Prospects for Democratic Consolidation in East-Central Europe Geoffrey Pridham, Attila Ágh, 2001 Picturing home examines the depiction of domestic life in British feature films made and released in the 1940s It explores how pictorial representations of home onscreen in this period re imagined modes of address that had been used during the interwar years to promote ideas about domestic modernity Picturing home provides a close analysis of domestic life as constructed in eight films contextualising them in relation to a broader offscreen culture surrounding the suburban home including magazines advertisements furniture catalogues and displays at the Daily Mail Ideal Home Exhibition In doing so it offers a new reading of British 1940s films which demonstrates how they trod a delicate path balancing prewar and postwar traditional and modern private and public concerns

Post-Communist and Post-Soviet Parliaments Philip Norton, David M. Olson, 2013-09-13 The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies

The Baltic States After Independence The late Ole Nørgaard, 1999-01-01

The Baltic States After Independence is an excellent and informative account of how the Baltic republics have failed. This excellent book is indispensable for any scholar studying the former Soviet Union. Although this book will be a definitive reference for transition scholars, it deserves a wider audience. I would encourage every economics major to read it or at least parts of it. Too often the economics curriculum, tainted by orthodoxy, ignores the interdependence of economics, politics, and international relations. The authors superbly demonstrate that markets do not develop independently and ahistorically; rather, their development is path dependent and guided by a qualified and efficient state apparatus. I can think of no better book that disparages neoclassical orthodoxy almost to the point of irrelevancy while at the same time vindicating the central tenets of institutionalism. Jack Reardon, *Journal of Economic Issues*. Acclaim for the first edition. The book is of great help in understanding the Baltic states in particular, the survival of what has been referred to as the civil society, and the re-establishment of democracy. Ulf Hansson, *Initiative on Conflict Resolution and Ethnicity*. The second edition of this widely acclaimed book considers the extent to which the Baltic states have succeeded politically and economically in their aspirations to emulate Western institutions since independence. The book has been completely revised since the first edition to account for the rapid changes in the countries themselves and in the theories that attempt to generalize the patterns of development in post-communist countries. The Democratic Transition of Post-Communist Europe M. Petrovic, 2015-12-04

Tracing both economic and political developments through the prism of history as well as more recent developments, this book casts new light on the role of communist history in setting the different regional successes in post-communist transition.

Party Politics in the Western Balkans Vera Stojarová, Peter Emerson, 2013-10-02. This book examines the development of party politics in the region of Western Balkans, describing party politics and analyzing inter-ethnic or inter-party cooperation and competition. Beginning with a thematic overview of the electoral systems and their link to the party systems, the authors consider the legacy of socialist communist parties, compare the nationalist parties in the region, and explore opportunities for the national minorities. The book then provides detailed country case studies on Croatia, Bosnia and Herzegovina, Serbia, Montenegro, Kosovo, Macedonia, and Albania that provide an overview of the development of the respective political system since 1990, presenting key changes over time. Depict important political issues in each of these countries and explain parties' particular policies in relation to these issues. Discuss the level of democracy as well as ethnic minorities in the given states. Explore the extent to which nationalism has dominated party organization, the stability of the parties, important changes in the party policies, and their electoral performance and personalisation of the parties. Bringing together a range of specialist experts on the Balkans, this book will be of interest to students and scholars of party politics, comparative European politics, post-communist politics, nationalism, Southern European and Western Balkan politics. **Cabinets in Eastern Europe** J.

Blondel, F. Müller-Rommel, 2016-01-03. *Cabinets in Eastern Europe* is a comprehensive study which enables the reader to compare the origins, structure, composition, and activities of these cabinets and to draw lessons from this comparison. Each

chapter begins with a survey of the evolution of cabinets since the fall of communism at the beginning of the 1990s The emphasis is then laid on the place of the cabinet in the constitution and on the role of presidents and prime ministers in the formation of the life of each cabinet At a time when most Eastern European countries are candidates for membership in the European Union this volume provides a unique comparative presentation of the way in which cabinets have been evolving in Eastern Europe since the end of communism
