Subcommittee on State, Foreign Operations, and Related Programs, 2014 Laws Relating to Environmental Impact Assessment: Dr. Mahesh R. Sharanappa, B.Com., LL.M., Ph.D., 2022-08-29 Every human being is dependent on the mother earth The nature which we use has to be protected with utmost responsibility For protection of the environment the Environmental Laws play a pivotal role No law

can stand without any base It may be a primary or secondary or supplementary base In order to study the growth of any law in its correct perspective it becomes necessary to find out its inputs and contents A base may change with changing time allowing place to other bases The Indian environmental law is no exception in this regard In ancient India people were tied together with nature through their religious belief Some adopted it on their own or rather majority accepted under the fear of religion morality or non compliance resulting in punishment to the extent of going to hell Since Vedic time the motto of social life was to live in utmost harmony with ecology Sages saints and great teachers of India lived in forests meditated and expressed themselves in the form of Vedas Upanishads Smritis and Dharmas This literature of olden times preached in one form or the other a worshipful attitude towards plants trees mother earth sky aakash air vayu water jal and animals and to keep a benevolent attitude towards them The primary objective of the book is to investigate into the laws and policy relating to Environmental Impact Assessment along with an empirical verification of the actual working of EIA machinery with a view to find out problem areas and suggest reforms on the basis of true picture The other related objectives are to analyse different dimensions of environmental protection to make a conceptual analysis of EIA to have a clear understanding about scope of the concept and the process to make a comparative analysis of EIA with reference to its working in some leading countries to assess the significance attached to EIA in India through different phases of history to critically evaluate the Legislative provisions which stipulate EIA to ascertain their suitability and effectiveness in creating proper EIA mechanism to verify empirically the actual working of EIA process Lastly to offer valuable suggestions for reform in law and to make EIA mechanism more Effective The process of Environmental Impact Assessment EIA is crucial for ensuring sustainable development The technique of Environmental Impact Assessment EIA finds its origin from the Precautionary Principle which requires refusal of consent or approval of the developmental activity by the competent authority if such project poses threat of serious or irreversible environmental damage To determine the serious or irreversible nature of the environmental effects on the developmental activity EIA is necessary EIA requires the developer to give to the deciding agency a statement of the environmental effects on the developmental activity to be considered in the decision making process EIA gives a chance to adopt or modify a scheme to mitigate adverse environmental consequences and for taking the environmental dimension into account in project decisions I am sure that the professionals like advocates EIA officials Environmental activists and students of legal academia who will have to encounter environmental issues will be benefitted by turning to this book

Perspectives on Iran's environmental policy process: Issues and constraints Aghmashhadi, Amir Hedayati, Babu, Suresh Chandra, Daroodi, Masoud, Zahedi, Samaneh, Kazemi,

Azadeh,2018-12-18 Due to the increase in environmental problems in Iran at the national and regional levels it is crucial to establish sound and sustainable environmental policies Further it is also important to incorporate environmental considerations in the current policies being implemented in sectors such as the agriculture or energy sector This paper applies the kaleidoscope model to understand the current policy process in Iran Using this analysis and a literature review we present a framework that can be applied to develop environmental policies Studies show that the best instrument for environmental policymaking in Iran is to use the spatial planning with the double approach of activity and resource planning based on power assessment and resource management respectively However due to the environmental pressures on resources in Iran over the past decades the current planning approach is not enough and needs to be completed in the form of resource planning
