Economic Development Of The Yemen Arab Republic:

The Economic Development of the Yemen Arab Republic (RLE Economy of Middle East) Ragaei el Mallakh, 2014-10-30 The recent economic development of the Yemen Arab Republic is in stark contrast to the centuries of isolation that had marked the country prior to the 1962 Revolution When economic planning was instituted in the 1970s the nation was confronted by the needs of reconstruction after years of conflict and of development A formidable task was faced in the need to establish basic infrastructure throughout a country with a widely dispersed population and with extremely rugged terrain In addition the economy has been characterized by the high percentage of the workforce attracted overseas as migrant workers This book provides the first comprehensive study of the economic development of this under studied nation First published in 1986

Emigration And Economic Development Jon C. Swanson, 2019-03-13 Although social scientists tend to agree that emigration improves the standard of living of migrants and their families research suggests that more generally it has a neutral or even negative effect on economic development in the home country The Yemen Arab Republic is a case in point while living standards there have improved with emigration t

The Least Developed and the Oil-Rich Arab Countries Kunibert Raffer, M.A. Mohamed Salih, 2016-07-27 Comprising both extremely rich and very poor countries the Arab region is of unique variety This book explores the relations between rich and poor Arab countries presenting papers on Arab integration efforts the impact of oil prices on the South and least developed Arab countries in particular the co operation of poor Arabs with the EEC basic needs agricultural policies intra Arab migration differences in ideologies and health systems Islamic banking and the unsuitability of IMF policies for poor Arab countries

Evolution and Mineralization of the Arabian-Nubian Shield S. A. Tahoun, 2017-01-31 Evolution and Mineralization of the Arabian Nubian Shield Volume 1 presents the exploration for mineral resources in the Precambrian basement terrain underlying large areas of the Middle East This book discusses the geological investigations of the tectonic evolution structure and metallogenesis of the Arabian Nubian Shield Organized into four parts encompassing 15 chapters this volume begins with an overview of the study of the geology of the western Saudi Arabia This text then examines the Pan African basement which has all the geological and geophysical characteristics of continental crust Other chapters consider the tectonic evolution of parts of the central and southern Eastern Desert by using the available satellite images and detailed field work in specific areas This book discusses

as well mineralization and geological outline of the Red Sea Hills and the Nile Valley The final chapter deals with the separation of the African and Arabian plates This book is a valuable resource for geologists *Labor and Rainfed Agriculture in West Asia and North Africa* Dennis Tully, 2012-12-06 The basic objective of agricultural research at ICARDA is to enhance producer and consumer welfare through increasing the productivity stability and profitability of agriculture Improved practices must be technically economically and socially suitable to farmer conditions The rainfed areas of West Asia and North Africa have highly variable environmental conditions as well as complex social and economic structures In recent years the region has been experiencing major changes in the relative availabilities and costs of the classical factors of production land labor and capital These changes have important implications for the design of new agricultural technology On the one hand the availability of labor may be an important factor determining the acceptability of new technology On the other it is important to consider the impact that technology can have on rural employment To develop a better awareness of these issues and their relevance to technology development ICARDA initiated a project on Agricultural Labor and Technological Change The first stage of the project is published here it is a review of available literature on selected issues of regional importance combined with more detailed analyses of the situations of eight countries with important rainfed agricultural sectors ICARDA greatly appreciates the financial assistance of the Ford Foundation which allowed us to support the execution of the study and publication of its findings We also appreciate the great efforts of the authors in the face of often limited data and facilities *Yemen* Steven C. Caton, 2013-04-09 Yemen is a country that is critical to U S security and our political interests yet most Americans know virtually nothing about it This book unlocks its secrets and explains its complexities in simple yet compelling language A nation with a rich civilization that has spanned 3 000 years Yemen is the only democratic republic in the Arabian Peninsula While events in modern day Yemen are often in international news most Americans know nothing about this country nor are there easy to read up to date resources for lay audiences This book fills the gap in the literature It describes Yemen's geography economy politics and government history culture society and contemporary events presenting a comprehensive but accessible overview of the country from many different angles coverage that is long overdue Editor Steven C Caton has taken care to create a resource that is readily comprehensible to non specialists such as high school and college students and general readers as well as highly informative for those with previous knowledge about Yemen His thorough treatment provides synthetic overviews of key topics discusses and dismisses certain misconceptions about Yemen offers surprising perspectives on the relatively unknown country and underscores Yemen's importance to the region and the wider world both in ancient times and today **Yemen Arab Republic**, 1979

Some Consequences of Emigration for Rural Economic Development in the Yemen Arab Republic Jon C.

Swanson, 1979 *Building a New Yemen* Amat Al Alim Alsoswa, Noel Brehony, 2021-08-12 Yemen has faced continuing crises since 2010 The fighting and divisions have destroyed much of Yemen's physical political and social infrastructure

undermining its tribal traditions and religious tolerance and impoverishing the country The outbreak of war in 2015 caused the world s worst humanitarian crisis In this book Yemeni and international experts assess what political arrangements are required to overcome fragmentation and discord in Yemen They look to understand how people from all parts of the county can work together to build a new Yemen one that will give a voice to its young population and provide a full role for women The contributors argue that Yemen s major resource is its population but that Yemenis need to be motivated and trained to give them the skills to rebuild the economy and to prepare for long term challenges such as water shortages and climate change The volume also discusses how the international community will need to absorb the lessons of the past to find better ways of creating the institutions mechanisms and transparency with Yemenis that will enable the flow of vital assistance to where it is most needed The book provides an up to date analysis to help governments and international agencies who will have to work with Yemen and its neighbours in the post conflict situation

Economic Development and International Migration in Comparative Perspective Douglas S. Massey,1989 Migration, Remittances and Economic Development in Yemen Arab Republic Mahmoud Ali Al-Iriani,1987 *Yemenis in New York City* Shalom Staub,1989 Based on fieldwork among Yemeni emigrants in New York City this study traces an expanding frame of social interaction and relationships and examines the folklore of ethnicity including narratives jokes poetry music dance foodways and religious custom

Mobilizing Human Resources in the Arab World (RLE Economy of Middle East) R. Paul Shaw,2015-05-15 R Paul Shaw has travelled widely in the Arab world obtaining data and gathering impressions first hand from national and local planners In this book he identifies population and manpower problems that are likely to become more serious and more difficult to solve if they are neglected at this early stage of Arab development He focuses on five broad areas which are directly or indirectly related to mobilizing human resources and his book will be of special interest to all those who are concerned with such issues as population migration employment inequality the emancipation of women construction and agriculture Dr Shaw proposes policy directives which are sensitive to the problems as they are seen by the Arab governments

themselves and sets out practical guidelines which can be used by Arab planners and policy makers. An important feature of the book with respect to current literature on Arab development is that it moves away from a preoccupation with growth related investments to a concentration on development related population, manpower and employment issues. By bringing together such comprehensive empirical and bibliographic information, it will also be invaluable as a reference source for some twenty Arab countries. First published in 1983.

Destroying Yemen Isa Blumi, 2018-01-09. Since March 2015, a Saudi led international coalition of forces supported by Britain and the United States has waged devastating war in Yemen. Largely ignored by the world's media, the resulting humanitarian disaster and full scale famine threatens millions. *Destroying Yemen* offers the first in depth historical account of the transnational origins of this war, placing it in the illuminating context of Yemen's relationship with major powers since the Cold War. Bringing new sources and a deep understanding to bear on Yemen's profound unwitting implication in international affairs, this explosive book ultimately tells an even larger story of today's political economy of global capitalism, development and the war on terror as disparate actors intersect in Arabia.
