Denters, Paul J.I.M. de Waart, 2023-11-27 The chapters in this volume are based on the papers that were presented at the Calcutta seminar organized in March 1992 by the ILA Committee on Legal Aspects of a New International Economic Order NIEO The conference focused on the right to development in particular its ideas and ideology human rights aspects and implementation in specific areas of international law The volume is accordingly organized in three parts The chapters cover a vast area of subjects derived from the UN Declaration of the Right to Development From the developed and underdeveloped world 33 authors discuss topics including contents scope and implementation of the right to development human rights of individuals and peoples co operation between the European Community and the Lom IV states current developments in investments treaties refugee protection development and democracy concept of sustainable development environmental issues protection of intellectual property transfer of technology human rights in international financial institutions and the legal conceptualization of the debt crisis Professor Oscar Schachter observes in the first chapter that the Declaration continues to be a challenging subject for legal commentary for its detachable legal status its combination of collective and individual rights its expansive conception of development and its equivocal obligation Apart from support doubts about the concept to the right to development may also be found in this volume **Peace Treaties and International Law in European History** Randall Lesaffer, 2004-08-19 In the formation of the modern law of nations peace treaties played a pivotal role Many basic principles and rules that governed and still govern relations between states were introduced and elaborated in the great peace treaties from the Renaissance onwards Nevertheless until recently few scholars have studied these primary sources of the law of nations from a juridical perspective In this edited collection specialists from all over Europe including legal and diplomatic historians international lawyers and an International Relations theorist analyse peace treaty practice from the late fifteenth century to the Peace of Versailles of 1919 Important emphasis is given to the doctrinal debate about peace treaties and the influence of older Roman and medieval concepts on modern practices This book goes back further in time beyond the epochal Peace of Treaties of Westphalia of 1648 and this broader perspective allows for a reassessment of the role of the sovereign state in the modern international legal order *Third World Attitudes Toward International Law* Frederick E. Snyder, Surakiart Sathirathai, 1987-06-23 *Integrating Human Rights into Development Cooperation: The Case of the Lomé Convention* Karin Arts, 2021-08-04 Human rights democracy and governance concerns are prominent elements in the development cooperation policy of the European Community The relations between the European Community EC and 71 developing countries in Africa the Caribbean and Pacific ACP have proved to be a laboratory for developing ideas on these

matters for translating them into binding treaty norms and for applying them in practice The experiences gained in the ACP EC relationship carry special value because they are the product of dialogue and joint decision making between groups of developed and developing states Therefore 25 years of ACP EC cooperation under the Lom Convention provide a rich learning ground for anybody involved or interested in the debate on linking development cooperation to human rights and to human rights related concerns This book explores the international law aspects of the subject It first investigates the general international legal basis for linking development cooperation to human rights democracy and good governance Both the negative and positive ways of making such a linking by punitive and supportive measures are addressed The book then delves into the evolution of Lom treaty norms on the subject and into the concrete human rights practices that took shape under them It explores the contributions to and influence of both the EC and ACP states on those treaty provisions and practices A comprehensive overview is provided of the support measures and sanctions resorted to in response to the human rights situation in ACP countries The book assesses the overall experiences gained and presents a synthesis of factors that proved to be constraints or conducive to the efforts to integrate human rights fully into ACP EC development cooperation The insights gained could well inform similar efforts undertaken by others

turn help uphold international legal accountability in the context of development activities
