Empty Church Revisited:

The 'Empty' Church Revisited Robin Gill, 2018-01-12 This title was first published in 2003 When did churches start to appear more empty than full and why The very physicality of largely empty churches and chapels in Britain plays a powerful role in popular perceptions of religion Empty churches are frequently cited in the media as evidence of large scale religious decline The Empty Church Revisited presents a systematic account of British churchgoing patterns over the last two hundred years uncovering the factors and the statistics behind the considerable process of decline in church attendance Dispelling as myth the commonly held views that the process of secularization in British culture has led to the decline in churchgoing and resulted in the predominantly empty churches of today Gill points to physical factors economics and issues of social space to shed new light on the origins of empty churches This thoroughly updated edition of Robin Gill's earlier work The Myth of the Empty Church presents new data throughout to explore afresh the paradox of church building activity in a context of decline the patterns of urbanisation followed by sub urbanisation affecting churches changes in patterns of worship and changes within the sociology of religion in the last decade Myth of the Empty Church Robin Gill, 1993-05 **Mary**

Cholmondeley Reconsidered Carolyn W de la L Oulton, 2015-09-30 This book provides a necessary critical reappraisal of one of the most challenging and subversive of nineteenth century women writers Northern Gospel, Northern Church

Gavin Wakefield, Nigel Rooms, 2016-02-15 This book brings together prominent practitioners and academics to answer these questions and explore what it means to proclaim the gospel in the North of England from many angles Theology Shaped by Society Robin Gill, 2017-05-15 Theology Shaped by Society argues that the sociology of knowledge can make an important contribution to theology Part I argues that theology can be seen as a socially constructed reality that is sometimes dangerously related to power but at other times that is a positively engaged discipline taking the risk of being shaped by particular societies and cultures From this second perspective theology is seen properly as a thoroughly relational discipline as itself a social system Part II examines mission shaped by society and maps this in practical terms by examining recent and surprising religious trends in York Part III shows how music can imaginatively shape theology and reveal unexpected resonances Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society and Society Shaped by Theology **Secularization in the Long 1960s** Clive D. Field, 2017-03-16 Secularization in the Long 1960s Numerating Religion in Britain provides a major empirical contribution to the literature of secularization It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm Combining historical

and social scientific perspectives Clive D Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s In most cases data is presented for the years 1955 80 with particular attention to the methodological and other challenges posed by each source type Following an introductory chapter which reviews the historiography introduces the sources and defines the chronological and other parameters Field provides evidence for all major facets of religious belonging behaving and believing as well as for institutional church measures The work engages with and largely refutes Callum G Brown's influential assertion that Britain experienced revolutionary secularization in the 1960s which was highly gendered in nature and with 1963 the major tipping point Instead a more nuanced picture emerges with some religious indicators in crisis others continuing on an existing downward trajectory and yet others remaining stable Building on previous research by the author and other scholars and rejecting recent proponents of counter secularization the long 1960s are ultimately located within the context of a longstanding gradualist and still ongoing process of secularization in Britain

Church Growth in Britain David Goodhew, 2017-05-15 There has been substantial church growth in Britain between 1980 and 2010 This is the controversial conclusion from the international team of scholars who have drawn on interdisciplinary studies and the latest research from across the UK Such church growth is seen to be on a large scale is multi ethnic and can be found across a wide range of social and geographical contexts It is happening inside mainline denominations but especially in specific regions such as London in newer churches and amongst ethnic minorities Church Growth in Britain provides a forceful critique of the notion of secularisation which dominates much of academia and the media and which conditions the thinking of many churches and church leaders This book demonstrates that whilst decline is happening in some parts of the church this needs to be balanced by recognition of the vitality of large swathes of the Christian church in Britain Rebalancing the debate in this way requires wholesale change in our understanding of contemporary British Christianity

Counting Religion in Britain, 1970-2020 Clive D. Field, 2021-12-09 Counting Religion in Britain 1970 2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization

Britain's Last Religious Revival? C. Field, 2015-02-25 This is a major contribution to scholarly debates on the chronology and nature of secularization in modern Britain Combining historical and social scientific insights it analyses a range of statistical evidence

for the long 1950s testing and largely rejecting Callum Brown's claims that there was a religious resurgence during this period

Periodizing Secularization Clive D. Field, 2019 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative Periodizing Secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siècle A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred The book is designed as a prequel to the author's previous volumes on the chronology of British secularization Britain's Last Religious Revival 2015 and Secularization in the Long 1960s 2017 Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980

[Church Planting in the Secular West](#) Stefan Paas, 2016-11-03 An expert study of church planting in the most secular part of contemporary Europe In this book Stefan Paas offers thoughtful analysis of reasons and motives for missionary church planting in Europe and he explores successful and unsuccessful strategies in that post Christian secularized context Drawing in part on his own involvement with planting two churches in the Netherlands Paas explores confessional motives growth motives and innovation motives for church planting in Europe tracing them back to different traditions and reflecting on them from theological and empirical perspectives He presents examples from the European context and offers sound advice for improving existing missional practices Paas also draws out lessons for North America in a chapter coauthored with Darrell Guder and John Franke Finally Paas weaves together the various threads in the book with a theological defense of church planting Presenting new research as it does this critical missiological perspective will add significantly to a fuller understanding of church planting in our contemporary context

Redundancy, Community and Heritage in the Modern Church of England, 1945-2000 Denise Bonnette, 2023-02-28 This book is a reappraisal of Anglican Church redundancy from a cultural perspective It challenges long held perceptions about the rationale for church redundancy particularly secularisation It argues that redundancy brought to the surface far reaching social and cultural tensions that remain unresolved to this day and which the pandemic closure of

buildings has reignited *The Games People Play* Robert Ellis, 2014-04-21 In *The Games People Play* Robert Ellis constructs a theology around the global cultural phenomenon of modern sport paying particular attention to its British and American manifestations Using historical narrative and social analysis to enter the debate on sport as religion Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion Through biblical and theological reflection he presents a practical theology of sport s appeal and value with special attention to the theological concept of transcendence Throughout he draws on original empirical work with sports participants and spectators *The Games People Play* addresses issues often considered problematic in theological discussions of sport such as gender race consumerism and the role of the modern media as well as problems associated with excessive competition and performance enhancing substances As Ellis explains Sporting journalists often use religious language in covering sports events Salvation features in many a headline and talk of moments of redemption is not uncommon Perhaps somewhere beyond the cliched hyperbole there is some theological truth in all this after all

Secularization and Religious Innovation in the North Atlantic World David Hempton, Hugh McLeod, 2017-05-12 In the early twenty first century it had become a clich that there was a God Gap between a more religious United States and a more secular Europe The apparent religious differences between the United States and western Europe continue to be a focus of intense and sometimes bitter debate between three of the main schools in the sociology of religion According to the influential Secularization Thesis secularization has been an integral part of the processes of modernisation in the Western world since around 1800 For proponents of this thesis the United States appears as an anomaly and they accordingly give considerable attention to explaining why it is different For other sociologists however the apparently high level of religiosity in the USA provides a major argument in their attempts to refute the Thesis *Secularization and Religious Innovation in the Atlantic World* provides a systematic comparison between the religious histories of the United States and western European countries from the eighteenth to the late twentieth century noting parallels as well as divergences examining their causes and especially highlighting change over time This is achieved by a series of themes which seem especially relevant to this agenda and in each case the theme is considered by two scholars The volume examines whether American Christians have been more innovative and if so how far this explains the apparent God Gap It goes beyond the simple American European binary to ask what is American or European in the Christianity of the nineteenth and twentieth centuries and in what ways national or regional differences outweigh these commonalities
