## **Empowerment The Politics Of Alternative Development:**

**Empowerment** John Friedmann,1990      Empowerment John Friedmann,1992-07-27 Two thirds of the population of the world are poor and their number is growing in the first as well as in the third world despite billions of dollars of aid The economic development policies of the last two decades and the theory which gave rise to them have been discredited The rich are disillusioned apprehensive or uninterested while the poor are embittered and without hope the victims and agents of ignorance instability and environmental degradation The need for radical rethinking is urgent this book makes an important contribution towards that end John Friedmann argues that poverty should be seen not merely in material terms but as social political and psychological powerlessness He presents the case for an alternative development committed to empowering the poor in their own communities and to mobilizing them for political participation on a wider scale In contrast to centralized development policies devised and implemented at the national and international level alternative development restores the initiative to those in need on the grounds that unless people have an active role in directing their own destinies long term progress will not be achieved The author takes the household as the strategic starting point stressing its moral political and economic potential as a source of continuity and as a location for production From this basis he propounds a politics of emancipation that would enable the disempowered poor to assert their rights Empowerment provides a morally informed theoretical framework for a development policy that meets the needs of its recipients rather than of its makers      **World Trade Organization** Amrita Shahabadi,2007      *Alternative Development* Cathrine Brun,Piers Blaikie,2016-03-23 This book brings together a collection of essays that discuss alternative development and its relevance for local global processes of marginalization and change in the Global South Alternative development questions who the producers of development knowledges and practices are and aims at decentring development and geographical knowledge from the Anglo American centre and the Global North It involves resistance to dominant political economic processes in order to further the possibilities for non exploitative and just forms of development By discussing how to unravel marginalization and voice change through alternative methods actors and concepts the book provides useful guidance on understanding the relationship between theory and practice The main strength of the book is that it calls for a central role for alternative development in the current development discourse most notably related to justice rights globalization forced migration conflict and climate change The book provides new ways of engaging with alternative development thinking and making development alternatives relevant      **The Politics of Development Co-operation** Lisa Aubrey,2002-11-01 First Published in 2004 The Politics of Development Cooperation interrogates the politics of interorganizational development cooperation examining issues of power autonomy and dependence Focusing on Kenya and in particular on Maendeleo Ya Wanawake MYWO the largest national women s organization and its partners in its relational environment this book probes the relationships between foreign donors grassroots development organizations and governments Aubrey examines whether it is

possible for the North and the developing world to be engaged in genuine development partnerships the influence resource contributions financial and technical have on agenda formulation and compromises and whether organizations such as MYWO are truly NGOs as they claim to be or whether they remain an extension of the state exploited by patriarchal party politics Gender is central to the analysis of this book with issues reflecting and reintroducing the politics of unequal resources in development cooperative partnerships Differences in status among women are also systematically examined because the politics of development affect elite and grassroots women differently **Participatory Urban Governance**
