The Econocracy Joe Earle, Cahal Moran, Zach Ward-Perkins, 2017-07-06 A century ago the idea of the economy didn't exist Now economics is the supreme ideology of our time with its own rules and language The trouble is most of us can't speak it This is damaging democracy Dangerous agendas are hidden inside mathematical wrappers controversial policies are presented as proven by the models of economic science Government is being turned over to a publicly unaccountable technocratic elite The Econocracy reveals that economics is too important to

be left to the economists and shows us how we can begin to participate more fully in the decisions which affect all our futures

International Bibliography of Economics Compiled by the British Library of Political and Economic Science, 2001-11-22
IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *Reclaiming economics for future generations* Lucy Ambler, Joe Earle, Nicola Scott, 2022-01-25 Today's economies fail to recognise that we are in a rapidly worsening crisis reproducing and often worsening vast and harmful inequalities between people and countries The current models are unsustainable and at a time when global temperatures are rising and divides are deepening humanity is left in a rapidly worsening situation of its own making the destruction of the living world which will make large parts of the earth uninhabitable Without access to the knowledge skills or tools to build a better future local national and global economies will continue to fail to address the interlinked challenges of systemic racism inequalities faced by women the Covid 19 pandemic and the nature and climate emergency Across the world economics students are coming together under the banner of the student movement Rethinking Economics to create a better economics one which can help to create a world where all our children can flourish regardless of their gender background or birthplace Drawing on over sixty interviews with students and professionals from identities and backgrounds marginalised in economics and a wide range of global and historical research this book illustrates the ways in which the discipline is currently not fit for purpose and sets out a vision for how it can be diversified decolonised and democratised The struggle to reclaim economics could not be more crucial our futures depend on it This book explains how it can be done **Economics and Climate Emergency** Barry Gills, Jamie Morgan, 2022-08-22 This book explores a series of connected themes focused on the role economics and other influential forms of theory and thinking have played in creating the current predicament and the scope for alternatives and how they might be framed Thirty years have passed since the inception of the United Nations Framework Convention on Climate Change UNFCCC and the beginning of policy on climate change Thirty wasted years To most politicians long term collective interest has been denominated in meaningless units of time a never and forever that has continually delayed action From complacency has come potential disaster and we are now living in a time of climate emergency and ecological breakdown The next decade is a pivotal period requiring fundamental change But numerous impediments remain Continual material energy and economic growth on a planetary scale are manifestly impossible and yet economic theory takes these as a given and political leadership and policy seem unwilling to accept brute reality Instead they offer a series of implausible commitments and pledges rooted in technofixes without addressing the fundamental drivers of the problems the world faces The edited volume explores the issues and offers a variety of ways to think through the problems at hand from postgrowth degrowth and social ecological economics to policy assemblage and transversalism The chapters in this book were originally published in the journal *Globalizations* Green Economics David Burningham, John Davies, 1999 This text is part of a series

which reflect the changing face of the economic climate and business world It is specifically focused to the needs of AS A level and first year undergraduate students It includes a more European and global perspective **Multi Pack** John Sloman,2004-10-01 **Essential Economics for Business (formerly Economics and the Business Environment)** John Sloman,Elizabeth Jones,2014-02-05 Want to see economics in action Search online for the Sloman Economics News Site a blog that s updated several times a week with current affairs and topical stories all linked into your textbook so you can explore the background to the issues more deeply Essential Economics for Business presents the core principles of microeconomics and macroeconomics applied to the world of business while also looking at wider topical business issues such as business strategy corporate social responsibility ethics and the state of the global environment in which we live Up to date case studies examine everything from the impact of the financial crisis to the operation of specific businesses to illustrate how economic theory relates to real business issues Please note that the product you are purchasing does not include MyEconLab MyEconLab Join over 11 million students benefiting from Pearson MyLabs This title can be supported by MyEconLab an online homework and tutorial system designed to test and build your understanding Would you like to use the power of MyEconLab to accelerate your learning You need both an access card and a course ID to access MyEconLab These are the steps you need to take 1 Make sure that your lecturer is already using the system Ask your lecturer before purchasing a MyLab product as you will need a course ID from them before you can gain access to the system 2 Check whether an access card has been included with the book at a reduced cost If it has it will be on the inside back cover of the book 3 If you have a course ID but no access code you can benefit from MyEconLab at a reduced price by purchasing a pack containing a copy of the book and an access code for MyEconLab ISBN 9781292063904 4 If your lecturer is using the MyLab and you would like to purchase the product Go to www.myeconlab.com to buy access to this interactive study programme For educator access contact your Pearson representative To find out who your Pearson representative is visit www.pearsoned.co.uk replocator *The Political Economy and Ethics of Debt Financing* Patrick O'Sullivan,Paolo Ricci,2024-12-04 This book takes a fresh look at an age old controversy in ethics and political economy that stretches right back to Aristotle the morality and the economics of debt financing or the charging of interest on loans It endeavours to show the immense relevance of those ancient debates in the contemporary economy Outside of countries which practise Islam and Islamic finance the charging of interest is taken completely for granted today and little or no thought is devoted to its morality or economic and social impacts This book argues that in fact the question of the morality of charging interest is still debatable and deserves to be considered anew in the 21st century for the light it can shine on certain salient contemporary sources of economic malaise This book will first of all review the ancient debates on these questions stretching back to Aristotle seeking to restate the concerns in terms of contemporary economic theories and realities It will also then delve into the current practices in respect of lending of all kinds that can be found in those Islamic countries and financial institutions which endeavour to follow the

prohibition of riba charging of any kind of interest This will be contrasted with the impact of interest and debt financing in the contemporary non Islamic economies arguing that debt financing of businesses promotes greater rates of bankruptcy over the business cycle and that the charging of interest on loans for current consumption purposes will over time increase inequality and inequitable concentration of wealth in societies where it is practised It will also be shown how in a system without predetermined interest charges problems of exponentially exploding government debt could largely and neatly be avoided by linking bondholder rewards to levels of fiscal proceeds of states This book will be of significant interest to readers in ethics moral philosophy and political economy as well as to policymakers and thinkers grappling with issues around debt burdens public and private inequality and fairness **The British National Bibliography** Arthur James Wells,2006
