Seventy years ago Mortimer Adler sat down at a manual typewriter By his side was a list of authors a pyramid of books and 102 great ideas the 102 objects of thought that have collectively defined Western thought for more than 2 500 years He began writing in alphabetical order beginning with Angel and ending with World The essays originally published in the Syntopicon were and remain the centerpiece of Encyclopaedia Britannica s Great Books of the Western World These essays never before available except as part of the Great Books are according to Clifton Fadiman Adler s finest work Each essay War and Peace Love God Truth treats each idea as if the original authors from Homer to Freud from Marcus Aurelius to Virginia Woolf whose writings the ideas are drawn from were sitting around a table deep in conversation His purely descriptive synthesis presents the key points of view on almost 3 000 questions without endorsing or favoring any one of them More than a thousand pages containing more than half a million words on more than two millennia of Western thought The Great Ideas is a fitting capstone to the career of Mortimer J Adler The actual writing of the essays took 26 months seven days a week and no vacations or recesses Writing the 102 essays was like writing 102 books I think it was the most arduous and demanding stint of writing I have ever undertaken Mortimer J Adler *Resources in Education* ,1999-04 **Handbook on Teaching Health Economics** Platt, Maia,Goodman, Allen C.,2021-09-14 This Handbook features the best teaching practices in the Health Economics HE field over the past decade HE is still considered a new field in the world of economics The teaching materials are designed for and suitable to HE specializations housed in economics departments schools of public health health professions health sciences nursing pharmacy business or public health administration **Economics and the Environment** Curt L. Anderson,1996 Teachers and students learn about the complementary relationship between their own economic wellbeing and the natural resources of the environment The lessons can be used in high school economics environmental studies social issues and natural science courses Teaching Economics Online Abdullah Al-Bahrani,Parama Chaudhury,Brandon J. Sheridan,2024-08-06 In the light of the Covid 19 pandemic this book is not only timely but essential reading providing valuable insight into teaching economics both online and in a blended online in person format Diverse in scope Teaching Economics Online combines past experience with innovative ideas on how to design teaching and improve the overall learning experience whilst remaining inclusive effective and resilient Educational Innovation in Economics and Business VI Tor A. Johannessen,Ansgar Pedersen,Kurt Petersen,2013-04-17 Business education and business research has often been criticized by the business community which claims that much of it is mainly directed at the establishment of teachers and researchers themselves instead of distributing their knowledge to the business community It may seem that many universities and other research institutions have turned into mere knowledge manufacturers where the emphasis is

more on the output volume than on quality of relevance with little or no consideration for the end users As universities and corporations attempt to prepare management to be alert to future changes improved and even brand new teaching methodologies are required The main focus of the present volume is on the distribution and selection of new knowledge How can business educators deliver new knowledge to students and the business community more rapidly than before How should we define the core business curriculum when new knowledge becomes old knowledge **Great Ideas for Teaching**

Economics Ralph T. Byrns, Gerald W. Stone, 1987 *Teaching Economics in Troubled Times* Mark C. Schug, William C. Wood, 2011-01-03 In the Great Recession of 2007-2010 Americans watched their retirement savings erode and the value of their homes decline while the unemployment rate increased and GDP sank New demands emerged for unprecedented government intervention into the economy While these changes have a dramatic impact on society at large they also have serious implications for the content and teaching of economics Teaching Economics in a Time of Unprecedented Change is a one stop collection that helps pre and in service social studies teachers to foster an understanding of classic content as well as recent economic developments Part I offers clear and teachable overviews of the nature of today's complex economic crisis and the corollary changes in teaching economics that flow from revising and updating long held economic assumptions Part II provides both detailed best practices for teaching economics in the social studies classroom and frameworks for teaching economics within different contexts including personal finance entrepreneurship and history Part III concludes with effective strategies for teaching at the elementary and secondary school levels based on current research on economic education From advice on what every economics teacher should know to tips for best education practices to investigations into what research tells us about teaching economics this collection provides a wealth of contextual background and teaching ideas for today's economics and social studies educators Additional information and resources can be found at the authors website newecon-teaching.com *Advanced Placement Economics* John S. Biographical Dictionary of the United States Secretaries of the Treasury, 1789-1995 Bernard S. Katz, C. Daniel Vencill, 1996-12-09 Describing the men who have led the U S Treasury since its creation in 1789 this book profiles those who have held the cabinet position of Secretary of the Treasury from Alexander Hamilton to Robert Rubin Each profile provides the reader with an understanding of the man the problems he faced and the contributions he made While focusing on the

economic policy problems of an era and the solutions the secretary offered each profile also includes a vignette illustrating the secretary's personality and background Some represent backgrounds of money and power others backgrounds of simplicity and anonymity Some came to the office with greater stature than when they left while others made a significant mark on our nation's financial history Alexander Hamilton the first Secretary of the Treasury besides collecting and dispersing the public revenue made the Treasury a prime agency for promoting the country's economic development and fiscal soundness Since the Great Depression the Treasury's regulatory functions have been articulated and elaborated Working with the President's cabinet and with maximum statistical data the secretaries have sought to analyze the economic outlook and to coordinate official actions including policies to maintain a strong and stable U S dollar The essays in this book written by 24 authorities illustrate how the Secretary of the Treasury is responsible for formulating and recommending domestic and international financial economic and tax policy participating in the formulation of broad fiscal policies with general significance for the economy and managing the public debt The biographies illustrate continuing themes of fiscal management as our nation evolved over 200 stormy years of history They also provide an intimate look at 69 individual secretaries with stories and facts about their leadership ideas style and administrative prowess together with their personality and family lives

The Journal of Economic Education ,1986 **Entropy Economics** James K. Galbraith,Jing Chen,2025-01-16 Economists dream of equilibrium It's time to wake up In mainstream economics markets are ideal if competition is perfect When supply balances demand economic maturity is orderly and disturbed only by shocks These ideas are rooted in doctrines going back thousands of years yet as James K Galbraith and Jing Chen show they contradict the foundations of our scientific understanding of the physical and biological worlds Entropy Economics discards the conventions of equilibrium and presents a new basis for thinking about economic issues one rooted in life processes an unequal world of unceasing change in which boundaries plans and regulations are essential Galbraith and Chen's theory of value is based on scarcity and it accounts for the power of monopoly Their theory of production covers increasing and decreasing returns uncertainty fixed investments over time and the impact of rising resource costs Together their models illuminate key problems such as trade finance energy climate conflict and demography Entropy Economics is a thrilling framework for understanding the world as it is and will be keenly relevant to the economic challenges of a world threatened with disorder
