Bay, Kristin Mann, 2013-09-13 As a result of new research we can now paint a more complex picture of peoples and cultures in the south Atlantic from the earliest period of the slave trade up to the present The nine papers in this volume indicate that a dynamic and continuous movement of peoples east as well as west across the Atlantic forged diverse and vibrant re-inventions and re-interpretations of the rich mix of cultures represented by Africans and peoples of African descent on both continents *British Imperialism and Globalization, C. 1650-1960* Gareth Austin, 2022 Examining the domestic politics of imperial expansion these essays question the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence This volume brings together leading global economic historians to honour Patrick O'Brien's contribution to the establishment of global economic history as a coherent and respected field in the academy Inspired by O'Brien's seminal work on the British Industrial Revolution as a global phenomenon these essays expand the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence The change from the protective Atlantic empire 1650-1850 to the free trade empire of the last half of the long nineteenth century is elaborated as are the conscious efforts of the free trade empire to develop markets and market economies in Africa British domestic politics associated with the change and the continuation to the recent politics of Brexit are fascinatingly narrated and documented including the economic rationale for imperial expansion

Africans John Iliffe, 1995-08-25 In a vast and all embracing study of Africa from the origins of mankind to the South African general election of 1994 John Iliffe refocuses African history on the peopling of an environmentally hostile continent Africans have been pioneers struggling against disease and nature and their social economic and political institutions have been designed to ensure survival and maximise numbers These institutions enabled them to survive the slave trade and colonial invasion but in the context of medical progress and other twentieth century innovations the same institutions have bred the most rapid population growth the world has ever seen This demographic growth has lain behind the collapse of colonial rule the disintegration of Apartheid and the instability of contemporary nations The history of the continent is thus a single story binding living Africans to their earliest human ancestors

Transactional Culture in Colonial Dakar, 1902-44 Rachel M. Petrocelli, 2024 Examines Dakar's transformation from a small colonial capital to a dynamic city highlighting how its resourceful residents challenged French control by forging adaptive economic relationships During a transformative era in the first half of the twentieth century Dakar former capital of French West Africa and present day capital of Senegal evolved from a small colonial capital meant to serve the French administration to a dynamic city shaped not solely by colonial planners but also by its resourceful inhabitants In this important book historian Rachel Petrocelli introduces the concept of transactional culture a set of norms and practices forged by Dakar's residents to navigate life under colonial rule A central element of that culture was transience a defining feature permeating various facets of life in Dakar from commerce and employment to housing and interactions with the state The book uncovers a central dynamic economic relationships in Dakar were continually molded by the ebb and flow of diverse individuals each pursuing their own objectives despite the relentless efforts of the French state to exert control Both Europeans and Africans embraced adaptability in Dakar over fixed residence while immigrant communities implanted themselves and became integral to the city's transactional culture In this examination based on court records and other sources Petrocelli shows that as the French colonial state sought to shape and control Dakar it enacted policies to intentionally limit city dwellers resources Strategies like pawning possessions and taking out credit creatively devising housing and mobilizing identities and affiliations emerged as a result integrating Dakarois of every background These practices persisted long after French rule ended underscoring the enduring impact of Dakar's colonial history
