Emerging Johannesburg:

Emerging Johannesburg Richard Tomlinson, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **A Place That Matters Yet** Sara Byala, 2024-05-31 A Place That Matters Yet unearths the little known story of Johannesburg's MuseumAfrica a South African history museum that embodies one of the most dynamic and fraught stories of colonialism and postcolonialism its life spanning the eras before during and after apartheid Sara Byala in examining this story sheds new light not only on racism and its institutionalization in South Africa but also on the problems facing any museum that is charged with navigating colonial history from a postcolonial perspective Drawing on thirty years of personal letters and public writings by museum founder John Gubbins Byala paints a picture of a uniquely progressive colonist focusing on his philosophical notion of three dimensional thinking which aimed to transcend binaries and thus quite explicitly racism Unfortunately Gubbins died within weeks of the museum's opening and his hopes would go unrealized as the museum fell in line with emergent apartheid politics Following the museum through this transformation and on to its 1994 reconfiguration as a post apartheid institution Byala showcases it as a rich and problematic archive of both material culture and the ideas that surround that culture arguing for its continued importance in the establishment of a unified South Africa

Du Toit, 2006 *Democracy and Delivery Urban Policy in South Africa* tells the story of urban policy and its formulation in South Africa. As such it provides an important resource for present and future urban policy processes. In a series of essays written by leading academics and practitioners, *Democracy and Delivery* documents and assesses the formulation, evolution and implementation of urban policy in South Africa during the first ten years of democracy. The contributors describe the creation of democratic local governments from the time of the 1976 Soweto uprising and the intense township struggles of the 1980s, the formulation of developmental planning and financial frameworks and the delivery of housing and services by the new democratic order. They examine the policy formulation processes and what underlay these, debate the role of research and the influence of international development agencies and assess successes and failures in policy implementation. Looking to the future, the contributors make suggestions based on experience with implementation and changing political priorities. Academics, students, policy makers and government officials as well as an informed public will find this book an enlightening read.

PERCEPTION in Architecture Miriam Mlecek, Claudia Perren, 2015-02-27. Definitions of space are as diverse as the disciplines in which it plays a fundamental role, from science and philosophy to art and architecture. Each field's perception of space is often simplified or reduced. This consequently denies access to new spaces whose definitions and perspectives, strategies and impacts on human perception are rarely considered in any cohesive manner. This is where the Aedes Network Campus Berlin ANCB programme *No Space Without Traits* came in, particularly through artistic approaches. It aimed to open doors into spatial worlds that until now have remained closed. The symposium **PERCEPTION in Architecture HERE and NOW** was part of this programme and invited critical and comprehensive contributions by academics, artists, architects, designers and curators. These presentations are brought together in this volume to reflect upon new spatial concepts and thus access new spaces of perception in architecture. The symposium stimulated a discourse focused on spaces as a collective entity, notions of spatial truth, the multiplicity of experience and Wahrnehmungsapparate as well as physical, visual, acoustic and virtual manifestations of space in relation to social, cultural, historical and political forces.
