Office of Inter-American Affairs, *The Effects of Economic News on Commodity Prices* Mr.Shaun K. Roache,Mr.Marco Rossi,2009-07-01 The paper uses an event study methodology to investigate which and how macroeconomic announcements affect commodity prices Results show that gold is unique among commodities with prices reacting to specific scheduled announcements in the United States and the Euro area such as indicators of activity or interest rate decisions in a manner consistent with gold s traditional role as a safe haven and store of value Other commodity prices where such news is significant exhibit pro cyclical sensitivities and these have risen somewhat as commodities have become increasingly financialized These results are important for those trading in the commodity markets on a frequent basis and long term market participants that take their decisions based on information on price fundamentals which are reflected in the release of macroeconomic announcements *Spillovers to Emerging Markets from US Economic News and Monetary Policy* Philipp Engler,Mr. Roberto Piazza,Galen Sher,2023-05-19 When the U S economy sneezes do emerging markets catch a cold We show that economic news and not just monetary policy in the United States affects financial conditions in emerging markets News about U S employment has the strongest effects followed by news about economic activity and about vaccines during the COVID 19 pandemic News about inflation has instead limited effects on average A key channel of international transmission of U S economic news appears to be the risk perceptions or risk aversion of international investors We also

show that some of the transmission of U S economic news occurs independently of the U S monetary policy reaction Finally we expand on evidence that financial conditions in the U S and emerging markets respond differently to U S monetary policy surprises depending on the reaction of US stock prices **Iran Economic News** ,1975 *Selected Readings of International Financial and Economic News 2015* SUNG TZU-WEN,2015-02-26 This e book aims to enhance the undergraduate students ability to understand absorb and analyze international financial and economic news All contents in this e book are taken from the website of VOA Learning English <http://learningenglish.voanews.com> By the end of reading this e book students will expand their international perspective and develop a global vision **Institute News** Institute for Economic Research,Northwestern University (Evanston, Ill.). Cushman, 1997-01-01 In Europe both the public and private sector organizations focused on the outflow of jobs and the rise in unemployment due to high labor costs high public support program costs and the failure of the European Community to become a Common Market In Asia Japan underwent a large emigration of production offshore due to the high yen to dollar ratio a lengthy recession and a massive government aid program which failed Democracy and the News Herbert J. Gans, 2004 American democracy was founded on the belief that ultimate power rests in an informed citizenry But that belief appears naive in an era when private corporations manipulate public policy and the individual citizen is dwarfed by agencies special interest groups and other organizations that have a firm grasp on real political and economic power In Democracy and the News one of America's most astute social critics explores the crucial link between a weakened news media and weakened democracy Building on his 1979 classic media critique Deciding What's News Herbert Gans shows how with the advent of cable news networks the internet and a proliferation of other sources the role of contemporary journalists has shrunk as the audience for news moves away from major print and electronic media to smaller and smaller outlets Gans argues that journalism also suffers from assembly line modes of production with the major product being publicity for the president and other top political officials the very people citizens most distrust In such an environment investigative journalism which could offer citizens the information they need to make intelligent critical choices on a range of difficult issues cannot flourish But Gans offers incisive suggestions about what the news media can do to recapture its role in American society and what political and economic changes might move us closer to a true citizen's democracy Touching on questions of critical national importance Democracy and the News sheds new light on the vital importance of a healthy news media for a healthy democracy **Fuel Economy News** , **The Beverage News** , 1927
