*School Success for Kids With Emotional and Behavioral Disorders* Michelle R. Davis, Vincent P. Culotta, Eric A. Levine, Elisabeth Hess Rice, 2021-09-16

*School Success for Kids With Emotional and Behavioral Disorders* gives parents and teachers of students with Conduct Disorder, Oppositional Defiant Disorder, mood disorders or other emotional and behavioral disorders the strategies they need to help these kids overcome their struggles and find success in school. Based on the experiences of psychologists and educators working with kids with these disorders, this book provides help for children needing to control their emotional outbursts and strategies to teach kids to monitor, review and change their behaviors. The chapters cover topics such as managing the classroom, dealing with struggles with homework, choosing from options such as time out or restraint to control behavior, helping kids develop self-advocacy strategies and independence, and planning services and accommodations for these disorders. The book also includes multiple tools for parents and teachers to reproduce and use immediately to help their students with emotional and behavioral problems overcome their challenges.

*The Routledge International Companion to Emotional and Behavioural Difficulties* Ted Cole, Harry Daniels, John Visser, 2012-10-12

Responding to disruptive or troubled pupils with emotional and behavioural difficulties, EBD remains a highly topical issue. The challenges these children present relate to wider issues of continuing political concern: the perceived declining discipline in schools, school and social exclusion, the limits to inclusion for children with special needs, increasing mental health difficulties in children, youth crime and parenting skills. It's little wonder that the EBD, often known as BESD or SEBD, category is one of the most common forms of SEN around the world. This topical and exhaustively researched Companion examines the difficulties of defining EBD and the dangers of allocating this imprecise label to children. Bringing together the work of contributors from fifteen countries and across four continents, this book features the research of leading experts in the global field of EBD who discuss and debate educators' key concerns by looking at the overlaps between EBD, ADHD and mental health difficulties, outlining the types of appropriate schooling for children with EBD, urging readers to look beyond pupils' challenging behaviour in order to understand and respond to the social, biological and psychological causation, considering the key areas of assessment, whole school and targeted approaches that help pupils with EBD in mainstream and in special settings, outlining helpful work with families, the crucial contribution of effective multi-agency working and the importance of supporting and developing teachers who work with challenging pupils. Containing contrasting views on controversial topics, this Companion's approachable style makes it an essential reference book for academics, policy makers, practitioners, educators and students who are working towards a higher degree in education.
