## **Empire At The Margins:**

Empire at the Margins Pamela Kyle Crossley, Helen F. Siu, Donald S. Sutton, 2006-01-19 Focusing on the Ming 1368 1644 and especially the Qing 1364 1912 eras this book analyzes crucial moments in the formation of cultural regional and religious identities The contributors examine the role of the state in a variety of environments on China's peripheries paying attention to shifts in law trade social stratification and cultural dialogue They find that local communities were critical participants in the shaping of their own identities and consciousness as well as the character and behavior of the state At certain times the state was institutionally definitive but it could also be symbolic and contingent They demonstrate how the imperial discourse is many faceted rather than a monolithic agent of cultural assimilation Empire from the Margins Martin

Jacobs, 2025-07-15 The writings of three early modern Jewish historians highlight the divided allegiances of a Jewish diaspora living in and between the Spanish and Ottoman empires In 1492 the year that marked the start of Spain's transatlantic expansion the Spanish monarchs expelled their Jewish subjects and triggered a mass Jewish migration to the lands of the Ottoman Empire But while the rise of these rival empires had tremendous impact on the Jewish population's geography the historical accounts of contemporary Jews have remained peripheral to the study of early modern imperialism In Empire from the Margins Martin Jacobs seeks to understand how the history of empires appears through the lens of marginalized communities and to explore how Jews responded to Spanish and Ottoman imperial expansion He approaches this history through the Hebrew chronicles of three sixteenth and seventeenth century Jewish authors Elijah Capsali of Crete Joseph ha Kohen of Genoa and Joseph Sambari of Cairo all lived in early modern hubs with global connections and in unusual detail for premodern Jewish historians they described how the Spanish and Ottoman empires redrew the political cultural and religious map of the Mediterranean region while simultaneously transforming the transatlantic world As Jews these writers belonged to an ethno religious minority within the Mediterranean basin where the Spanish and Ottoman empires were centered and from here they expressed marginalized views on the Spanish and Ottoman regimes At the same time these Jewish authors belonged to Jewish networks that transcended imperial boundaries and they voiced conflicting loyalties between different authorities and cultures And Jacobs shows that in writing about the Spanish and Ottoman expansion these authors also grappled with the Jews precarious position in their host societies and their own multilayered identities Their shifting positionalities illuminate the divided allegiances of a Jewish diaspora living in and between competing empires **Empires**

### The Neo-Assyrian Empire in the Southwest Avraham

Faust, 2021-01-18 The Neo Assyrian empire the first large empire of the ancient world has attracted a great deal of public attention ever since the spectacular discoveries of its impressive remains in the 19th century The southwestern part of this empire located in the lands of the Bible is archaeologically speaking the best known region in the world and its history is described in a plethora of texts including the Hebrew Bible Using a bottom up approach Avraham Faust utilises this unparalleled information to reconstruct the outcomes of the Assyrian conquest of the region and how it impacted the diverse political units and ecological zones that comprised it In doing so he draws close attention to the transformations the imperial take over brought in its wake His analysis reveals the marginality of the annexed territories in the southwest as the empire focused its activities in small border areas facing its prospering clients A comparison of this surprising picture to the information available from other parts of the empire suggests that the distance of these provinces from the imperial core is responsible for their fate This sheds new light on factors influencing imperial expansion the considerations leading to annexation and the imperial methods of control challenging old conventions about the development of the Assyrian empire and its rule Faust also examines the Assyrian empire within the broader context of ancient Near Eastern imperialism to answer larger questions on the nature of Assyrian domination the reasons for its harsh treatment of the distant provinces and the factors influencing the limits of its reach His findings highlight the historical development of imperial control in antiquity and the ways in which later empires were able to overcome similar limitations paving the way to much larger and longer lasting polities

**Shadow Empires** Thomas J. Barfield, 2025-12-02 An original study of empire creation and its consequences from ancient through early modern times The world's first great empires established by the ancient Persians Chinese and Romans are well known but not the empires that emerged on their margins in response to them over the course of 2 500 years These counterempires or shadow empires which changed the course of history include the imperial nomad confederacies that arose

in Mongolia and extorted resources from China rather than attempting to conquer it as well as maritime empires such as ancient Athens that controlled trade without seeking territorial hegemony In *Shadow Empires* Thomas Barfield identifies six kinds of counterempire and explores their rise politics economics and longevity What all these counterempires had in common was their interactions with existing empires that created the conditions for their development When highly successful these counterempires left the shadows to become the world s largest empires for example those of the medieval Muslim Arabs and of the Mongol heirs of Chinggis Khan Three former shadow empires Manchu Qing China Tsarist Russia and British India made this transformation in the late eighteenth century and came to rule most of Eurasia However the DNA of their origins endured in their unique ruling strategies Indeed world powers still use these strategies today long after their roots in shadow empires have been forgotten Looking afresh at the histories of important types of empires that are often ignored *Shadow Empires* provides an original account of empire formation from the ancient world to the early modern period

**The Structure of World History** Kojin Karatani, 2014-03-28 In this major paradigm shifting work Kojin Karatani systematically re reads Marx s version of world history shifting the focus of critique from modes of production to modes of exchange Karatani seeks to understand both Capital Nation State the interlocking system that is the dominant form of modern global society and the possibilities for superseding it In *The Structure of World History* he traces different modes of exchange including the pooling of resources that characterizes nomadic tribes the gift exchange systems developed after the adoption of fixed settlement agriculture the exchange of obedience for protection that arises with the emergence of the state the commodity exchanges that characterize capitalism and finally a future mode of exchange based on the return of gift exchange albeit modified for the contemporary moment He argues that this final stage marking the overcoming of capital nation and state is best understood in light of Kant s writings on eternal peace *The Structure of World History* is in many ways the capstone of Karatani s brilliant career yet it also signals new directions in his thought

**Toward a Postcolonial Reading of the Epistle of James** Ingeborg Mongstad-Kvammen, 2013-06-15 *Toward a Postcolonial Reading of the Epistle of James* offers an interpretation of Jas 2 1 13 putting the text in the midst of the Roman imperial system of rank This study shows that the conflict of the text has more to do with differences of rank than poverty and wealth The main problem is that the Christian assemblies are acting according to Roman cultural etiquette instead of their Jewish Christian heritage when a Roman equestrian and a beggar visit the assembly The members of the assemblies are accused of having become too Roman From a postcolonial perspective this is a typical case of hybrid identities Additional key concepts from postcolonialism such as diaspora othering naming of oppressors and binarisms such as coloniser colonised centre margin honour shame and power powerless are highlighted throughout the study
