Economic And Social Development In Pacific Asia:

Economic and Social Development in Pacific Asia Chris Dixon, David W. Smith, 2002-09-26 There can be no doubt that Japan remains unchallenged as the economic giant of the Pacific. However, the economies of East and South East Asia are increasingly becoming integrated into a broad Pacific Asia region which contains most of the world's fastest growing economies. In *Economic and Social Development in Pacific Asia*, a group of world authorities set the area in its global context and examine the economic emergence of the region. In so doing, they illustrate that despite superficial similarities, there have been many more differences and it is not possible to offer a model of Asian development. The authors also challenge the perceived wisdom that this dynamic growth is the result of laissez faire market led economies. They argue that on the contrary, there has been a great deal of government intervention and this growth is actually a result of a policy of guiding the market.

Social Development in Asia Kwong-leung Tang, 2012-12-06 Most Asian countries have shown a strong commitment to rapid economic development. Economists have argued that the fruits from economic development will be spread equitably throughout the population. In the absence of a strong tradition of social rights, social development in Asia has long been taken for granted. This collection documents social development in the Asian countries of China, Hong Kong, Taiwan, South Korea, Thailand, and India and concludes that social development has lagged behind economic development. This has given rise to distorted development in many countries. Serious development problems of poverty and inequalities have lingered even in these economically advanced countries of Hong Kong, Taiwan, and Singapore. These problems have been exacerbated in the wake of the Asian economic crisis. In order to harmonize social development with economic growth, Asian states ought to be more proactive in their development agendas. As a text on social development in Asia, this book is primarily intended for practitioners and students of social work, social administration, and social policy. It is also relevant for students and practitioners of sociology, economics, and public policy.

Housing Policy Systems in South and East Asia R. Agus, J. Doling, D. Lee, 2002-06-19 This book provides an up to date account of housing policy systems in eight countries: Hong Kong, Indonesia, Japan, Korea, Malaysia, Taiwan, Thailand, and Singapore. With one chapter devoted to each country, there are in addition introductory and concluding chapters in which the editors identify both the similarities in the problems faced and in the approaches adopted by the governments of the Asian countries, setting them apart from the West as well as the differences that indicate the variety of Asian solutions.

Social Welfare Development in East Asia K. Tang, 2000-10-03 Comparative social policy has long neglected welfare development in Asia. Not much is known about social welfare in the economically successful East Asian tigers: Hong Kong, Korea, Singapore, and Taiwan. They are late starters in social welfare, but each has its own trajectory of welfare development. Despite the presence of extensive social welfare, they have shied away from western style welfare states. The presence of strong developmental states and their development ethos explain in large part the underdevelopment of state welfare.

Asia-Pacific Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997

The great processes reshaping our world today can be summed up by the term globalisation. Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space. It is illustrated by technological change, pronounced economic growth, the dominance of giant corporations, ever more open markets and universal consumption. Dramatic developments have occurred in Asia Pacific: trade, investment, labour movements and political cooperation marked for example by APEC, a giant free trade area designed to encompass about 60% of the world's population and half the world's economy. But the processes also create social tension, political reaction and local resistance as a result of regional restructuring, widening regional disparities, the neglect of backward areas or imposed modernisation. Asia Pacific New Geographies of the Pacific Rim, written by leading scholars from the region, examines the extent to which Pacific Rim economies, especially East Asia and Southeast Asia, are increasingly integrated and considers the economic, political and cultural forces at work. In the process, many new geographies are being created or reconstructed. At the same time, the local/global dialectic whereby local forces react to, negotiate with, resist or capitulate to global forces is examined. Part I analyses globalisation and the emergence of sub-global regions; Part II the processes of change in Asia Pacific; and Part III the national responses to globalisation. Part IV addresses local reactions to global forces: resistance, negotiations or capitulation. Finally, the editors enumerate the challenges to the region, which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue. This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants. For the time being, these forces seem to be in the ascendant.

Entrepreneurship and Economic Development in Hong Kong Tony Fu-Lai Yu, 1997-07-31 This is the first systematic economic study of the nature, operation and contribution of entrepreneurship to the growth of Hong Kong. The author argues that the success of Hong Kong is due to adaptive entrepreneurship.

Politics in Pacific Asia Xiaoming Huang, Jason Young, 2017-09-16 This lively and accessible new edition provides a uniquely broad-ranging introduction to the governance and politics of Pacific Asia. Thematically structured around the key institutions and issues, it is genuinely comparative in its approach to the whole region. A range of representative countries—China, Japan, Korea, Taiwan, Singapore, Malaysia, Thailand, Indonesia, Vietnam and the Philippines—are used as key case examples throughout, and each of them is subject to a detailed full-page country profile. This diverse region is a fascinating area for study. Politics in Pacific Asia provides a framework to form a coherent understanding of the region's politics; it balances persistent patterns with the latest developments and general characteristics with the differing cultures, histories and institutions of individual countries.
