Windolph,2007 Examines Emersonian naturalism from the standpoint of nonlinearity offering new ways of reading and thinking about Emerson's stance toward nature and the influence of science on his thought Windolph breaks new ground by exploring how considerations of shape and the act of seeing underpin all of Emerson's theories about nature Provided by publisher

Dickinson and the Romantic Imagination Joanne Feit Diehl,2014-07-14 Evaluating Emily Dickinson's poetry within the context of Romanticism Joanne Diehl demonstrates how the poet both manifests and boldly subverts this literary tradition One of the most important reasons for the poet's divergence from it Professor Diehl argues is a powerful sense of herself as a woman which also creates a feeling of estrangement from the company of major male Romantic precursors Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Emerson* Evelyn Barish,2014-07-14 Evelyn Barish began this book partly to inquire into a silence Ralph Waldo Emerson's failure to discuss or mourn his father who died when the boy was seven years old As she probed the meaning of this loss she found herself tracing the development of an American prophet producing a detailed intellectual biography of Emerson's early years up to the writing of *Nature* In the process she has painted a vivid picture of American society of the period and of Emerson's unusual family including his aunt Mary Moody Emerson a brilliant and eccentric woman who was described by Emerson as spinning at a higher velocity than all the other tops but who also rode around Concord in her shroud In the years after the death of William Emerson Mary Moody Emerson came to help her widowed sister in law Ruth rear her five sons and thus became a deep influence on the young Ralph Waldo Barish reveals the complexities of the Emersons family life the preoccupations with death and questions of sexual identity in the Romantic fantasies that Emerson wrote as a youth the emotional struggles of his student years at Harvard and his private study of the unsettling ideas of the skeptical philosopher David Hume Pursuing a series of small clues she clears up the obscurity surrounding the crucial breakdown of his health during the vocational crisis of his twenties Finally she traces his path out of fear and self doubt into autonomy as he overcame crippling grief after the death of his first wife Barish makes it clear how Emerson the American classic thinker emerged from a welter of conflicts and handicaps previously obscure to us How did he free himself from the rigor mortis of his own cultural and personal past from what he called the corpse cold Unitarianism of Brattle Street and Harvard College to become the liberator of America from the intellectual shackles of its

colonial experience Her answer redefines Emerson's self-reliance not in traditional transcendent or idealistic terms but as the result of real life and hard struggle experience passed through the fire of thought Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Renaissance of Impasse Jean-François Leroux, 2004 In his 1963 debut essay for the militant Quebec journal *Parti pris* Andr Brochu invoked the figure of the sixteenth century skeptic Michel de Montaigne in the name of what Ralph Waldo Emerson responding to the same over a century earlier had called an original relation to the universe *crire wrote Brochu c'est red finir la relation originelle de l'homme l'univers c'est comme crit magnifiquement Montaigne faire l'homme* By tracing the idealism of nineteenth century American and twentieth century Quebec writers back to Montaigne and his rejection of Aristotelian and Scholastic reason The Renaissance of Impasse offers an alternate history to that found in much post Romantic criticism wherein modern skepticism tends to be identified with and so in a sense confined to the project of Enlightenment reason Key works from Thomas Carlyle Emerson and Herman Melville to Hubert Aquin R Jean Ducharme and Victory L vy Beaulieu serve to define and to refine the sense of an impasse personal social spiritual historical and political that accompanies the modern drive to renaissance

Transatlantic Transcendentalism Samantha C Harvey, 2016-06-30 This new study argues that Coleridge was so influential in America because he provided a framework for American intellectuals to address one of the great questions of European Romanticism what is the relationship between the Romantic triad of nature spi

Eleven Nineteenth Century American Authors D. D. Zink, 1959

A Historical Guide to Ralph Waldo Emerson Joel Myerson, 2000 Emerson has maintained his place as one of the seminal figures in American history and literature He was the acknowledged leader of the

Transcendentalist movement These essays discuss Emerson's life as well as women's rights slavery and religion *The New England Milton* K. P. Van Anglen, 2010-11 The New England Milton concentrates on the poet's place in the writings of the Unitarians and the Transcendentalists especially Emerson Thoreau William Ellery Channing Jones Very Margaret Fuller and Theodore Parker and demonstrates that his reception by both groups was a function of their response as members of the New England elite to older and broader sociopolitical tensions in Yankee culture as it underwent the process of modernization For Milton and his writings particularly *Paradise Lost* were themselves early manifestations of the continuing crisis of authority that later afflicted the dominant class and professions in Boston and so the Unitarian Milton like the Milton of Emerson's lectures or Thoreau's *Walden* quite naturally became the vehicle for literary attempts by these authors to resolve the ideological contradictions they had inherited from the Puritan past

Between Faith and Unbelief: American Transcendentalists and the Challenge of Atheism Elisabeth Hurth, 2007-08-30 This book sets out to shed light on what is specific to American Transcendentalism by comparing it with the atheistic vision of German philosophers and theologians like Ludwig Feuerbach and Arthur Schopenhauer The study argues that atheism was part of the discursive and religious context from which Transcendentalism emerged Tendencies toward atheism were already inherent in Transcendentalist thought The atheist scenario came to the surface in the controversy about Emerson's new views Contemporary critics charged that the deity Emerson worshipped was himself Emersonian Transcendentalism thus anticipated some of the central concerns in the works of German atheists like Feuerbach From idealism to atheism seemed but a short step

American Pragmatism and Poetic Practice Kristen Case, 2011 Wittgenstein wrote that philosophy ought really to be written only as a form of poetry American poetry has long engaged questions about subject and object self and environment reality and imagination real and ideal that have dominated the Western philosophical tradition since the Enlightenment Kristen Case's book argues that American poets from Emerson to Susan Howe have responded to the central problems of Western philosophy by performing in language the continually shifting relation between mind and world Pragmatism recognizing the futility of philosophy's attempt to fix the mind world relation announces the insights that these poets enact Pursuing the flights of pragmatist thinking into poetry and poetics Case traces an epistemology that emerges from American writing including that of Emerson Marianne Moore William James and Charles Olson Here mind and world are understood as inseparable and the human being is regarded as in Thoreau's terms part and parcel of Nature Case presents a new picture of twentieth century American poetry that disrupts our sense of the schools and lineages of modern and postmodern poetics arguing that literary history is most accurately figured as a living field rather than a line This book will be of particular interest to scholars and students of pragmatism transcendentalism and twentieth century American poetry Kristen Case is Assistant Professor of English at the University of Maine at Farmington

Jill Carroll, 2001 In this book B Jill Carroll uses the nature writing of Annie Dillard and the philosophical categories of

Emmanuel Levinas to critique the models of God that drive contemporary political theologies especially feminist and liberation theologies These political theologies ignore the amoral and often harsh aspects of our existence in the natural world even though they often align God with the cosmos Political theologies excise from their models of God all notions of violence indifference to social justice or general amorality in favor of models that support and advance specific social political and economic ideologies Such domestication of God does not do justice to the hard facts of our existence in the natural world nor does it fully plumb the depths of using nature to metaphorize God Furthermore Carroll argues that current political models of God do not survive the most important critiques of religion in the modern era namely those leveled by Feuerbach Freud and Nietzsche Instead the God of the oppressed stands tall among any number of gods that exist primarily as projections of our best selves illusions rooted in wish fulfillment and attempts to further our own personal goals by claiming the universe is on our side The Savage Side offers us a glimpse of a natural theology uninterested in apologetics but thoroughly obsessed with using the natural world as a springboard for describing God The God that emerges is wildly beautiful terrifyingly indifferent to political or moral ideology the consummate Other and the ultimate ground of our being This book demands to be read by anyone interested in the relationship between religion and politics especially those who have given themselves to the cause of social justice in the name of God Readers will be challenged to let go of comfortable but outdated notions of deity despite their convenience for the advancement of certain social and political goals like gay and lesbian rights women s rights or third world liberation Indeed the claim that God is on our side emerges as the most problematic claim of contemporary constructive theology
