## **Economy Of The Unlost:**

Economy of the Unlost Anne Carson, 2009-04-11 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point Anne Carson launches an exploration poetic in its own right of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust whose economies of language are notorious. Asking such questions as: What is lost when words are wasted and Who profits when words are saved, Carson reveals the two poets' striking commonalities. In Carson's view, Simonides and Celan share a similar mentality or disposition toward the world, language, and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century B.C. Greece was giving way to one based on money and commodities, while Celan's life spanned pre and post-Holocaust worlds and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style and proposes a comparison with Celan's interest in the negative design of printmaking. Both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences: Simonides' fundamental faith in the power of the word, Celan's ultimate despair, as well as their similarities. It provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

*Deutungsperspektiven auf Celan bei Anne Carson* Monika Schmitz-Emans, 2022 *Economy of the Unlost* Reading Simonides of Keos with Paul Celan, so nennt die Schriftstellerin, Theatermacherin, Buchgestalterin und Altphilologin Anne Carson eine 1999 erschienene längere Abhandlung. Die Formulierung des eingeklammerten Untertitels suggeriert eine ungewöhnliche Perspektive. Celan soll offenbar dabei helfen, Simonides zu lesen; der moderne Dichter in den Dienst einer Annäherung an den antiken Dichter treten und nicht etwa umgekehrt der antike Dichter als Vorläufer und Wegbereiter Celans interpretiert werden. Mit Simonides werden in Carsons Abhandlung verschiedene Themen assoziiert: eine Ökonomie der poetischen Mittel, unter anderem im Sinn eines Transports von Kontrafaktischem zugleich mit Faktischem, also eines Sprechens mit gedoppelter Aussage sowie eine poetische Kunst des Erinnerns. Von beiden Themen her stellt Carson Beziehungen zu Celan her, nicht unbedingt direkte Analogien, aber doch Korrespondenzen hinsichtlich der Poetik und der Auffassung über die Funktionen von Dichtung. Sie liest hierin eine breite Rezeptionsspur, folgend Celans Gedichte als Auseinandersetzung mit dem Tod und den Toten, im Zeichen der Holocausterfahrung und des Wunsches nach Gedenken. Carson betrachtet auch Celan als einen ökonomischen Dichter, ausgehend vom Bild des Sprachgitters von Konzepten der

Reinigung Verknappung Kondensierung Auch Celan verbindet das Faktische mit dem Kontrafaktischen Carson prapariert aus poetischen Texten der von ihr kommentierten Dichter vor allem Sprachbilder heraus um sie zu kommentieren und sie denkt selbst dabei gern am Leitfaden von Sprachbildern Welche Art von Wissen aber vermittelt ihr im Stil einer wissenschaftlichen Abhandlung verfasster Text bei Celan Und bei Simonides Das Echo das Economy of the Unlost in Fachkreisen gefunden hat war geteilt teils ausnehmend kritisch teils anerkennend Wie auch immer man den Erkenntniswert die Vermittlungsleistung den hermeneutischen oder eben posthermeneutischen Ertrag des Essays bewertet bei einem Gegenstand gibt er doch in jedem Fall Aufschluss bei Carsons eigene Poetik Er kann als prägnante Heranführung an ihr eigenes Werk ihre eigene Poetik gelesen werden

*The Ancient Economy* Joseph Gilbert

Manning, Ian Morris, 2005 Historians and archaeologists normally assume that the economies of ancient Greece and Rome between about 1000 BC and AD 500 were distinct from those of Egypt and the Near East. However, very different kinds of evidence survive from each of these areas and specialists have as a result developed very different methods of analysis for each region. This book marks the first time that historians and archaeologists of Egypt, the Near East, Greece, and Rome have come together with sociologists, political scientists, and economists to ask whether the differences between accounts of these regions reflect real economic differences in the past or are merely a function of variations in the surviving evidence and the intellectual traditions that have grown up around it. The contributors describe the types of evidence available and demonstrate the need for clearer thought about the relationships between evidence and models in ancient economic history, laying the foundations for a new comparative account of economic structures and growth in the ancient Mediterranean world.

**The Art of Astonishment** Alice Brittan, 2022-02-24 First Place Winner in Non Fiction from the 2023 Next Generation Indie Book Awards. Part literary history, part personal memoir, Alice Brittan's beautifully written *The Art of Astonishment* explores the rich intellectual, religious, and philosophical history of the gift and tells the interconnected story of grace where it comes from and what it is believed to accomplish. Covering a remarkable range of materials from *The Epic of Gilgamesh*, *The Iliad*, and the tragedies of Classical Greece through the brothers Grimm and Montaigne to C. S. Lewis, Toni Morrison, J. M. Coetzee, Elena Ferrante, Karl Ove Knausgaard, and Jhumpa Lahiri, Brittan moves with ease from personal story to myth to theology to literature and analysis, examining the nature of social and communal obligation, the role of the intellectual in times of crisis, and the pleasures of reading. In the 21st century, we might imagine grace as a striking and refined quality that is pleasurable to encounter but certainly not fundamental to anyone's existence or to the beliefs and practices that hold us together or drive us apart. For millennia, though, it has been recognized as essential to the vitality of inner life as well as to the large-scale shifts in perspective and legislation that improve the way we live as a society. Grace is also astonishing, always, as the enormously insightful readings in *The Art of Astonishment* show. Brittan reveals the concept's breadth as sacred and secular, ancient and recent, lived and literary. And in so doing, she shows us how the act of reading is like grace: social but personal, pleasurable and essential.

**Economies of Scale** Ann Keniston, 2023-12-15 This book offers the first sustained study of the ways 21st century North American poems engage with financialization It argues that recent poems about economics not only discuss but enact
