Emerging Issues In Religious Education:

Emerging Issues in Religious Education Gloria Durka, Joanmarie Smith, 1976 **Contemporary Challenges for Religious and Spiritual Education** Arniika Kuusisto, Terry Lovat, 2017-10-02 From being on the margins of scholarly debate for much of the past century and a half religion is being recognized once again as an area of concern for scholars politicians and public policy makers and thus the role of religious and spiritual education has taken on a new importance Apart from its socio political ramifications the place of religiousness and spirituality in the make up of individuals has been given renewed prominence through updated brain science and neuroscientists regularly refer to elements of this brain science in terms such as spiritual intelligence and even mystical consciousness This book explores many of the new directions being taken in the field of religious and spiritual education as new developments challenge the priorities of formal education and open up new avenues for incorporating religion and spirituality into the modern curriculum It asks whether the educational aims of teachers should be focused on specifically personal development or whether religious education should be used to develop understanding of more global and social issues such as citizenship conflict and ethics The book also addresses neuroscientific insights which suggest a need to engage with cognition and emotion in order to create a rich learning environment something to which a particularly contested subject area like religion and spirituality is well placed to contribute This book was originally published as a special issue of the Journal of Beliefs Values *Toward an Adult Church* Jane E. Regan, 2002 Penance Confirmation Eucharist Children participate in these sacraments and many other Catholic rites thanks to America's long standing model of parish catechesis Once children become adults however what becomes of their faith formation In *Toward an Adult Church A Vision of Faith Formation* Jane Regan explores the current structure of parish catechesis Basing her ideas on contemporary theory and traditional practice Regan sets forth an intriguing argument the vitality of the Church depends on establishing a new education paradigm one that is focused on adults How can parishes design a framework for adult catechesis Will such programs be accepted by local church communities Where does children's faith formation fit into the new structure Regan answers these questions and offers ideas for developing a balanced approach to religious education one that addresses the ongoing faith life of adults **Current Issues in the Psychology of Religion**, 2025-02-10 **Foundational Issues in Christian Education** Robert W. Pazmiño, 2008-09 Updated and revised this book explores the essential foundations of Christian education that educators draw upon in their thought and practice *Issues in Religion and Education*, 2015-02-04 *Issues in Religion and Education* Whose Religion is a contribution to the dynamic and evolving global debates about the role of religion in public education This volume provides a cross section of the debates over religion its role in public education and the theoretical and political conundrums associated with resolutions The chapters reflect the contested nature of the role of religion in public education around the world and explore some of the issues mentioned from perspectives reflecting the diverse contexts in which the authors are situated The differences among the

chapters reflect some of the particular ways in which various jurisdictions have come to see the problem and how they have addressed religious diversity in public education in the context of their own histories and politics Contributors are Lori G Beaman Catherine Byrne Christine L Cusack Adam Dinham Lauren L Forbes St phanie Gravel Bruce Grelle Mathew Guest Anna Halafoff Kim Lam Solange Lefebvre Alison Mawhinney Damon Mayrl Asha Mukherjee Heather Shipley Sonia Sikka Geir Skeie Leo Van Arragon and Pamela Dickey Young

Understanding Religious Experiences J. Harold Ellens, 2007-11-30 Today most people feel less interested in religion and more interested in spirituality If you ask what they mean they will tell you that organized religion tends to turn them off but nonetheless they feel a hunger in the heart that they cannot seem to fill They do not mean that they would rather have disorganized religion they mean that institutional religion does not seem to satisfy their spirits and feel there must be something more some better way of experiencing whatever that is for which they are hungry Much new experimentation is going on as a result Some of it is a search for the meaning to fill the soul and satisfy the spirit much of it is a search for meaning on the spiritual level itself Spirituality reaches always toward the question about the meaning of God the meaning of relationships with others the meaning of intimacy and the meaning of soul gratifying insights into truth Here Ellens carefully and sensitively explores the full range of our spiritual natures and the variety of spiritual experiences of which we are capable describing the way our souls and psyches work in our hunger and thirst for meaning He explains in an enlightening and unconventional way why and how every human desires to reflect upon learn and share a heartfelt experience of God and of others Readers will find in this book a description of the meaning of the biblical stories about spiritual experiences in addition to descriptions of the kinds of spiritual experiences that ordinary people are having how they are achieving them and the ways in which they are filling their lives with meaning that goes beyond the horizons of material life The author paints this picture in such a way as to let us in on what biblically based authentic spirituality and spiritual experience really is and why it may or may not necessarily have anything to do with traditional institutionalized religion He carefully and vividly explains the notion of spirituality as it is illustrated in the Bible and discusses spiritual experiences such as prayer epiphany visions and other experiences He considers whether spirituality is mainly a connection with God with others or with both Readers hoping to get a better sense of what it means to be spiritual will have many of their questions answered in these pages
