Gerhardt, 2019-02-01 Discover hope comfort transformation the gifts given in grief Too often we think of loss like we might a broken bone We leave the bone alone protect it from bumps and wait We think eventually everything will go back to normal the same as it always was But losing a loved one is nothing like a broken arm Loss is amputation and the path to healing doesn't lead back to the same only ahead to the different *A Grief Received* offers a personal authentic and practical approach to weathering grief with hope Writing with deep insight JL Gerhardt draws on the loss of her younger brother when she was twenty one other personal experiences of grief and her work in ministry alongside her husband a minister and chaplain Through nine practices grieving people can adopt to position themselves to receive the gifts of grief Gerhardt provides touchstones readers will recognize and a path to personal transformation Each chapter includes personal reflection questions and suggested resources Gerhardt assumes the role of friend partner and speaker of sometimes inconvenient but always helpful truths Readers will walk away comforted directed and inspired to seek God and God's shaping in their grief *My Brother's Keeper* Nicholas Rosenlicht, 2024-10-01 A leading psychiatrist seeks to transform our understanding of mental health care and how it fits into larger social and economic forces and proposes an effective and compassionate new framework for healing Mental health care in America has become nothing short of atrocious Supposed developments in treatment methods and medication remain inaccessible to those who need them most Countless people seeking treatment are routinely funneled into prison or end up homeless while an epidemic of mental illness ravages younger generations It seems obvious that the system is broken but the tragic truth is that it is actually functioning exactly as intended providing reliably enormous profits for the corporate entities who now manage mental health care It is easy to turn a blind eye Most of us are more comfortable ducking our own fears about mental health and placing our faith in the rugged American individual and the free market rather than confronting our own prejudices and misguided beliefs Why did we choose to build such a disastrous system when every other industrialized nation has developed far better models After decades of work in psychiatry Dr Nicholas Rosenlicht reveals how and why we arrived at this abysmal reality and more importantly how we can find our way

out of it Timely and unflinching and written with commanding prose and the deep knowledge of a mental health care veteran who categorically rejects corporate interests Dr Rosenlicht makes plain the disastrous outcomes of the for profit mental health care model Patients are clients and doctors are providers stripping away the human element and emboldening shift ethical and legal practices Perhaps most insidious the business model paints the mentally ill as the other as people who just don t want help rather than as people who can t afford care or even realize they need help as a consequence of their illness But a path forward does exist Mental illness is something that will touch all of us all of us in some way if not directly through those we know and love Those who have already helped care for a loved one know that those who suffer by it have hopes desires and aspirations A healthy solution means a healthier society In the tradition of Andrew Solomon or Bessel van der Kolk s *The Body Keeps the Score* My Brother s Keeper is a paradigm shifting book that can help us find our way to real and lasting solutions

War of Time Jan Hanska,2020-07-08 This book examines the meaning and management of time as a facet of the art of war in general but especially operational art While force time place has for a long time been considered to be the essential trinity of warfare the aspect of time remains largely under researched Relying on classic texts on art of war the author engages with some of the top theorists and practitioners of art of war from the age of Sun Tzu to the network centric warfare about the role of time and its management in operational art Relying on Alvin Toffler s theory of the three waves the volume follows research into development of operational art through cycles from the agrarian age to the industrial age and into the information age
