Emerging Sociology An International Perspective

Stéphanie Cassilde, Adeline Gilson

Emerging Sociology An International Perspective:

Emerging Sociology Josef Langer, 1992 In this book Josef Langer describes and analyses the development of sociology in different cultures and social systems Emphasis is placed on the reception of sociological classics in non European cultures the development of sociology in times of accelerated social change and the hegemony of sociology with respect to the global system as well as to the discipline within a particular culture

International Perspectives on Emerging Trends and Integrating Research-based Learning across the Curriculum Enakshi Sengupta, Patrick Blessinger, 2021-01-20

Research based universities occupy prime position have multiple roles to play beyond teaching learning and supporting the academic achievements of students Offering an international perspective this book demonstrates how these emerging trends are being viewed across different countries with a broad range of diverse socio cultural backgrounds

International Perspectives on Information Systems Savvas Katsikides, Graham Orange, 2018-10-26 First published in 1998 this book addresses the increasingly important social and organisational issues of information systems development both at the operational level and within a wider social context Reflecting the environmental issues surrounding the development of information systems and the implementation of information technology This book is aimed at supporting information systems courses incorporating a behavioural element or sociology courses with an information systems content

The Diplomacies of New Small States Milan Jazbec, 2017-05-15 Characterized by new research this much needed investigation into the undeveloped field of the sociology of diplomacy offers important new conclusions and suggestions as well as many new ideas gained from practical diplomatic experience The book examines the establishment of diplomacies of the new small states that emerged in Europe after the fall of the Iron Curtain The sociological and organizational application is combined with concepts from the fields of international relations diplomatic studies security studies and international public law A systematic stringent approach to the subject matter makes this book a substantial contribution to the field suited to scholars diplomats students civil servants and journalists alike

New Perspectives on the International Order Bertrand Badie, 2018-06-29 We are told again and again that the world has become increasingly complex and indecipherable However this book reminds us that we are no longer alone in the world that it is time to move away from the mental categories of the Cold War and stop treating all those who challenge our vision of the international order as guilty deviants or Barbarians The author challenges the diplomacy of Western states who want to continue to rule the world against history and in particular that of France which too often oscillates between arrogance indecision and ambiguity The power play is stuck The international order can no longer be regulated by a small club of oligarchs who exclude the weaker ones ignore the demands of societies and ignore the demands for justice that emerge from a new world where the actors are more numerous more diverse and more restive to arbitrary disciplines For this reason this book also offers ways to think an international order that would be if not fair at least less unfair

International Perspectives on Educating for Democracy in Early Childhood Stacy

Lee DeZutter,2023-05-08 This book brings together established and emerging scholars from around the globe to highlight new directions for research on young children as active engaged citizens of classrooms Divided into three sections the volume draws on innovative methods to explore diverse conceptualizations of citizenship children s understandings and effective practice Rejecting traditional views of children as citizens in preparation the volume explores how young children can and do live as citizens and how early childhood educational settings serve as civic forums Chapters discuss the child as citizen in relation to issues including gender class race tribal status and linguistic diversity and ultimately illustrate how sociocultural processes in early years settings can be harnessed to promote the development of democratic dispositions and skills This book establishes citizenship enactment in early childhood education as a robust and growing research area with the potential to shape research policy and practice worldwide As such it will appeal to researchers and academics with an interest in citizenship education democracy and early childhood education as well as postgraduate students of teacher education and those working across international and comparative education more broadly Chapter 20 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Autobiographies of Transformation Mike Keen,Janusz Mucha,2013-05-24 Autobiographies of Transformation is a completely unique history of sociology in Central and Eastern Europe in the post Communist era Through the autobiographies of ten key sociological witnesses from the region the sociological imagination is turned upon itself resulting in a compelling and revealing account of the struggles triumphs and continuing challenges faced The sociologists examined fall into three cohorts early mid and late career As participants each of the sociologists included has witnessed the intersection of history and biography in Central and Eastern Europe As sociologists they have tried and continue to try to connect the two so that they and their fellow citizens may better understand their circumstances and the futures that may follow This revealing book ideal for students and researchers of sociology and Central and Eastern Europe studies provides powerful and compelling autobiographical accounts relating them to the current interest in this area s transformation *Emerging Transnational (In)security Governance* Ersel

Aydinli,2010-02-25 Bringing together leading international scholars with practicing intelligence military and police officers this book provides different theoretical and empirical perspectives on international security cooperation International Perspectives on Language and Work Stéphanie Cassilde,Adeline Gilson,2025-07-02 This volume expands the definitions of

language and work in researching their mutual influences It considers language as a working tool a vector of occupational identity and so on and work as the needed daily interrelation tasks communication constraints and so on The volume covers various national contexts India France Argentina Morocco Portugal Palestine Brazil Singapore and Canada The diversity of countries and linguistic spaces presented here enriches the perspectives in terms of transferring the insights from one situation to another The specific cases discuss among others how an occupation may be structured by language use how

language embeds occupations within certain social contexts challenges of teaching in multilingual classrooms and how language affects therapeutic discourse and communication between patients and doctors The chapters provide detailed contexts and backgrounds so that readers can enjoy entering into each context and seeing similarities and differences with their own research field to incorporate the findings into their own research This volume is intended for sociologists interested in professionalisation industrial and occupational sociology sociology of work public health and management research *International Perspectives in Curriculum History* Ivor Goodson, 2018-10-03 Originally published in 1988 The history of curriculum has now become an extremely important area of curriculum research The rehabilitation of historical studies has challenged mainstream psychological and philosophical theories of curriculum and it argues for a reformulation of the current dominance of scientific management models of curriculum changes This book presents comparative data from a range of countries which help define the methodologies employed in curriculum history It also explores some of the major curriculum issues uncovered in historical studies *Youth Culture, Education and Resistance*, 2010-01-01 Youth Culture Education and Resistance Subverting the Commercial Ordering of Life is a ground breaking collection of essays that illustrate how youth culture has the potential to build solidarity amongst teachers activists scholars and practitioners for the purposes of confronting the dominant ideological doctrine influencing life at today's historical juncture emblemized through neoliberalism as well as building a society free from oppressive social formations Several leading international scholars and educators provide empirically and theoretically rich portraits of youth challenging the commercialized status quo inside and outside K 12 classrooms They also illustrate how cultural manifestations of youth speak directly against the social actors who continually vilify youth as the source of their own marginalization and the world's suffering and misery Routledge International Handbook of Contemporary Social and Political Theory Gerard Delanty, Stephen P. Turner, 2011-03-23 The Handbook will address a range of issues that have emerged out of recent social and political theory It will focus on key themes as opposed to schools of thought or major theorists Each chapter is an emerging cutting edge topic that is of interest both to social theory and to political theory Most topics will have a clear and substantive focus on social or political problems

International Perspectives on Teaching Excellence in Higher Education Alan Skelton, 2013-05-13 There has been an explosion of interest in teaching excellence in higher education Once labelled the poor relation of the research teaching divide teaching is now firmly on the policy agenda pressure on institutions to improve the quality of teaching has never been greater and significant funding seeks to promote teaching excellence in higher education institutions This book constitutes the first serious scrutiny of how and why it should be achieved International perspectives from educational researchers award winning teachers practitioners and educational developers consider key topics including policy initiatives research led teaching teaching excellence and scholarship the significance of academic disciplines research into teaching excellence rewarding through promotion inclusive learning and ICT Teaching Excellence in Higher Education provides a guide for all

those supporting promoting and trying to achieve teaching excellence in higher education and sets the scene for teaching excellence as a field for serious investigation and critical enquiry *The Routledge Handbook to the Political Economy and Governance of the Americas* Olaf Kaltmeier, Anne Tittor, Daniel Hawkins, Eleonora Rohland, 2020-01-09 This handbook explores the political economy and governance of the Americas placing particular emphasis on collective and intertwined experiences Forty six chapters cover a range of Inter American key concepts and dynamics The flow of peoples goods resources knowledge and finances have on the one hand promoted interdependence and integration that cut across borders and link the countries of North and South America including the Caribbean together On the other hand they have contributed to profound asymmetries between different places The nature of this transversally related and multiply interconnected hemispheric region can only be captured through a transnational multidisciplinary and comprehensive approach This handbook examines the direct and indirect political interventions geopolitical imaginaries inequalities interlinked economic developments and the forms of appropriation of the vast natural resources in the Americas Expert contributors give a comprehensive overview of the theories practices and geographies that have shaped the economic dynamics of the region and their impact on both the political and natural landscape This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology geography economics and political science as well as cultural postcolonial environmental and globalization studies *Handbook of Global Environmental Politics* Peter Dauvergne, 2012-01-01 The second edition of this Handbook contains more than 30 new and original articles as well six essential updates by leading scholars of global environmental politics This landmark book maps the latest theoretical and empirical research in this energetic and growing field Captured here are the pioneering and lively debates over concerns for the health of the planet and how they might best be addressed The introduction explores the intellectual trends and evolving parameters in the field of global environmental politics It makes a case for an expansive definition of the field one that embraces an interdisciplinary literature on the connections between global politics and environmental change The remaining chapters are divided into four broad themes states and cooperation global governance the political economy of governance and knowledge and ethics with each section covering key emerging issues In depth explorations are given to topics such as climate change multinational corporations international agreements and UN organizations regulations and business standards trade and international finance multilevel and transnational governance and ecological citizenship *Handbook of Global Environmental Politics Second Edition* is a comprehensive review of the field and offers cutting edge ideas for further research As such scholars students and policymakers will find themselves looking to it for many years to come *The New International Relations of Sub-Regionalism* Hidetoshi Taga, Seiichi Igarashi, 2018-09-20 In the context of the end of the Cold War and the spread of globalism sub regions are attracting attention as new social units of international society never before observed In the second wave of regionalism that became active in the 1980s a new regionalism which differed qualitatively

from the old regionalism expanded globally This new regionalism is characterized by multi dimensionality complexity fluidity and non conformity and within it we cannot overlook the fact that spaces on a new scale such as sub regions are being formed in various parts of the world The sovereign state system that has continued unbroken since the Westphalia Treaty is being transformed and within this context the increase in the number of sub regions as new social units adds to the sense that we have arrived at a post Westphalian international order This book focuses on sub region as a new social unit of international society It is based on the findings obtained through meticulous fieldwork and joint studies conducted over the past 10 years by about 20 researchers primarily from Japanese universities and Chiang Mai University Thailand The sub regions described here are mostly international cross border spaces or units in the interior of a certain region which include multiple states states and parts of states or more than two parts of states often referred to as micro regions Such sub regions have been formed in various parts of the world since the end of the Cold War However studies on sub regions remain unexplored in the existing studies of regionalism The few studies that do exist mainly focus on the economic aspects of sub regions In contrast this book will specifically examine the sub regions in Asia especially the Mekong region and Europe as main cases from a political science and international relations perspective aiming to establish a new alternative international relations by carving out a political angle of sub region as a new social unit of international society and attempting to shift the paradigm of conventional international relations To understand the political dimension of a sub region this book will mainly focus on three aspects sub regions and state strategies bottom up dimension of sub regions and sub regions and borders

Sport Coaching Research and Practice Julian North, 2017-07-14 Research shapes our understanding of practice in powerful and important ways in sports coaching as in any other discipline This innovative study explores the philosophical foundations of sport coaching research examining the often implicit links between research process and practice descriptions and prescriptions Arguing that the assumptions of traditional single disciplinary accounts such as those based in psychology or sociology risk over simplifying our understanding of coaching this book presents an alternative framework for sports coaching research based on critical realism The result is an embedded relational and emergent conception of coaching practice that opens new ways of thinking about coaching knowledge Drawing on new empirical case study research it demonstrates vividly how a critical realist informed approach can provide a more realistic and accountable knowledge to coaching stakeholders This knowledge promises to have important implications for coaching and coach education and development practices *Sport Coaching Research and Practice Ontology Interdisciplinarity and Critical Realism* is fascinating reading for any student or researcher working in sports coaching sport pedagogy physical education the philosophy or sociology of sport or research methodology in sport and exercise *The Routledge Handbook on Cities of the Global South* Susan Parnell, Sophie Oldfield, 2014-03-26 The renaissance in urban theory draws directly from a fresh focus on the neglected realities of cities beyond the west and embraces the global south as the epicentre of urbanism This Handbook engages the

complex ways in which cities of the global south and the global north are rapidly shifting the imperative for multiple genealogies of knowledge production as well as a diversity of empirical entry points to understand contemporary urban dynamics The Handbook works towards a geographical realignment in urban studies bringing into conversation a wide array of cities across the global south the ordinary mega global and peripheral With interdisciplinary contributions from a range of leading international experts it profiles an emergent and geographically diverse body of work The contributions draw on conflicting and divergent debates to open up discussion on the meaning of the city in or of the global south arguments that are fluid and increasingly contested geographically and conceptually It reflects on critical urbanism the macro and micro scale forces that shape cities including ideological demographic and technological shifts and constantly changing global and regional economic dynamics Working with southern reference points the chapters present themes in urban politics identity and environment in ways that re frame our thinking about cities The Handbook engages the twenty first century city through a southern urban lens to stimulate scholarly professional and activist engagements with the city

Global Inequalities in World-Systems Perspective Manuela Boatca,Andrea Komlosy,Hans-Heinrich Nolte,2017-09-22 During its 500 year history the modern world system has seen several shifts in hegemony Yet since the decline of the U S in the 1970s no single core power has attained a hegemonic position in an increasingly polarized world As income inequalities have become more pronounced in core countries especially in the U S and the U K global inequalities emerged as a new topic of social scientific scholarship ignoring the constant move toward polarization that has been characteristic of the entire modern world system At the same time the rise of new states most notably the BRICS and the relative economic growth of particular regions especially East Asia have prompted speculations about the next hegemon that largely disregard both the longue dur e of hegemonic shifts and the constraints that regional differentiations place on the concentration of capital and geopolitical power in one location Authors in this book place the issue of rising inequalities at the center of their analyses They explore the concept and reality of semiperipheries in the 21st century world system the role of the state and of transnational migration in current patterns of global stratification types of catching up development and new spatial configurations of inequality in Europe s Eastern periphery as well as the prospects for the Global Left in the new systemic order The book links novel theoretical debates on the rise of global inequalities to methodologically innovative approaches to the urgent task of addressing them

Music, Informal Learning and the School: A New Classroom Pedagogy Professor Lucy Green,2013-01-28 This pioneering book reveals how the music classroom can draw upon the world of popular musicians informal learning practices so as to recognize and foster a range of musical skills and knowledge that have long been overlooked within music education It investigates how far informal learning practices are possible and desirable in a classroom context how they can affect young teenagers musical skill and knowledge acquisition

This is likewise one of the factors by obtaining the soft documents of this **Emerging Sociology An International Perspective** by online.
