Empire To Commonwealth Consequences Of Monotheism In Late Antiquity:

Empire to Commonwealth Garth Fowden, 2020-09-01 In this bold approach to late antiquity Garth Fowden shows how from the second century peak of Rome's prosperity to the ninth century onset of the Islamic Empire's decline powerful beliefs in One God were used to justify and strengthen world empires But tensions between orthodoxy and heresy that were inherent in monotheism broke the unitary empires of Byzantium and Baghdad into the looser more pluralistic commonwealths of Eastern Christendom and Islam With rare breadth of vision Fowden traces this transition from empire to commonwealth and in the process exposes the sources of major cultural contours that still play a determining role in Europe and southwest Asia

fascinating and compelling history **Recognition and Religion** Maijastina Kahlos, Heikki J. Koskinen, Ritva Palmén, 2019-03-01 This book focuses on recognition and its relation to religion and theology in both systematic and historical dimensions While existing research literature on recognition and contemporary recognition theory has been gradually growing since the early 1990s certain gaps remain in the field covered so far One of these is the multifaceted interaction between the phenomena of recognition and religion Since recognition applies to persons institutions and normative entities like systems of beliefs it also provides a very useful analytic and interpretative tool for studying religion Divided into five sections with chapters written by established scholars in their respective fields the book explores the roots history and limits of recognition theory in the context of religious belief Exploring early Christian and medieval sources on recognition and religion it also offers contemporary applications of this underexplored combination This is a timely book as debates over religious identities problematic forms of extremism and societal issues related with multiculturalism continue to dominate the media and politics It will therefore be of great interest to scholars of recognition studies as well as religious studies theology philosophy and religious and intellectual history Between Empires Greg Fisher, 2011-04-14 In Between Empires Greg Fisher tackles the problem of pre Islamic Arab identity by examining the relationship between the Roman Empire and the Empire of Sasanian Iran and a selection of their Arab allies and neighbours the Jafnids Nasrids and Hujrids Fisher focuses on the last century before the emergence of Islam and stresses the importance of a Near East dominated by Rome and Iran for the formation of early concepts of Arab identity In particular he examines cultural and religious integration political activities and the role played by Arabic as factors in this process He concludes that interface with the Roman Empire in particular played a key role in helping to lay the foundation for later concepts of Arab identity and that the world of Late Antiquity is as a result of enduring interest in our understanding of what we now call the Middle East

History of the Roman People Allen M. Ward, Fritz M. Heichelheim, Cedric A. Yeo, 2016-05-23 A History of the Roman People provides a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider Mediterranean world to the dissolution of the Roman Empire in Late Antiquity ca A D 600 Clearly organized and highly readable the text s narrative of major political and military events provides a chronological and conceptual framework for chapters on social economic and cultural developments of the periods covered Major topics are treated separately so that students can easily grasp key concepts and ideas **Libanius the Sophist** Raffaella Cribiore, 2013-11-15 Libanius of Antioch was a rhetorician of rare skill and eloquence So renowned was he in the fourth century that his school of rhetoric in Roman Syria became among the most prestigious in the Eastern Empire In this book Raffaella Cribiore draws on her unique knowledge of the entire body of Libanius s vast literary output including 64 orations 1 544 letters and exercises for his students to offer the fullest intellectual portrait yet of this remarkable figure whom John Chrysostom called the sophist of the city Libanius 314 ca 393 lived at a time when Christianity was celebrating its triumph but paganism tried to resist

Although himself a pagan Libanius cultivated friendships within Antioch's Christian community and taught leaders of the Church including Chrysostom and Basil of Caesarea Cribiore calls him a gray pagan who did not share the fanaticism of the Emperor Julian Cribiore considers the role that a major intellectual of Libanius's caliber played in this religiously diverse society and culture When he wrote a letter or delivered an oration who was he addressing and what did he hope to accomplish One thing that stands out in Libanius's speeches is the startling amount of invective against his enemies How common was character assassination of this sort What was the subtext to these speeches and how would they have been received Adapted from the Townsend Lectures that Cribiore delivered at Cornell University in 2010 this book brilliantly restores Libanius to his rightful place in the rich and culturally complex world of Late Antiquity
