Economic Development In Asia:

Future Perspectives on the Economic Development of Asia John Malcolm Dowling, 2008 The future growth and development of Asia the most dynamic economic region in the world today will have important implications for the rest of the global economy This book offers a futuristic perspective of a wide array of developmental challenges and opportunities facing Asian economies over the next two decades The future is approached from several different developmental paradigms including technological change and innovation regional cooperation within Asia and between Asia and the West poverty reduction ethics and corruption and environmental challenges Future prospects for the two giant economies of China and India are also explored By offering a comprehensive look at the medium term future of Asia from such a wide range of different viewpoints this fascinating book will interest economists social scientists politicians international investment managers and the general public alike

States and Development in the Asian Pacific Rim Richard P. Appelbaum, Jeffrey William Henderson, 1992-03-13 This book is an edited volume of eleven chapters that focus on state policy and its consequences for economic development and social transformation in East Asia The introductory chapter anticipates the conclusions of the chapters to follow arguing that an adequate explanation of the Asian miracle

Economic Development in China, India and East Asia Kartik Chandra Roy, Hans-Christer Blomqvist, Cal Clark, 2012-01-01 This is an unusually rich and comprehensive comparative analysis of industrialisation and development in Asia Drawing on the diverse experiences of Malaysia Singapore China India and more Roy Blomqvist and Clark skilfully tease out the common institutional threads and the subtle differences in their developmental trajectories An essential reading for all those interested in the lessons from Asian development Jude Howell London School of Economics UK This is a thorough and comprehensive study both in terms of country coverage and in depth analysis covering the economic development of all the major economies in the Asian continent namely China India Japan South Korea Taiwan Malaysia and Singapore Before embarking on analyses of different aspects of economic growth and development of these countries the authors present a thought provoking analysis of how institutional factors such as geography history of religion culture and political governance have been deeply interwoven with development dynamics to shape the growth and development trajectory that each country has subsequently followed Each country's development path consequently appeared almost be pre determined Japan's role as the lead country in technology transfer under the flying geese pattern of development is discussed however the emphasis has shifted of late to China India Korea Malaysia and Singapore the authors also propose that instead of discussing the failure of India to catch up with China in growth and development outcomes economists should be commenting on whether China bestowed with India's highly decentralized democratic governance structure and institutional rigidities would have been able to achieve the same results as that of India Only then will a true understanding and appreciation of India's achievements in economic growth and development emerge Economic Development in China India and East Asia will be warmly welcomed

and appreciated by academics and researchers of international and development economics as well as Asian development and economics Policy makers and those involved in NGOs in the development and aid arenas will also find this of great interest

East Asian Visions Indermit Singh Gill, Yukon Huang, Homi J. Kharas, 2007 Despite the diversity in income levels languages culture resource endowments and political systems the countries of East Asia are more integrated now than they have ever been Goods money and ideas are being traded across the region East Asia is redefining itself from a collection of disparate nations that looked mainly to markets in the west to a more self reliant innovative and networked region Countries in this region are strengthening ties with each other and seeking more strategic partnerships with the rest of the world East Asian Visions is a collection of essays that convey firsthand how some of the most influential thinkers in East Asia view these challenges The writers are eminent policy makers statesmen and scholars They write about how competition with the west has bred success how crises in the region have provoked introspection and how the rise of China is catalyzing change

Economic Development of Emerging East Asia Frank S.T. Hsiao, Mei-Chu Wang Hsiao, 2017-09-27 Economic Development of Emerging East Asia presents economic studies of Taiwan and South Korea compares them chiefly with Japan and the United States and finds that these East Asian countries are still in the process of emerging in the world economy A timely quantitative and econometric analysis of the regional economies of emerging East Asia the volume examines development indicators effects of the 1997 Asian financial crisis productivity growth catching up and convergence of long run real GDP per capita growth the time required for a country to catch up colonialism and economic development in Taiwan and India Arranged in increasing complexity of economic analyses the chapters in this book provide a comprehensive understanding of emerging East Asian economies In addition to serving as a handy reference for regional economists policy analysts and researchers Economic Development of Emerging East Asia can also be used as a textbook on economics and business

Economic Development in East Asia E. Stuart Kirby, 2010-11-26 First published in 1967 this influential study reviews the economic development of 15 countries from East Asia in the period between 1945 and 1965 It deals with a wide variety of factors influencing the development of the region including the influence of foreign governments both international aid and foreign trade population development industrialisation transport and communication infrastructure and the impact of economic development upon the population of East Asia

Future Perspectives on the Economic Development of Asia John Malcolm Dowling, 2008 The future growth and development of Asia OCo the most dynamic economic region in the world today OCo will have important implications for the rest of the global economy This book offers a futuristic perspective of a wide array of developmental challenges and opportunities facing Asian economies over the next two decades The future is approached from several different developmental paradigms including technological change and innovation regional cooperation within Asia and between Asia and the West poverty reduction ethics and corruption and environmental challenges Future prospects for the two giant economies of China and India are also explored By offering a comprehensive

Smith,2002-09-26 There can be no doubt that Japan remains unchallenged as the economic giant of the Pacific However the economies of East and South East Asia are increasingly becoming integrated into a broad Pacific Asia region which contains most of the world s fastest growing economies In *Economic and Social Development in Pacific Asia* a group of world authorities set the area in its global context and examine the economic emergence of the region In so doing they illustrate that despite superficial similarities there have been many more differences and it is not possible to offer a model of Asian development The authors also challenge the perceived wisdom that this dynamic growth is the result of laissez faire market led economies They argue that on the contrary there has been a great deal of government intervention and this growth is actually a result of a policy of guiding the market

Trade, Investment and Economic Development in Asia Debashis Chakraborty,Jaydeep Mukherjee,2016-05-26 In an era of globalization trade in goods and cross border services and capital flows play a key role in determining the economic growth path of countries Over the last two decades countries have embarked on several alternate tracks to liberalize and deepen their linkage with the world economy The growing trade investment nexus and the emerging developments lead to deeper international production networks rise in cross border trade in services and in regional trade agreements and so on The debate of whether it is possible to empirically validate the potential benefits of this deepening trade investment linkage is

ongoing The evidence in literature is however ambiguous This book contributes to the literature by looking at Asian economies and at the EU Maghreb countries and Pacific Island economics It examines the issues under four broad areas namely 1 trade theoretical and policy issues 2 factor flows impact on trade and welfare 3 impact of trade and factor flows on environment and 4 institutions international trade and policy issues Globalization, Development And Security In Asia (In 4 Volumes) ,2014-04-28 Asian countries are undergoing rapid political economic and social transformations meanwhile there is a growing demand for knowing more about Asia This Major Reference Set is designed to help general readers as well as specialists to have a good grasp of the latest developments in Asia in the key areas of economic growth trade energy environment foreign policy and security With 4 volumes this set covers all major dimensions of Asia s political economy Contributors include both scholars and practitioners who provide first hand description and analysis of fundamental issues in Asia Peace and political stability are of ultimate importance with Asia at the forefront of wealth creation in the global economy Volume 1 unpacks and examines the foreign policy strategies of key states and the role of regional institutions in responding to the security demands of an Asian century Volume 2 studies the strong economic integration through trade and cross border investment that has been essential to Asia The region s future prosperity depends on it being able to remain open and outward looking As Asia grows larger and richer more concerted efforts are required to surmount regional rivalry and to further strengthen the regional architecture of economic cooperation Volume 3 looks at the emerging economies thirst for energy that creates huge competition around which domestic regional and international political economy unfolds Climate change and aspiration for sustainable development further complicate the challenge Volume 4 offers a comprehensive coverage of subjects on environment and sustainable development in Asia with case studies of selected and representative countries that are at different stages of economic development and facing different environment related problems and challenges in the twenty first century This interdisciplinary set is a fine example of international cooperation with contributors hailing from different parts of Asia as well as North America and Europe It is a must have for anyone keen on understanding Asia s dynamic and changing scene *Economic Development in East and Southeast Asia* Seiji Naya,Akira Takayama,1990 This volume reflects the wide range of development issues and problems of the economies of East and Southeast Asia whose dynamic performances have caught the attention of many around the world It also serves to honour Professor Shinichi Ichimura for his dedication and many contributions to creating a better understanding of the development issues faced by the countries in the region Both the editors and all of the contributors in this book have worked with Professor Ichimura at one time or another **Economic Development in Twentieth-Century East Asia** Aiko Ikeo,2006-05-09 This collection supplies fascinating insights into aspects of East Asian economic development It will interest scholars in a variety of related fields and provoke further research and debate **Social Development in Asia** Kwong-leung Tang,2012-12-06 Most Asian countries have shown a strong commitment to rapid economic development

Economists have argued that the fruits from economic development will be spread equitably throughout the population. In the absence of a strong tradition of social rights, social development in Asia has long been taken for granted. This collection documents social development in the Asian countries of China, Hong Kong, Taiwan, South Korea, Thailand, and India, and concludes that social development has lagged behind economic development. This has given rise to distorted development in many countries. Serious development problems of poverty and inequalities have lingered even in these economically advanced countries of Hong Kong, Taiwan, and Singapore. These problems have been exacerbated in the wake of the Asian economic crisis. In order to harmonize social development with economic growth, Asian states ought to be more proactive in their development agendas. As a text on social development in Asia, this book is primarily intended for practitioners and students of social work, social administration, and social policy. It is also relevant for students and practitioners of sociology, economics, and public policy.

The Economic Development of South-East Asia C. D. Cowan, 2012. First published in 1964. The Economic Development of South East Asia Studies in economic history and political economy contains eight papers originally written for a study group at the School of Oriental and African Studies in London. The papers, edited by Professor C. D. Cowan, are written against a background of economic underdevelopment in large parts of Asia. Economic problems increasingly plagued the governments of Asia after the Second World War, and while Western governments were willing to help foster economic development, relations with Asian governments were somewhat hindered by the heritage of their colonial past. Problems also related to the growth of traditional trading ports and export crops, and to the importation of colonial regimes, western funds, and skills in the nineteenth century. Such developments come under the loosely generalised concept of imperialism, with its strongly emotional overtones, whose use impedes the objective assessment and analysis of facts. While we understand a good deal about conditions of economic growth in the West, much of what has fostered or retarded growth in other parts of the world remains less clear. *Asian Transformations* Deepak Nayyar, 2019-08-29. Gunnar Myrdal published his magnum opus *Asian Drama: An Inquiry into the Poverty of Nations* in 1968. He was deeply pessimistic about development prospects in Asia. The fifty years since then have witnessed a remarkable social and economic transformation in Asia, even if it has been uneven across countries and unequal between people that would have been difficult to imagine, let alone predict, at the time. *Asian Transformations: An Inquiry into the Development of Nations* analyses the fascinating story of economic development in Asia, spanning half a century. *Asian Transformations* sets the stage by discussing the contribution of Gunnar Myrdal to the debate on development then and now, and providing a long-term historical perspective on Asia in the world. It then uses cross-country thematic studies on governments, economic openness, agricultural transformation, industrialization, macroeconomics, poverty and inequality, education and health, employment and unemployment, institutions, and nationalisms to analyse processes of change while recognizing the diversity in paths and outcomes. Specific country studies on China, India, Indonesia, and Vietnam, and sub-region studies on East Asia, Southeast Asia, and South Asia, further highlight turning points in

economic performance and demonstrate factors underlying success or failure Including in depth studies by eminent economists and social scientists Asian Transformations comprehensively examines the phenomenal changes that are transforming economies in Asia and shifting the balance of economic power in the world and reflects on the future prospects for this continent over the next twenty five years It is a cohesive and multi disciplinary study of a rapidly changing economic landscape and makes an important contribution to understanding the complexities and processes of development from different perspectives

Economic Development in Pacific Asia Hafiz Akhand,Kanhaya Gupta,2005-11-18 During the period 1965 to 1990 East Asia was the world s fastest growing region Economic Development in Pacific Asia provides illuminating non technical perspectives on key facets of the region s economies The text focuses on the eight countries which accounted for the majority of the economic growth Japan Hong Kong Taiwan Republic of Korea Indonesia Malaysia Singapore and Thailand Empirical evidence is used to provide a revealing multi dimensional statistical profile of the countries as well as the region as a whole Rather than present a statistical history of each country the text highlights the relative performance in terms of the variables which are studied within each chapter Akhand and Gupta examine a range of popular topics including the relative role of factors accumulation versus technology change factor price distribution and employment growth poverty and income distribution the Asian Crisis and corruption In addition the book examines topics rarely covered in the current economics literature such as urbanization the gender gap and the digital divide It provides an accessible and wide ranging assessment of the existing evidence and current arguments on East Asian economic development and is a valuable addition to economists policy makers and those interested in Asian economic affairs

Economic Development in Pacific Asia Hafiz A. Akhand,Kanhaya Lal Gupta,2006 This is an accessible and wide ranging assessment of the existing evidence and current arguments on East Asian economic development

Economic Development in Asian Perspective Shigeru Ishikawa,1967 Monograph on economic development with particular reference to developing countries of Asia covers economic theory of economic growth the lack of investment in agriculture with special emphasis on irrigation and cultivation techniques rural workers and underemployment resource flow between agriculture and industry development of the manufacturing industry in the light of technological change etc Bibliography on statistical sources pp 469 to 481
