherma Roberts, 2008-04-07 This volume explores tourism in the Caribbean one of the most tourism dependent regions of the world within the context of key currents of Caribbean thought and critique in relation to issues of dependency postcolonial interactions race and class as well as identity and culture *New Perspectives on Structural Change* Ludovico Alcorta, Neil Foster-McGregor, Bart Verspagen, Adam Szirmai, 2021-03-23 New Perspectives on Structural Change is a comprehensive

edited volume that outlines both the historical roots and state of the art debates on the role of structural change in the process of economic development including both orthodox and heterodox perspectives and contributions from prominent scholars in this field The volume consists of four main sections The first section covers the theoretical foundations of the structural change literature The second section presents an empirical overview of the major trends of structural change using up to date data sources and methods The third section presents a broad ranging empirical analysis of the drivers of structural change The fourth section examines how processes such as inclusive growth poverty reduction productive employment the global income distribution and environmental sustainability are affected by structural change and how they can be influenced by policy Quick Bibliography Series ,1976 *New Perspectives on Globalization and Antiglobalization* Henry Veltmeyer,2008 This completely revised and updated sequel to *Globalization and Antiglobalization* advances our understanding of the dynamics of neoliberal globalization and draws our attention towards efforts to construct another world beyond neoliberalism Incorporating a new introduction and conclusion as well as eight entirely new chapters it brings together eleven specialists in the political economy of international relations and globalization to reflect on and analyze the diverse dimensions of the globalization process
