Understand the science that explains what pressure our planet is under and how to take action Using powerful easy to grasp graphics this ebook cuts through the noise and gets straight to the most up to date facts on climate change overpopulation pollution overconsumption pandemics and much more Tony Juniper distills wide ranging heart stopping research into one reliable and eye opening ebook He charts the dramatic explosion of human population and consumption and its impact on planet Earth revealing how increasing pressures on our world affect factors such as climate sea levels and pollution and what that means for our future Global warming has led to sea levels rising by around 7 inches 18cm over the past 100 years and the Arctic ice sheet is shrinking at a rate never seen before Ten million people each year are affected by coastal flooding One third of all land is at risk of turning to desert with huge implications for food supplies Deaths due to air pollution rise every year and more plastic pollution of the oceans threatens marine life and fishing stocks As well as explaining global trends and showing how they are connected The Science of Climate Change explores how we can live more sustainably into the future with positive ideas of how we can mitigate damaging trends

**Ecology & Environ Mgmt** Roger Park,2019-04-09 The aim of the present volume is to review the effects of human activity on physical environment processes and this is justified not only as a complement to the approach taken by G P Marsh his volume *Man and Nature* 1864 but also as a sequel to the work produced since 1864 with contributions since the mid nineteenth century to the study of th

**All Creation is Groaning** Carol J. Dempsey,Russell A. Butkus,2015-03-06 This multi academic perspective on contemporary environmental issues reminds us of our oneness with the natural world and what that calls us to as moral creatures Fashioned as a series of stories based on the model of biblical narrative these seemingly multivalent voices and perspectives are joined together with biblical stories references and theological reflection to create in *All Creation Is Groaning* a seamless story that is both provocative and revelatory *All Creation Is Groaning* provides a clear Vision of living life in a sacred universe This Vision is linked to the biblical Vision of justice and righteousness for all of creation and humankind s responsibility to hasten the Vision through a call to ethical practice Critical and hermeneutical this book reflects an interdisciplinary approach so as to build bridges of understanding between the Bible and contemporary disciplines Chapters are Stories from the Heart New Ways of Knowing

and Being Known An Islamic Perspective on the Environment Christian Values Technology and the Environment Crisis Feeding the Hungry and Protecting the Environment Mental Cartography in a Time of Environmental Crisis Toward an Understanding of International Geopolitics and the Environment Sustainability An Eco Theological Analysis The Stewardship of Natural and Human Resources Development of Environmental Responsibility in Children An Ecological View of Elders and Their Families Needs for the Twenty First Century Symphonies of Nature Creation and Re creation A Sense of Place and Hope Amidst Crisis A Prophetic Vision of Cosmic Redemption

**Law and Ecology** Richard O. Brooks, Ross Jones, 2017-07-05 In 1970 Earth Day was first celebrated marking the dawn of worldwide environmental consciousness and the passing of many environmental laws In part these events were the result of the maturing of the science of ecology which recognized the interdependence of the web and cycles of nature This volume explores the relationship between ecology and environmental law beginning with a description of the two very different disciplines This description is followed by a history of their episodic interactions the early period of origin the mid century formative period from 1950 to 1970 the initial serious period of interaction after Earth Day in 1970 and the testing of the relationship during the next two decades Utilizing a number of case studies examinations of the key linkage persons legal instruments and the migration of ecological concepts and frameworks this book analyzes the final flowering of an ecosystem regime which embraces the connections between the two disciplines of ecology and environmental law Concluding with an inventory of the problems posed by the relationship between the two disciplines and an agenda for future research this clearly structured comprehensive and stringent book is an essential resource for all serious scholars and students of ecology and environmental law
