## **Emergency Sex Other Desperate Measures:**

*Emergency Sex (and Other Desperate Measures)* by Kenneth Cain, Heidi Postlewait and Andrew Thomson Llewellyn Johns, 2006      **Emergency Sex (and Other Desperate Measures)** Kenneth Cain, Heidi Postlewait, Andrew Thomson, 2004

It's early 1990s and three young people working for the UN and Red Cross in Cambodia become friends in the heady atmosphere of the country's first democratic elections. All of them have been attracted to peace keeping in countries both dangerous and alluring for different reasons. Heidi is in need of a challenge and a pay cheque. Ken is full of idealism and Andrew strives to create a better world through his work as a doctor. As the Cold War ends and the New World Order dawns, the three become friends for life. But their journey through a violent decade from Rwanda and Bosnia to Somalia and Haiti challenges their lives and personalities, leaving them utterly changed, both broken and enriched. In this powerful, devastatingly honest memoir, Andrew, Heidi and Ken mingle their distinct voices to paint a searing portrait of life amidst war and genocide, whilst giving eye witness accounts of the thousands of lives that have been destroyed in countries such as Rwanda by the inactivity and greed of the West. Back cover      **Emergency Sex and Other Desperate Measures** Kenneth Cain, Heidi Postlewait, Andrew Thomson, 2004-06-09

This is a true story about three friends trying to bring a bit of decency to some of the most savage and indecent spots on our planet. Back cover      **Emergency Sex (And Other Desperate Measures)** Andrew Thomson, Heidi Postlewait, Kenneth Cain, 2011-05-31

What it's really like on the frontline of humanitarian aid. It's the early 1990s and three young people are looking to change their lives and perhaps also the world. Attracted to the ambitious global peacekeeping work of the UN, Andrew, Ken and Heidi's paths cross in Cambodia from where their fates are to become inextricably bound. Over the coming years, their stories interweave through countries such as Rwanda, Bosnia, Somalia and Haiti, war-torn, lawless places where the intervention of the UN is needed like nowhere else. Driven by idealism, the three struggle to do the best they can, caught up in an increasingly tangled web of bureaucracy and ineffectual leadership. As disillusionment sets in, they attempt to keep hold of their humanity through black humour, revelry and emergency sex. Brutal and moving in equal measure, *Emergency Sex And Other Desperate Measures* explores pressing global issues while never losing a sense of the personal. Deeply critical of the West's indifference to developing countries and the UN's repeated failure to intervene decisively, the book provoked massive controversy on its initial publication. Kofi Annan called for the book to be banned and debate was sparked about the future direction of the UN. Brilliantly written and mordantly funny, it is a book that continues to make waves.      [The International Struggle Over Iraq](#) David M. Malone, 2007

Iraq has dominated headlines in recent years, but its controversial role in international affairs goes back much further. Drawing on unparalleled access to UN insiders, this book is key to understanding one of the most persistent crises in international affairs and the various roles the world's central peace-making forum has played in it. **Representing Genocide** Rebecca Jinks,2016-06-02 This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West Rebecca

Jinks focuses in particular on the canonical 20th century cases of genocide Armenia Cambodia Bosnia and Rwanda Using literature film photography and memorialisation she demonstrates that we can only understand the Holocaust's status as a benchmark for other genocides if we look at the deeper structural resonances which subtly shape many representations of genocide Representing Genocide pursues five thematic areas in turn how genocides are recognised as such by western publics the representation of the origins and perpetrators of genocide how western witnesses represent genocide representations of the aftermath of genocide and western responses to genocide Throughout the book distinguishes between mainstream and other more nuanced and engaged representations of genocide It shows how these mainstream representations the majority largely replicate the representational framework of the Holocaust including the way in which mainstream Holocaust representations resist recognising the rationality instrumentality and normality of genocide preferring instead to present it as an aberrant exceptional event in human society By contrast the more engaged representations often but not always originating from those who experienced genocide tend to revolve around precisely genocide's ordinariness and the structures and situations common to human society which contribute to and become involved in the violence

**The United Nations in the Twenty-first Century** Marcus F. Franda, 2006 The United Nations is confronting a severe crisis at the beginning of the twenty first century Its capabilities have been called into question amid a rash of recent scandals and charges of leadership mismanagement bureaucratic ineptitude and corrupt activities Current world opinion seems to express elevated concern about the organization's ability to deal with the complexity of international relations in the new millennium Despite six decades of survival its membership still appears unable to maintain a consistent focus or set of practices to pursue common goals The United Nations in the Twenty First Century analyzes the significance of the many forces and events affecting the UN's efforts at reform It provides a detailed examination of these processes for all of the major UN organs and agencies including chapters on the Secretaries General the Secretariat the General Assembly the Security Council and ECOSOC The chapters on the Secretaries General are the only detailed discussion that compares contrasts and evaluates the tenures of the seven people who have headed the UN The book's concluding chapters focus on Kofi Annan's reform agenda as it relates to previous UN reform experiences and assess the future impact of recent UN related scandals and charges of mismanagement

The Personal and the Professional in Aid Work Anne-Meike Fechter, 2016-03-16 This book considers how the personal and the professional dimensions are related and how they matter for aid work The contributions to this edited volume are based on the assumption that all actors are relevant in development including national and international aid workers A key question which the book explores is why the personal so often remains unacknowledged in development studies even though its salience for aid workers is well documented One possible reason is an implicit narrative of aid work as altruistic and self sacrificing which renders it inappropriate to devote much attention to the experiences of development professionals themselves In order to redress this this book critically considers the kind of difference they make

and aims to understand how they respond to the challenges of their work The book explores their efficacy as human beings and employees with individual subjectivities social and cultural beliefs and practices and documents how these shape their involvement in development processes This book was published as a special issue of Third World Quarterly Love and Liberation Lauren Carruth, 2021-10-15 Lauren Carruth's *Love and Liberation* tells a new kind of humanitarian story The protagonists are not volunteers from afar but rather Somali locals caring for each other nurses aid workers policymakers drivers community health workers and bureaucrats The contributions of locals are often taken for granted and the competencies aspirations and effectiveness of local staffers frequently remain muted or absent from the planning and evaluation of humanitarian interventions structured by outsiders Relief work is traditionally imagined as politically neutral and impartial and interventions are planned as temporary extraordinary and distant Carruth provides an alternative vision of what humanitarian response means in practice not driven by International Humanitarian Law the missions of Western relief organizations or trends in the aid industry or academia but instead by what Somalis call samafal Samafal is structured by the cultivation of lasting relationships of care interdependence kinship and ethnic solidarity Samafal is also explicitly political and potentially emancipatory humanitarian responses present opportunities for Somalis to begin to redress histories of colonial partitions and to make the most out of their political and economic marginalization By centering *Love and Liberation* around Somalis understanding and enactments of samafal Carruth offers a new perspective on politics and intervention in Africa

Weiss, 2019-10-22 This completely revised and updated eighth edition serves as the definitive text for courses in which the United Nations is either the focus or a central component Built around three critical themes in international relations peace and security human rights and humanitarian affairs and sustainable human development the eighth edition of *The United Nations and Changing World Politics* guides students through the seven turbulent decades of UN politics This new edition is fully revised to incorporate recent developments on the international stage including new peace operations in Mali and the Central African Republic ongoing UN efforts to manage the crises in Libya Syria and Iraq the Iran Nuclear Deal and the new Sustainable Development Goals The authors discuss how international law frames the controversies at the UN and guides how the UN responds to violence and insecurity gross violations of human rights poverty underdevelopment and environmental degradation Students of all levels will learn that the UN is a complex organization comprised of three interactive entities that cooperate and also compete with each other to define and advance the UN's principles and purposes

*Between Samaritans and States* Jennifer Rubenstein, 2015-01-29 This book provides the first book length English language account of the political ethics of large scale Western based humanitarian INGOs such as Oxfam CARE and Doctors Without Borders These INGOs are often either celebrated as heroes or do good machines or maligned as incompetents on the road to hell In contrast this book suggests the picture is more complicated Drawing on political theory philosophy and ethics along with original fieldwork this

book shows that while humanitarian INGOs are often perceived as non governmental and apolitical they are in fact sometimes somewhat governmental highly political and often second best actors As a result they face four central ethical predicaments the problem of spattered hands the quandary of the second best the cost effectiveness conundrum and the moral motivation trade off This book considers what it would look like for INGOs to navigate these predicaments in ways that are as consistent as possible with democratic egalitarian humanitarian and justice based norms It argues that humanitarian INGOs must regularly make deep moral compromises In choosing which compromises to make they should focus primarily on their overall consequences as opposed to their intentions or the intrinsic value of their activities But they should interpret consequences expansively and not limit themselves to those that are amenable to precise measurements of cost effectiveness The book concludes by explaining the implications of its map of humanitarian INGO political ethics for individual donors to INGOs and for how we all should conceive of INGOs role in addressing pressing global problems **The United Nations**

**and Changing World Politics** David P. Forsythe, Roger A. Coate, Kelly-Kate Pease, 2013-07-30 A comprehensive and contemporary examination of the United Nations using a thematic approach to explore the UN s role in three core issues in international relations international peace and security human rights and humanitarian affairs and building peace through sustainable development **Kakuma Refugee Camp** Bram J. Jansen, 2018-06-15 Kenya s Kakuma refugee camp is one of

the world s largest home to over 100 000 people drawn from across east and central Africa Though notionally still a temporary camp it has become a permanent urban space in all but name with businesses schools a hospital and its own court system Such places Bram J Jansen argues should be recognised as accidental cities a unique form of urbanization that has so far been overlooked by scholars Based on extensive ethnographic fieldwork Jansen s book explores the dynamics of everyday life in such accidental cities The result is a holistic socio economic picture moving beyond the conventional view of such spaces as transitory and desolate to demonstrate how their inhabitants can develop a permanent society and a distinctive identity Crucially the book offers important insights into one of the greatest challenges facing humanitarian and international development workers how we might develop more effective strategies for managing refugee camps in the global South and beyond An original take on African urbanism Kakuma Refugee Camp will appeal to practitioners and academics across the social sciences interested in social and economic issues increasingly at the heart of contemporary development
