Emperor Nation In Japan Political Thin:

Japanese Historians and the National Myths, 1600-1945 John S. Brownlee, 2011-11-01 Ancient tales tell of Japan's creation in the Age of the Gods and of Jinmu a direct descendant of the Sun Goddess and first emperor of the imperial line. These founding myths went unchallenged until Confucian scholars in the Tokugawa period initiated a reassessment of the ancient history of Japan. The application of Western theories of modern scientific history in the Meiji period further intensified the attacks on traditional beliefs. However, with the rise of ultranationalism following the Meiji Constitution of 1889, official state ideology insisted on the literal truth of these myths, and scholars who argued otherwise soon met with public hostility and government suppression. In *Japanese Historians and the National Myths*, John Brownlee examines how Japanese historians between 1600 and 1945 interpreted the ancient myths of their origins. These myths lay at the core of Japanese identity and provided legitimacy for the imperial state. Focusing on the theme of conflict and accommodation between scholars on one side and government and society on the other, Brownlee follows the historians' reactions to pressure and trends and their eventual understanding of history as a science in the service of the Japanese nation. This is the first comprehensive study of modern Japanese historians and their relationship to nationalism. It breaks new ground in its treatment of Japanese intellectual history and provides new insights into the development of Japan as a nation. *Japanese Historians and the National Myths* will prove invaluable to scholars of Japanese history on both sides of the Pacific as well as to those interested in political ideology, nationalism, censorship, and mythology.

Democratization, National Identity and Foreign Policy in Asia Gilbert Rozman, 2021-04-20 How can democratization move forward in an era of populist nationalist backlash? Many countries in Asia and elsewhere face the challenge of navigating between China and the United States in a period of intensifying polarization in their policies tied to democracy. East Asia has shown the way to democratization in Asia, with Japan, South Korea, and Taiwan linking national identity to democratization. In other parts of Asia, especially Southeast Asia, nationalist governments have tended to move away from democratization, as happened in Hong Kong at China's insistence. This book investigates how national identity can both help and hinder democratization, illustrated by a series of examples from across Asia. A valuable guide for students and scholars both of democratization and of Asian politics.

The Philosophy of Japanese Wartime Resistance David Williams, 2014-04-16 The transcripts of the three Kyoto School roundtable discussions of the theme of the standpoint of world history and Japan may now be judged to form the key source text of responsible Pacific War revisionism Published in the pages of Chuo Koron the influential magazine of enlightened elite Japanese opinion during the twelve months after Pearl Harbor these subversive discussions involved four of the finest minds of the second generation of the Kyoto School of philosophy Tainted by controversy and shrouded in conspiratorial mystery these transcripts were never republished in Japan after the war and they have never been translated into English except in selective and often highly biased form David Williams has now produced the first objective balanced and close interpretative reading of these three discussions in their entirety since 1943 This version of the wartime Kyoto School transcripts is neither a translation nor a paraphrase but a fuller rendering in reader friendly English that is convincingly faithful to the spirit of the original texts The result is a masterpiece of interpretation and inter cultural understanding between the Confucian East and the liberal West Seventy years after Tojo came to power these documents of the Japanese resistance to his wartime government and policies exercise a unique claim on students of Japanese history and thought today because of their unrivalled revelatory potential within the vast literature on the Pacific War The Philosophy of Japanese Wartime Resistance may therefore stand as the most trenchant analysis of the political philosophic and legal

Committee on Immigration and Naturalization,1921 The Japanese Empire,1910 *The State, Identity, and the National Question in China and Japan* Germaine A. Hoston,2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model National Basic Intelligence Factbook United States.
