

En Model For Danmark 1949-1965

J Dewey

En Model For Danmark 19491965:

Macroeconomic Medium-Term Models in the Nordic Countries O. Bjerkholt, J. Røstved, 2017-07-19 This is the first major joint presentation of macroeconomic models of Denmark Finland Norway and Sweden Its origin is a selection of the presentations at a seminar on macroeconomic modelling in the Nordic countries held in Lyngby Denmark 8-9 October 1984 sponsored by the Nordic Ministries of Finance The book is concentrated around a thorough presentation of the main macroeconomic medium term models used in government planning and policy making in each of the four countries These models are in Denmark ADAM developed by the Central Statistical Office in Finland KESSU developed within the Ministry of Finance in Norway MODAG developed by the Central Bureau of Statistics and in Sweden EMMA developed within the Ministry of Finance An introduction to Nordic macroeconomic models is provided as well as significant features of the institutional use of models within governments in these countries On the basis of the data presented in the book the effects of devaluation wage increases and fiscal policy in the Nordic economies can be compared with each other as well as with other small open economies

Macroeconomic Methodology Jesper Jespersen, 2011-01-01 Methodological practice is at the heart of divisions between schools of macroeconomic thought Jesper Jespersen's book explains why and precisely how and gives the reader the insight to choose between rival approaches His own inspiration comes from Critical Realism and Popper's Three World analysis with Keynes as the main exponent of a realist approach The starting point of realist theory is a view of how the world is rather than axioms and the test is whether the theory can make as Jespersen puts it the round trip back to reality to give practical guidance to policy This is only the focal point of a rich and attractive canvas How I wish this book had been available when I taught methodology And how I wish economists from all schools of thought would read it Victoria Chick University College London UK This welcome volume by Jesper Jespersen offers an up to date realist approach to macroeconomics drawing on recent developments in methodology notably critical realism as well as earlier Popperian ideas He shows how economics in the Post Keynesian tradition using this approach can address the important macro policy issues and sets out a seven point agenda for future theory development This book provides an important launching off point for addressing macroeconomic questions without the need for the abstractions as narrowly rational representative agents Rather Jespersen explores the interdependencies between the macro and micro levels in real economic processes under conditions of uncertain knowledge Sheila Dow University of Stirling UK Jesper Jespersen presents a treatise on the importance of the choice of methodology within macroeconomics Given that no scientifically based macroeconomic policy recommendation should be established without an evaluation of the methods employed this book gives a clear exposition of how proper macroeconomic analysis should be undertaken Furthermore it is convincingly argued that one of the lasting contributions of John Maynard Keynes was his emphasis on methodology that macroeconomic consequences of uncertainty could not be analysed within the established general equilibrium framework It is due to post Keynesian economics supported by critical

realism that the understanding of Keynes's methodology has been resurrected which has eventually resulted in renewed debate on realistic macroeconomic policies to restore full employment without inflation. Macroeconomic Methodology is an inquiry into the question of how to conduct a proper scientific analysis of uncertainty within macroeconomics. It will be of great interest to scholars of the philosophy of social sciences and methodology as well as post Keynesian and heterodox economists. **Macroeconomic Medium-term Models in the Nordic Countries** Olav Bjerkholt, Jørgen Rosted, 1987

Who's who in Scandinavia Karl Strute, Theodor Doelken, 1981 *Who's who in Scandinavia*, 1981 **Subject Catalog, 1975** Library of Congress, 1975 **Subject Catalog** Library of Congress, **A London Bibliography of the Social Sciences** British Library of Political and Economic Science, 1977 Vols 1-4 include material to June 1 1929 **World Index of Economic Forecasts** George Cyriax, 1978 **National Union Catalog**, 1978 Includes entries for maps and atlases

Nordic Approaches to Peace Operations Peter Viggo Jakobsen, 2006 A new examination of Nordic approaches to peace operations after the Cold War. It shows how the Nordic countries Denmark, Finland, Norway, and Sweden remain relevant for the study and practice of post Cold War peace operations. This unique study is structured around eleven success conditions derived from an analysis of the lessons learned since the early 1990s ensuring that the results of the case studies are directly comparable. These case studies are supplemented by an analysis of Nordics' collective efforts to replace their old Cold War peacekeeping model with a new one that meets the requirements of the new era. The overall conclusion is that the Nordics have succeeded in meeting the post Cold War requirements for success both individually and collectively and that a new effective model is in the making. This book makes several important contributions to the literature on peace operations. First, it demolishes the widely held view that the Nordic countries remain a bastion of traditional Cold War peacekeeping with little relevance for contemporary operations. Second, it constitutes the first systematic overview of the reforms undertaken by the four Nordic countries since the end of the Cold War. Third, it fills a historical gap by providing a comprehensive analysis of the celebrated old Nordic Cold War model explaining how and why it developed and how it functioned. Finally, the analytical framework is a general tool which can be used to evaluate the approaches to peace operations employed by countries around the world. This book will be of great interest to all students of peacekeeping, peace studies, security studies, and IR in general.
