1902

*They said that it had feet of clay,  
That its fall was sure and quick.  
In the flames of yesterday  
All the clay was burned to brick.*

*When they carved our epitaph  
And marked us doomed beyond recall,  
"We are," we answered, with a laugh,  
"The Empire that declines to fall."*

*Arthur Conan Doyle*

## **Empires Poems:**

**Poems of Nation, Anthems of Empire** Suvir Kaul, 2000 In *Poems of Nation Anthems of Empire* Suvir Kaul argues that the aggressive nationalism of James Thomson's ode *Rule Britannia* 1740 is the condition to which much English poetry of the late seventeenth and eighteenth centuries aspires. Poets as varied as Marvell, Waller and Dryden, Defoe, Addison, John Dyer and Edward Young or Goldsmith, Cowper, Hannah More and Anna Laetitia Barbauld all wrote poems deeply engaged with the British nation in the making. These poets and many others like them recognized that the nation and its values and institutions were being defined by the expansion of overseas trade, naval and military control, plantations and colonies. Their poems both embodied and were concerned about the culture and ideology of Great Britain itself, an idea of the nation that developed alongside the formation of a British Empire. Poems in this period thus flaunt various images of poetic inspiration that show poetry and culture following triumphantly where mercantile and military ships sail. Or sometimes more self-aggrandizingly for the poet they enact the process by which the Muses use their powers to inspire and show the way. Even at their most hesitant these poems were written as interventions into public discussion; their creativity is tied up with that desire to convince and persuade. Finally, as Kaul writes, it is their encyclopedic desire to incorporate new experiences, visions and values that makes these poems such fine guides to the world of poetry in the long years in which Great Britain was consolidated as an empire at home and abroad.

**Empires** Richard Moore, 1981 Aaron Burr, Jay Gould, Archimedes and Cleopatra reflect on their accomplishments and failures in a series of poems.

*National Poetry, Empires and War* David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice, freedom and the brotherhood of man but also at times burning with humiliation and grievance, hatred and lust for revenge driving human kind as the Austrian poet Grillparzer put it. From humanity via nationality to bestiality. *National Poetry, Empires and War* considers national poetry and its glorification of war from ancient to modern times in a series of historical, social and political perspectives. Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires, this book has much on pre-modern national poetry but focuses chiefly on post-1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron. Whitman, D. Annunzio, Yeats, Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism. Many national poets are the subject of countless critical and biographical studies but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature and general cultural studies.

**Travel, Geography, and Empire in Latin Poetry** Micah Young, Myers, Erika Zimmermann, Damer, 2021-09-29 This volume considers representations of space and movement in sources ranging from Roman comedy to late antique verse, exploring how poetry in the Roman world is fundamentally shaped by its relationship to travel within the geography of Rome's far-reaching empire. Flavians to Ausonius The chapters offer a range of approaches to the complex relationship between Latin poetry Roman identity imperialism and travel and geospatial narratives and the diachronic and generic evolutions of poetic descriptions of space and mobility In addition two chapters including the concluding one contextualize and respond to the volume s discussion of poetry by looking at ways in which Romans not only write and read poems about travel and geography but also make writing and reading part of the experience of traveling as demonstrated in their epigraphic practices The collection as a whole offers important insights into Roman poetics and into ancient notions of movement and geographical space Travel Geography and Empire in Latin Poetry will be of interest to specialists in Latin poetry ancient travel and Latin epigraphy as well as to those studying travel writing geography imperialism and mobility in other periods The chapters are written to be accessible to researchers graduate students and advanced undergraduates

**Thomas Hardy and Empire** Jane L. Bownas, 2016-02-24 Unlike many of his contemporaries Thomas Hardy is not

generally recognized as an imperial writer even though he wrote during a period of major expansion of the British Empire and in spite of the many allusions to the Roman Empire and Napoleonic Wars in his writing Jane L Bownas examines the context of these references proposing that Hardy was a writer who not only posed a challenge to the whole of established society but one whose writings bring into question the very notion of empire Bownas argues that Hardy takes up ideas of the primitive and civilized that were central to Western thought in the nineteenth century contesting this opposition and highlighting the effect outsiders have on so called primitive communities In her discussion of the oppressions of imperialism she analyzes the debate surrounding the use of gender as an articulated category together with race and class and shows how in exposing the power structures operating within Britain Hardy produces a critique of all forms of ideological oppression

**British culture and the end of empire** Stuart Ward,2017-03-01 This book is the first major attempt to examine the cultural manifestations of the demise of imperialism as a social and political ideology in post war Britain Far from being a matter of indifference or resigned acceptance as is often suggested the fall of the British Empire came as a profound shock to the British national imagination and resonated widely in British popular culture The sheer range of subjects discussed from the satire boom of the 1960s to the worlds of sport and the arts demonstrates how profoundly decolonisation was absorbed into the popular consciousness Offers an extremely novel and provocative interpretation of post war British cultural history and opens up a whole new field of enquiry in the history of decolonisation

**Epics of Empire and Frontier** Celia López-Chávez, 2016-04-26 First published in 1569 La Araucana an epic poem written by the Spanish nobleman Alonso de Ercilla valorizes the Spanish conquest of Chile in the sixteenth century Nearly a half century later in 1610 Gaspar de Villagr Mexican born captain under Juan de Oñate in New Mexico published Historia de la Nueva México a historical epic about the Spanish subjugation of the indigenous peoples of New Mexico In Epics of Empire and Frontier a deft cultural ethnohistorical reading of these two colonial epics both of which loom large in the canon of Spanish literature Celia López-Chávez reveals new ways of thinking about the themes of empire and frontier Employing historical and literary analysis that goes from the global to the regional and from the sixteenth to the twenty first centuries López-Chávez considers Ercilla and Villagr not only as writers but as citizens and subjects of the powerful Spanish empire Although frontiers of conquest have always been central to the regional histories of the Americas this is the first work to approach the subject through epic poetry and the main events in the poets lives López-Chávez also investigates the geographical spaces and landmarks where the conquests of Chile and New Mexico took place the natural landscape of each area as both the Spanish and the natives saw it and the characteristics of the expeditions in both regions with special attention to the violence of the invasions In her discussion of law geography and frontier López-Chávez carries the poems firsthand testimony on the political cultural and social resistance of indigenous people into present day debates about regional and national identity An interdisciplinary comparative postcolonial

interpretation of the history found in two poetic narratives of conquest *Epics of Empire and Frontier* brings fresh understanding to the role that poetry plays in regional and national memory and culture

**The Emergence of Arabic Poetry** Nathaniel A. Miller, 2024-08-13 A new literary history of Arabic poetry from 500-750 CE that includes hundreds of lines of poetry never before translated into English To interpret the Quran's Arabic early medieval Muslims turned to pre-Islamic poetry a corpus that the Prophet Muhammad's cousin called the archive of the Arabs While this principle seems straightforward pre-Islamic Arabs did not in fact think of themselves as either pre-Islamic or Arab The term Arab barely appears at all in pre-Islamic poetry *The Emergence of Arabic Poetry* reexamines this early poetry to reconstruct what pre-Islamic culture actually entailed Nathaniel A. Miller draws on a wide range of texts including hundreds of lines of poetry never before translated into English in addition to new inscriptional archaeological and non-Arabic sources to explore the diverse world of pre and early Islamic Arabia in which Islam developed Miller traces the emergence of two regional identities and their distinctive poetic traditions in the Arabian Peninsula of late antiquity Najdi in the center and northeast and Hijazi in the southwest The book shows how later efforts of Muslim scholars to use early poetry as an aesthetic linguistic ideal to interpret the Quran resulted in an image of a unitary exceptional and isolated Arab identity and culture These scholars drew on the Najdi tradition canonizing its forms as classical Arabic poetry par excellence and solidifying many tropes of Arabness that are still ubiquitous today of nomadism performative generosity and martial equestrianism However Miller argues it was the neglected Hijazi tradition that was actually more central to the emergence of early Islam Early Arabic poetry has been largely overlooked in current scholarship in adjacent fields largely due to twentieth-century controversies over whether this corpus is legitimate or was forged In combining a reconstruction of pre-Islamic poetry's social function with a consideration of the circumstances of its later canonization *The Emergence of Arabic Poetry* offers an urgently needed reappraisal of a significant but underexamined poetic corpus as well as a new literary history of the origins of Arabic poetry from 500 to 750 CE
