## **Ecstasy Ritual And Alternate Reality:**

Ecstasy, Ritual, and Alternate Reality Felicitas D. Goodman, 1988-12-22 A cross disciplinary exploration of comparative religion that offers a unified field theory of religion as human behavior In this book anthropologist and spiritual explorer Felicitas Goodman examines ritual the religious trance alternate reality ethics and moral code and the named category designating religion The analysis is divided into two sections The first reviews species wide human traits that form the basis for religious behavior Goodman in speculative examination traces the origins of religion to the dawn of human history when religious ritual was accompanied by gesture rather than full fledged modern speech Ritual is seen as being the expression of the vastness of the drama of human life death birth and procreation The common neurophysiological basis for religious experience is seen to be a particular type of brain tuning the religious altered state of consciousness a trance facilitating contact with an alternate reality The content of this other reality is shown to vary according to the type of adaptation to the habitat The second section describes the religious systems of the world dividing them according to societal type A systematic comparison shows that religions vary according to whether people are hunter gatherers horticulturalists agriculturalists nomadic pastoralists or city dwellers An important book which deserves the careful attention of serious students of religion Religious Studies Review Very few such global interpretations are ever attempted and this one succeeds The book s importance is in the interpretation as well as in the rich data base materials the book presents Willard Johnson **The**

**Impact of Bodily Experience on Paul's Resurrection Theology** Kai-Hsuan Chang, 2021-09-23 Kai Hsuan Chang engages with the longstanding scholarly debate concerning the development of Paul s resurrection theology by investigating the correlation between his bodily experiences and his diverse articulations about resurrection Drawing on insights from cognitive linguistics Chang considers Paul s ideas about resurrection as fundamentally grounded in recurrent patterns of bodily experience arguing that such experience of some religious activities in Paul s time death rites spirit possession and baptism contributed to the formation and development of his resurrection theology Chang demonstrates that developments in Paul s ideas about bodily transformation at resurrection reflected in 1 Corinthians 15 resulted from a change in the experiential patterns on which his new idea is constructed rather than transformation during heavenly ascent as seen in Jewish traditions of resurrection He thus applies cognitive linguistic tools to two considerations first whether Paul had contextual reasons to generate his innovation in 1 Corinthians 15 and second whether Paul s innovation recurred or had continual effects in Christian groups In so doing Chang shows that Paul s innovation directly addressed a contextual issue of death rites in Corinth and exerted a continuing effect on Paul s later ideas of transformation spirit possession and baptism

*Scripturalectics* Vincent L. Wimbush, 2017-05-04 In this book Vincent Wimbush seeks to problematize what we call scriptures a word first used to refer simply to things written the registration of basic information In the modern world the word came to be associated almost exclusively with the center and power defining sacred texts of world religions Wimbush

argues that this narrowing of the valence of the term was a decisive development for western culture His purpose is to reconsider the initially broad and politically charged use of the term Scriptures are excavated not merely as texts to be read but understood as discourse as mimetic rituals and practices as ideologically charged orientations to and prescribed behaviors in the world as structures of relationships and social formations as forms of communication Wimbush is naming and constructing a new transdisciplinary critical project which uses the historical and modern experiences of the Black Atlantic as resources for framing categorization and analysis Using Chinua Achebe s novel *Things Fall Apart* as a touchstone each chapter offers a close reading and analysis of a representative moment in the formation of the Black Atlantic regarded as part of a history of modern human consciousness and conscientization Such a history Wimbush says is reflected in the major turns in what he calls scripturalectics part of the construction of the modern world defined as efforts to manage or control knowledge and meaning
