The Analysis of Response in Crop and Livestock Production John L. Dillon, Jamie G Anderson, 2012-12-02 The role of the agricultural scientist is to manipulate crop and livestock response phenomena so that they serve society's needs better enabling countries to obtain full benefit from their agricultural resources By producing food more efficiently resources can be made available for non agricultural development and other needs beyond the essentials of food and fibre This text provides an introductory outline of the analytical principles involved in appraising the efficiency of crop fertilizer and livestock feed response It provides students of both agricultural science and economics with a simple but formal exposition of the why how and wherefore of the principles of crop and livestock analysis thereby helping to further co operative effort among biological and economic researchers The third edition has been updated and revised with additions relating to the principles of modelling the concept of economic duality as pertinent to response processes the appraisal of aggregate response and the economics of response research

*Agricultural Economics and Rural Sociology* Wallace C. Olsen, 1991 The first of an eight volume series The Literature of the Agricultural Sciences this book analyzes the trends in the published literature of agricultural economics and rural sociology during the past fifty years It uses citation analysis and other bibliometric techniques to identify the primary journals report series and monographs of current importance to the developed industrial countries as well as those in the Third World

Issues in Indian Agricultural Development M. Zarkovic, 2019-04-10 This work analyzes growth and structural change in Indian agriculture over the last three decades In order to develop a global perspective the Indian agricultural growth experience is introduced using parallels and contrasts with other parts of the Third World The book is characterized by an empirical approach to the underlying economic data and a multi disciplinary approach to the ramifications of agricultural growth Considered among these are the transformation of the female labor force population migrations and changes in human welfare This book differs from the numerous others on Indian agriculture insofar as it takes a regional perspective focusing on the causes and effects of inter state variations
