Empire Terror Nationalism Postnationalism In The New Millennium:

Empire & Terror Begoña Aretxaga, 2005 Contributors to this volume explore crucial issues regarding the articulation of politics at the beginning of the new millennium What does sovereignty in the state mean in the contemporary world of neoliberal capitalism The events of 9 11 have added dramatic urgency to these issues Some of the contributors to this volume discuss questions associated with this new international context But ultimately the volume s goal is to stimulate productive ways of thinking simultaneously about the dynamics articulating the concrete situation of identity politics or violence and the global rhetoric of international terrorism that has come to dominate the political discourse Book Jacket

Does Terrorism Work? Richard English, 2019-02-21 Terrorism is one of the most significant security threats that we face in the twenty first century Not surprisingly there is now a plethora of books on the subject offering definitions of what terrorism is and proffering advice on what causes it and how states should react to it But one of the most important questions about terrorism has until now been left remarkably under scrutinized does it work Richard English now brings thirty years of professional expertise studying terrorism to the task of answering this complex and controversial question Focussing principally on four of the most significant terrorist organizations of the last fifty years al Qaida the Provisional IRA Hamas and ETA and using a wealth of interview material with former terrorists as well as those involved in counter terrorism he argues that we need a far more honest understanding of the degree to which terrorism actually works as well as a more nuanced insight into the precise ways in which it does so Only then can we begin to grapple more effectively with what has become one of the most challenging and eye catching issues of our time

The Rise of Nationalist Populism Daniel Rueda, 2024-10-03 The Rise of Nationalist Populism explores the intersection between populism and nationalism conducted through the discursive analysis of three Populist Radical Right parties that have gained prominence during the 2010s Rassemblement National France Lega Italy and Vox Spain Due to its rise in Europe the United States and further afield there is a growing interest in right wing populism an exclusionary and illiberal form of populism that has been able to attain success in several countries This book contributes to the analysis of

how populism understood as a way of constructing the political is shaped by the ideologies that permeate it It examines how a certain form of nationalism is shaped by populist dynamics that is by a certain form of identity building The book analyses the intersection between nationalism and populism in right wing populist parties by using a discourse analysis methodology based on Ernesto Laclau s works thus conducting an examination similar to the ones presented by the Essex School of Discourse Analysis The empirical analysis focuses on party literature and carefully selected candidate speeches at a national level for its three case studies as well as providing an overarching comparison The book shows how the economic crisis and the irruption of issues related to sovereignty and national identity arising in France Italy and Spain paved the way for the emergence of their respective right wing populist forces The book will appeal to researchers and students of political science especially those with an interest in populism discourse analysis identity and the far right

Revealing Rebellion in Abiyala Hannah Burdette, 2019-04-09 From the rise of the Pan Maya Movement in Guatemala and the Zapatista uprising in Mexico to the Water and Gas Wars in Bolivia and the Idle No More movement in Canada the turn of the twenty first century has witnessed a notable surge in Indigenous political action as well as an outpouring of texts produced by Native authors and poets Throughout the Americas Abiyala or the Land of Plenitude and Maturity in the Guna language of Panama Indigenous people are raising their voices and reclaiming the right to represent themselves in politics as well as in creative writing *Revealing Rebellion in Abiyala* explores the intersections between Indigenous literature and social movements over the past thirty years through the lens of insurgent poetics Author Hannah Burdette is interested in how Indigenous literature and social movements are intertwined and why these phenomena arise almost simultaneously in disparate contexts across the Americas Literature constitutes a key weapon in political struggles as it provides a means to render subjugated knowledge visible and to envision alternatives to modernity and coloniality The surge in Indigenous literature and social movements is arguably one of the most significant occurrences of the twenty first century and yet it remains understudied *Revealing Rebellion in Abiyala* bridges that gap by using the concept of Abiyala as a powerful starting point for rethinking inter American studies through the lens of Indigenous sovereignty

Liminal Fiction at the Edge of the Millennium Jessica A. Folkart, 2014-10-08 *Liminal Fiction at the Edge of the Millennium* The Ends of Spanish Identity investigates the predominant perception of liminality identity situated at a threshold neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain Examining how identity and alterity are parleyed through the cultural concerns of historical memory gender roles sex religion nationalism and immigration this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge a liminal ground On the border between two identities the end materializes as an ephemeral limit that delineates and differentiates yet also adjoins and approximates In exploring the ends of Spanish fiction both their structure and their intentionality *Liminal Fiction* maps the edge as a constitutive component of narrative and

identity in texts by Najat El Hachmi Cristina Fernandez Cubas Javier Mar as Rosa Montero and Manuel Rivas In their representation of identity on the edge these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain **Ethnicity and Violence** Diego

Irish Freedom Richard English, 2008-09-04 Richard English's brilliant new book now available in paperback is a compelling narrative history of Irish nationalism in which events are not merely recounted but analysed. Full of rich detail drawn from years of original research and also from the extensive specialist literature on the subject, it offers explanations of why Irish nationalists have believed and acted as they have, why their ideas and strategies have changed over time, and what effect Irish nationalism has had in shaping modern Ireland. It takes us from the Ulster Plantation to Home Rule, from the Famine of 1847 to the Hunger Strikes of the 1970s, from Parnell to Pearse, from Wolfe Tone to Gerry Adams, from the bitter struggle of the Civil War to the uneasy peace of the early twenty-first century. Is it imaginable that Ireland might, as some have suggested, be about to enter a post-nationalist period? Or will Irish nationalism remain a defining force on the island in future years, a courageous and successful attempt to synthesise the entire story between two covers, for the neophyte and for the exhausted specialist alike? Tom Garvin, *Irish Times*

Postcolonial Disorders Mary-Jo DelVecchio Good, 2008-02-04 The contributors explore modes of social and psychological experience, the constitution of the subject and forms of subjection that shape the lives of Basque youth, Indonesian artists, members of nongovernmental HIV/AIDS programmes in China and Zaire, and psychiatrists and their patients in Morocco and Ireland

Everyday Nationalism in Hungary Alexander Maxwell, 2019-09-23 This book examines Hungarian nationalism through everyday practices that will strike most readers as things that seem an unlikely venue for national politics. Separate chapters examine nationalized tobacco, nationalized wine, nationalized moustaches, nationalized sexuality, and nationalized clothing. These practices had other economic, social, or gendered meanings: moustaches were associated with manliness, wine with aristocracy, and so forth. The nationalization of everyday practices thus sheds light on how patriots imagined the nation's economic, social, and gender composition. Nineteenth-century Hungary thus serves as the case study in the politics of everyday nationalism. The book discusses several prominent names in Hungarian history but in unfamiliar contexts. The book also engages with theoretical debates on nationalism, discussing several key theorists. Various chapters specifically examine how historical actors imagine relationship between the nation and the state, paying particular attention to Rogers Brubaker's constructivist approach to nationalism without groups, Michael Billig's notion of banal nationalism, Carole Pateman's ideas about the nation as a national brotherhood, and Tara Zahra's notion of national indifference
