En Triptyk:

Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire croise the history of translations transformations and migrations that conditioned its relationship with the West *Aus Einem Unbekannten Zentrum, Zu Einer Nicht Erkennbaren Grenze* Julie A. Reahard, 1997 In an attempt to discover the one idea with respect to which Goethe claimed he had worked while writing *Die Wahlverwandtschaften* taking my cue from Goethe himself I have united the investigational techniques of hermeneutics and complexity or chaos theory and brought them to bear on the structure of several of the mirroring events in the text The overwhelming conclusion of this author is that like those investigating chaos in nature literary theorists must turn to comprehensive approaches if they wish to treat seriously the structure of texts as works which flow from nature the nature of the human mind

Comparative Criticism: Volume 14, Knowledge and Performance E. S. Shaffer, 1992-10-22 Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives *Differences on Stage* Alessandra De Martino, Paolo Puppa, Paola Toninato, 2014-09-18 Differences on Stage is a collection of twelve original essays by leading international theatre critics and scholars which aims to address the relationship between theatre and the development of political awareness through the voice of subaltern people The book is enriched by the contributions of some of the most engaged protagonists of the stage who in their capacity as authors players and directors denounce prejudice and conformism whilst allowing the marginalized sections of society to speak out An authoritative overview of the theatre of differences this book offers a key interpretation of contemporary society and underscores that although theatre no longer holds a central position in our multi media society the theatre of marginalized spaces ironically becomes central again and regains its role as the brain and lungs of the community Differences on Stage covers a variety of topics across a multi cultural and geographical spectrum and its contributions present previously unexplored connections between the discourses of theatre and anthropological cultural and translation
