development as interregional equalisation policy for example is well anchored in the German constitution through

fundamental legal standards and the division of powers among the respective federal states The establishment of uniform

living conditions within the federal territory and securing the uniformity of living conditions beyond the borders of any single

federal state Section 72 Paragraph 2 of German Basic Law GG are expressly specified as aims of government action in the

constitution of the Federal Republic of Germany With the major reform of Germany s financial system in 1969 and

incorporation of the joint task Improvement 1 of the Regional Economic Structure in Section 91a of German Basic Law GG

interventions on the part of the federal government and the wealthy federal states for the benefit of states and regions with

less economic success were legitimised in constitutional terms as well All of this would be inconceivable without the concept
