Devereux, 2020-06-15 Via rigorous study of the legal arguments Spain developed to justify its acts of war and conquest The Other Side of Empire illuminates Spain s expansionary ventures in the Mediterranean in the late fifteenth and early sixteenth centuries Andrew Devereux proposes and explores an important yet hitherto unstudied connection between the different rationales that Spanish jurists and theologians developed in the Mediterranean and in the Americas Devereux describes the ways in which Spaniards conceived of these two theatres of imperial ambition as complementary parts of a whole At precisely the moment that Spain was establishing its first colonies in the Caribbean the Crown directed a series of Old World conquests that encompassed the Kingdom of Naples Navarre and a string of presidios along the coast of North Africa Projected conquests in the eastern Mediterranean never took place but the Crown seriously contemplated assaults on Egypt Greece Turkey and Palestine The Other Side of Empire elucidates the relationship between the legal doctrines on which Spain based its expansionary claims in the Old World and the New The Other Side of Empire vastly expands our understanding of the ways in which Spaniards at the dawn of the early modern era thought about religious and ethnic difference and how this informed political thought on just war and empire While focusing on imperial projects in the Mediterranean it simultaneously presents a novel contextual background for understanding the origins of European colonialism in the Americas      **Intimate Empire** Alexa von Winning, 2022 Intimate Empire tells the story of the Mansurovs a small noble family who played a momentous role in the Russian Empire as they struggled to

Dohrmann, Annette Yoshiko Reed, 2013-10-09 In histories of ancient Jews and Judaism the Roman Empire looms large For all the attention to the Jewish Revolt and other conflicts however there has been less concern for situating Jews within Roman imperial contexts just as Jews are frequently dismissed as atypical by scholars of Roman history so Rome remains invisible in many studies of rabbinic and other Jewish sources written under Roman rule Jews Christians and the Roman Empire brings Jewish perspectives to bear on long standing debates concerning Romanization Christianization and late antiquity Focusing on the third to sixth centuries it draws together specialists in Jewish and Christian history law literature poetry and art Perspectives from rabbinic and patristic sources are juxtaposed with evidence from papyrus documents and synagogue and church mosaics Through these case studies contributors highlight paradoxes subtleties and ironies of Romaness and imperial power Contributors William Adler Beth A Berkowitz Raanan Boustán Hannah M Cotton Natalie B Dohrmann Paula Fredriksen Oded Irshai Hayim Lapin Joshua Levinson Ophir Mizgalski Manó Annette Yoshiko Reed Hagith Sivan Michael D Swartz Rina Talgam Views of Jerusalem and the Holy Land Steven Brooke, 2020-05-16 Views of Jerusalem and the Holy

Britain, Palestine and Empire: The Mandate Years Rory Miller, 2016-04-15 In 1948 Britain withdrew from Palestine bringing to an end its 30 years of rule in the territory What followed has been well documented and is perhaps one of the most intractable problems of the post imperial age However the long standing connection between Britain and Palestine before May 1948 is also a fascinating story This volume takes a fresh look at the years of the British mandate for Palestine its politics economics and culture Contributors address themes such as religion mandatory administration economic development policy and counter insurgency violence art and culture and decolonization This book will be valuable to scholars of the British mandate but also more broadly to those interested in imperial history and the history of the West s involvement in the Middle East

*The Apocalypse of Empire* Stephen J. Shoemaker, 2018-10-02 In *The Apocalypse of Empire* Stephen J. Shoemaker argues that earliest Islam was a movement driven by urgent eschatological belief that focused on the conquest or liberation of the biblical Holy Land and situates this belief within a broader cultural environment of apocalyptic anticipation Shoemaker looks to the Qur an s fervent representation of the imminent end of the world and the importance Muhammad and his earliest followers placed on imperial expansion Offering important contemporary context for the imperial eschatology that seems to have fueled the rise of Islam he surveys the political eschatologies of early Byzantine Christianity Judaism and Sasanian Zoroastrianism at the advent of Islam and argues that they often relate imperial ambition to beliefs about the end of the world Moreover he contends formative Islam s embrace of this broader religious trend of Mediterranean late antiquity provides invaluable evidence for understanding the beginnings of the religion at a time when sources are generally scarce and often highly problematic Scholarship on apocalyptic literature in early Judaism and Christianity frequently maintains that the genre is decidedly anti imperial in its very nature While it may be that early Jewish apocalyptic literature frequently displays this tendency Shoemaker demonstrates that this quality is not characteristic of apocalypticism at all times and in all places In the late antique Mediterranean as in the European Middle Ages apocalypticism was regularly associated with ideas of imperial expansion and triumph which expected the culmination of history to arrive through the universal dominion of a divinely chosen world empire This imperial apocalypticism not only affords an invaluable backdrop for understanding the rise of Islam but also reveals an important transition within the history of Western doctrine during late antiquity
