

The background of the book cover is an abstract, textured composition. It features a central, stylized face or mask rendered in shades of orange, brown, and green. The face has large, dark, almond-shaped eyes and a prominent, dark, curved line for a mouth. The face is surrounded by swirling, organic shapes in various colors, including orange, green, and grey, creating a sense of movement and depth. The overall style is reminiscent of mid-20th-century abstract art.

Ecrits Dailleurs Georges Bataille Et Les Ethnologues:

Écrits d'ailleurs. Georges Bataille et les ethnologues. , **Eroticism in Georges Bataille and Henry Miller**
Gilles Mayné,1993 *Georges Bataille* Stuart Kendall,2007-08-30 Georges Bataille was arguably the greatest influence on the poststructuralist revolution in twentieth century thought and literature yet few truly understand his work and legacy Stuart Kendall now translates the work and life of this renowned French writer anthropologist and philosopher into a concise yet informative biography that reveals fascinating facets of this intellectual giant Until his death in 1962 Bataille was an instrumental force in philosophical debate acting as a foil for both Surrealism and Existentialism and advocating radical views that spanned the entire spectrum of political thought Georges Bataille chronicles these aspects of his intellectual development as well as tracing out his pivotal role in the creation of the College of Sociology and how his writings in aesthetics and art history laid the groundwork for visual culture studies Kendall positions Bataille at the heart of a prodigious community of thinkers including Andr Breton Jean Paul Sartre and Jacques Lacan A compelling account Georges Bataille will be invaluable for all thinkers who have benefited from Bataille s lasting contributions Rethinking the Political Simonetta Falasca-Zamponi,2011 A compelling account of a controversial and innovative episode in sociological thought **War and the Cosmos in Picasso's Texts, 1936-1940** Lydia Gasman,2007-04 War and the cosmos in Picasso s texts 1936 1940 is a study that builds upon the material and ideas discussed in my 1981 Ph D dissertation Mystery magic and love in Picasso 1925 1938 Picasso and the Surrealist poets The Allure of Decadent Thinking Carl Olson,2013-01-22 Carl Olson offers a compelling and provocative argument against the application of postmodern thought to Religious Studies showing how such radically skeptical thinking undermines subverts and distorts the study of religion "Appropriated Photographs in French Surrealist Periodicals, 1924-1939 " Linda Steer,2017-07-05 The first monograph to analyze the Surrealist gesture of photographic appropriation this study examines found photographs in three French Surrealist reviews published in the 1920s and 1930s *La Révolution surréaliste* edited by Andr Breton *Documents* edited by Georges Bataille and *Minotaure* edited by Breton and others The book asks general questions about the production and deployment of meaning through photographs but addresses more specifically the construction of a Surrealist practice of photography through the gesture of borrowing and re contextualization and reveals something crucial both about Surrealist strategies and about the way photographs operate The book is structured around four case studies including scientific photographs of an hysteric in Charcot s clinic at the Salpêtrière hospital positioned as poetry rather than pathology and one of the first crime scene photographs depicting Jack the Ripper s last victim radically transformed into a work of art Linda Steer traces the trajectory of the found photographs from their first location to their location in a Surrealist periodical Her study shows that the act of removal and re framing highlights the instability and mutability of photographic meaning an instability and mutability that has consequences for our understanding both of photography and of Surrealism in the 1920s and 1930s **The Allure of Decadent Thinking** Carl

Olson,2013-03-07 The use of postmodern thought to approach the study of religion threatens to call into question the values and representational mode of thinking typical of the field Religious studies with a radical scepticism grounded in an embrace of decadence by postmodern thinkers has the potential to undermine subvert and distort the study of religion making it difficult to understand the subject if such an approach is uncritically adopted by scholars seeking new ways to study it

Race Theory and Literature Pauline Moret-Jankus,Adam J. Toth,2019-06-11 This study is based on the primary assumption that literature and racial theories have a peculiar if not unique interplay offering an in depth exploration of the very specific way in which literature and conceptions dealing with race interact Recent scholarship has started to examine this relationship although either with a general focus on a specific literary tradition or period or belong more to historiography than to an aesthetic analysis This volume on the other hand presents recent and stimulating scholarship extending from the eighteenth century into the twentieth Furthermore the literary traditions explored here differ from a geographical and cultural point of view encompassing French British German and French Lithuanian literatures but also from the perspective of their genre namely prose fiction poetry ethnographic literature and essays Among others the reader will find reflections on authors such as Bataille Schlegel Coleridge Oscar V de L Milosz Kafka Kleist Voltaire and Buffon

Christianity and Confucianism Christopher Hancock,2020-12-10 Christianity and Confucianism Culture Faith and Politics sets comparative textual analysis against the backcloth of 2000 years of cultural political and religious interaction between China and the West As the world responds to China s rise and China positions herself for global engagement this major new study reawakens and revises an ancient conversation As a generous introduction to biblical Christianity and the Confucian Classics Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness East and West are shown to have shaped the mind heart culture philosophy and politics of the other and far more perhaps than either knows or would want to admit Christopher Hancock has provided a rich and stimulating resource for scholars and students diplomats and social scientists devotees of culture and those who pursue wisdom and peace today *Promised*

Lands Sam Rohdie,2019-07-25 An attempt to locate cinema alongside philosophy painting geography and travel in terms of a history of modernism The book focuses on a collection of geographical and ethnographic films and photographs amassed by banker Albert Kahn in the 1900s arguably an instance of French modernism **French XX Bibliography** Susquehanna

University Press,1991-09 This series of bibliographical references is one of the most important tools for research in modern and contemporary French literature No other bibliography represents the scholarly activities and publications of these fields as completely Coming to Shore Marie Mauzä,Michael Eugene Harkin,Sergei Kan,2004-01-01 The Northwest Coast of

North America was home to dozens of Native peoples at the time of its first contact with Europeans The rich artistic ceremonial and oral traditions of these peoples and their preservation of cultural practices have made this region especially attractive for anthropological study Coming to Shore provides a historical overview of the ethnology and ethnohistory of this

region with special attention given to contemporary theoretically informed studies of communities and issues. The first book to explore the role of the Northwest Coast in three distinct national traditions of anthropology: American, Canadian, and French. *Coming to Shore* gives particular consideration to the importance of Claude Lévi-Strauss and structuralism as well as more recent social theory in the context of Northwest Coast anthropology. In addition, contributors explore the blurring boundaries between theoretical and applied anthropology as well as contemporary issues such as land claims, criminal justice, environmentalism, economic development, and museum display. The contribution of Frederica de Laguna provides a historical background to the enterprise of Northwest Coast anthropology as do the contributions of Claude Lévi-Strauss and Marie Mauzé. Marie Mauzé is a senior researcher at the Centre National de la Recherche Scientifique in Paris. Her books include *Present Is Past: Some Uses of Tradition in Native Societies*. Michael E. Harkin is a professor of anthropology at the University of Wyoming and the editor of *Reassessing Revitalization Movements: Perspectives from North America and the Pacific Islands* (Nebraska, 2004). Sergei Kan is a professor of anthropology and Native American studies at Dartmouth College and author of *Memory Eternal: Tlingit Culture and Russian Orthodox Christianity through Two Centuries*.

Reintroducing Marcel Mauss Christian Papilloud, 2023-11-24. This reintroduction to the life and work of Marcel Mauss highlights his coherent and original thought both as an academic and an engaged intellectual of his time. Since his work regained attention in social sciences in the later 20th century, *Reintroducing Marcel Mauss* also emphasises the progression of research on Mauss's thought, bringing to light various neglected aspects of his scientific project, including his political commitment and writings. With a review of the contemporary research on Mauss's legacy, it offers a fuller understanding of the questions with which he was concerned: questions which converged in the challenge of working out alternative ways for a social life that promotes a genuinely social society inspired by socialist and cooperative values. It will therefore appeal to scholars of sociology and anthropology with interests in the history and development of sociology and the contemporary importance of classical social theory.

Godless Intellectuals? Alexander Riley, 2010. Few have failed to recognize the return of the religious as a factor in social theory. None so far has more cogently explained the contributions of French social thought to the challenge of the Sacred in our day than Riley. a HARLES LEMERT author of *Durkheim's Ghosts*.

Georges Bataille, à l'extrémité fuyante de la poésie Sylvain Santi, 2007. À l'heure où l'œuvre de Georges Bataille a acquis une nouvelle dimension avec la publication de ses romans et de ses récits, dans la Pléiade, il est temps de reconnaître toute son importance au mot de poésie qui, dans son œuvre, clarifie le mieux le rapport complexe que cet auteur entretenait avec la littérature, tous genres confondus. Bien que le temps soit venu où les études critiques consacrent Bataille, se contentaient quand elles prenaient la peine de le faire de le reléguer la poésie au rang de question mineure, force est de constater que celle-ci reste encore marginalisée et mal comprise. Dans les études les plus récentes, la méditation de Bataille n'est pas d'un bloc fragmentaire, elle est plutôt faite de reprises incessantes où chaque fois la question de la poésie est rejouée, abordée à partir d'un biais nouveau, comme si Bataille trouvait dans cette

multiplication des angles d'attaque la meilleure manière de s'approcher d'un objet qu'il savait le plus fuyant Ainsi seront tour
tour envisagés les rapports que Bataille entretint avec le surréalisme et plus particulièrement avec la critique automatique l'
articulation qu'il voulut opérer entre la poésie et l'expérience la manière dont il se servit du sacrifice pour penser les modalités
de la critique de la poésie la façon dont il se mit en jeu dans les poèmes et les rapports que cette mise en jeu entretient avec
celle qu'il tenta travers ses fictions la question enfin de la communauté avec laquelle ses méditations trouvent peut-être leur
plus grand accomplissement si bien que ce qui se formule alors est sans doute ce qui de cette œuvre nous interroge le plus
aujourd'hui Pratiques d'écriture, pratiques de pensée Philippe Sabot, 2001 La littérature est envisagée ici partir de
quelques-unes de ses productions singulières non pas comme seulement comme l'objet d'une réflexion d'ordre esthétique mais
avant tout comme le lieu où se laborent des formes de pensées spécifiques *French Twentieth Bibliography* Peter C.
Hoy, 1991-08 This series of bibliographical references is one of the most important tools for research in modern and
contemporary French literature No other bibliography represents the scholarly activities and publications of these fields as
completely The Myth of the Other Franco Rella, 1994 Rella came of age as a philosopher in Italy during the period of the
crisis of reason or more generally the exhaustion of classical rationality in its authority to structure experience For Rella
unlike many others the tensions of the crisis are productive In *The Myth of the Other* he presents a unique perspective on
four seminal French thinkers Lacan Foucault Deleuze and Bataille Moe's masterful translation brings this remarkable Italian
thinker to American readers for the first time This slim book may very well change the way American scholars think about the
crisis of the other and the self coming out of French poststructuralism **The Art of the Critic** Harold Bloom, 1985
