Transcendentalist movement **A Wider View of the Universe** Robert Kuhn McGregor, 2017-05-22 Thoreau in his early career did not consider nature a worthy subject for his pen Beginning with only a superficial knowledge of nature even while living at Walden Pond he later began to study the subject more intensely in 1849 Over the next dozen years he applied himself especially to botany and ornithology seeking to integrate knowledge into the larger patterns of life Independently deriving what today would be considered an ecological worldview Thoreau devoted the last years of his writing career to nature studies written in his own distinctive voice In this revised edition of a standard study of Thoreau and nature the author traces the origins and development of Thoreau's shift in viewpoint and his painstaking efforts thereafter Nature and Walking Ralph Waldo Emerson, Henry David Thoreau, 1994-07-01 Together in one volume Emerson's Nature and Thoreau's Walking is writing that defines our distinctly American relationship to nature **Emerson and Thoreau** John T. Lysaker, William Rossi, 2010-01-04 This lively volume explores the theme of friendship in the lives and works of Ralph Waldo Emerson and Henry David Thoreau Written from diverse perspectives the essays offer close readings of selected texts and draw on letters and journals to offer a comprehensive view of how Emerson's and Thoreau's friendships took root and bolstered their individual political social and ethical projects This collection explores how Emerson and Thoreau in their own ways conceived of friendship as the creation of shared meaning in light of personal differences tragedy and loss and changing life circumstances Emerson and Thoreau presents important reflections on the role of friendship in the lives of individuals and in global culture **A Study of Emersonian Transcendental Educational Thought** Yang Jing, 2020-06-01

Waldo Ralph Emerson 1803 1882 was a famous American writer and poet in the 19th century He was also an educational thinker who advocates reform and progress As a representative of transcendentalism he advocated the doctrine of individualism emphasizing that the power of the spirit is far more than material and that the potential of individual potential is infinite Around him gathered a group of people of insight who were determined to transform the society such as Amos Bronson Alcott 1799 1888 Margaret Fuller 1810 1850 Nathaniel Hawthorne 1804 1864 Henry David Thoreau 1817 1862 etc All of the above had once been teachers and they were deeply saddened by the rigid education system and the old fashioned education methods at the time and firmly believed that the progress and improvement of society must be based on personal education and moral self improvement They actively participated in the mainstream of educational reforms that opened people's mind innovated their ways of thinking and created a new culture with reformed educational system in New England At the same time transcendentalism has become an important part of American educational thought **Manhood and the American Renaissance** David Leverenz, 2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history Manhood and the American Renaissance

demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies He discerns different patterns in the works of Whitman with his artisan s background and Frederick Douglass who rose from artisan freedom to entrepreneurial power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work Manhood and the American Renaissance will enlighten and inspire controversy among all students of American literature nineteenth century American history and the relation of gender and literature

The Golden Age of the Classics in America Carl J. Richard, 2009-03-23 Richard explores the enshrinement of the classics in American antebellum culture For the first time knowledge of the classics extended beyond aristocratic males to the middle class women African Americans and frontier settlers but the Civil War led to a radical alteration of the educational system that steadily eroded their preeminence

The New England Milton K. P. Van Anglen, 2010-11 The New England Milton concentrates on the poet s place in the writings of the Unitarians and the Transcendentalists especially Emerson Thoreau William Ellery Channing Jones Very Margaret Fuller and Theodore Parker and demonstrates that his reception by both groups was a function of their response as members of the New England elite to older and broader sociopolitical tensions in Yankee culture as it underwent the process of modernization For Milton and his writings particularly Paradise Lost were themselves early manifestations of the continuing crisis of authority that later afflicted the dominant class and professions in Boston and so the Unitarian Milton like the Milton of Emerson s lectures or Thoreau s Walden quite naturally became the vehicle for literary attempts by these authors to resolve the ideological contradictions they had inherited from the Puritan past

Thoreau's Religion Alda Balthrop-Lewis, 2021-01-21 Boldly

reconfigures Walden for contemporary ethics and politics by recovering Thoreau's theological vision of environmental justice

Thoreau's Living Ethics Philip Cafaro, 2006 Thoreau's Living Ethics is the first full rigorous account of Henry Thoreau's ethical philosophy. Focused on Walden but ranging widely across his writings, the study situates Thoreau within a long tradition of ethical thinking in the West from the ancients to the Romantics and on to the present day. Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues. Cafaro's particular interest is in Thoreau's treatment of virtue ethics, the branch of ethics centered on personal and social flourishing. Ranging across the central elements of Thoreau's philosophy—life, virtue, economy, solitude, and society, nature, and politics—Cafaro shows Thoreau developing a comprehensive virtue ethics less based in ancient philosophy than many recent efforts and more grounded in modern life and experience. He presents Thoreau's evolutionary experimental ethics as superior to the more static foundational efforts of current virtue ethicists. Another main focus is Thoreau's environmental ethics. The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value but also demonstrating how a personal connection to nature furthers self-development, moral character, knowledge, and creativity. Thoreau's life and writings, argues Cafaro, present a positive life-affirming environmental ethics combining respect and restraint with an appreciation for human possibilities for flourishing within nature.
