Fire

- Close all windows and seal the room you are in by closing doors.
- Turn off lights and appliances.
- Crawl beneath smoke to escape a home fire. If you have time, take your dogs with you, but don't endanger yourself.
- Activate the closest fire alarm system.
- Take a deep breath and wait 15 minutes after the fire is extinguished before contacting 911. Fires burn oxygen quicker than they can be refilled.

Earthquake

- Get inside, move away from windows, and remain there until the shaking stops. Outside, go beneath a bridge or building. Avoid electricity wires, trees, and barriers.
- Avoid damaged buildings and leave if unsafe.
- Check on others who may need assistance.

Flood

- Check the weather forecast and make sure you know when the rain is supposed to stop.
- Know your evacuation plan and prepare your emergency kit.
- If you live in a flood-prone area, consider moving valuables to higher ground.
- Find out if there's an evacuation center in your area.

Hurricane

- Turn off the power and turn on all the lights in your home.
- Close all windows and doors, even if it's just for a few minutes.
- Do not use candles or open flames as this can cause a fire hazard.
- Make sure you have food, water and other supplies for at least 72 hours in case of power outages or emergencies that may happen during the storm.
