Liddick,2006-10-30 Radical environmentalism and its progeny eco terrorism is a modern phenomenon It is a movement far removed from the elite conservationists of the late 1800s and the mainstream environmental groups that emerged later Drawn from the same pool of concerned individuals who comprise memberships in groups like Greenpeace the Sierra Club and the Wilderness Society disaffected environmentalists have turned from political lobbying to direct action in the form of widespread property destruction and other types of crime and terror Here the author exposes the activities of radical groups determined to make their mark in the movement to protect the earth and its creatures from those they view as predators He covers the major groups as well as less well known ones and provides a careful portrait of who they are what they do and how to address them The growth from the 1980s through the present day of organizations involved in eco terror is noticeable and significant Such groups have caused millions of dollars worth of damage throughout the country The FBI estimates that the ALF ELF have committed more than 600 criminal acts in the United States since 1996 resulting in damages in excess of 43 million Tactics include pulling up survey stakes tree spiking arson and other methods Most groups will claim responsibility for their actions just as other types of terrorist groups will take responsibility for theirs Eco Terrorism takes an objective look at the most radical groups and their terrorist activities in the United States including case examples and analysis of the methods and rhetoric the groups employ It uncovers the losses both to individuals and the community as a result of these methods and it describes the ideologies motivations history and activities of the political movements that have been labeled environmental terrorism *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 **Environmental Security and Ecoterrorism** Hami Alpas,Simon M.
