**Economic Growth with Equity** Kevin Watkins,1998 Kevin Watkins analyses the manner in which the economies of East Asia have attained high economic growth rates and managed to share the prosperity widely A caveat is included as some groups have been excluded from these benefits on ethnic grounds **The Oxfam Education Report** Kevin Watkins,2000-01-01 This comprehensive report focuses on the fact that millions of people in poor countries remain uneducated and illiterate which prevents them from developing the skills they need to escape poverty The book looks at the underlying causes of the problem and sets out a clear agenda for reform Making Growth Inclusive Elizabeth Stuart,2011 Shows that growth is back on the development agenda promoted by bilateral and multilateral donors and the G20 as the most effective way to lift people out of poverty Argues that economic growth has reduced poverty in developing countries in the past but by ignoring the issue of equality donors and poor country governments have failed to maximise the benefits of that growth and in some cases people have become worse off Extracts lessons from case studies of Brazil Viet Nam and Ghana to suggest three key areas where action by governments is likely to deliver a proper redistributive agenda appropriate macroeconomic prudence and a policy environment that fosters a pro poor private sector Reclaiming Social Policy Arjan de Haan,2007-07-31 This book re evaluates the importance of social policies in shaping well being and combating exclusion and enhances understanding of how these policies are formed in a globalizing world It emphasises the context and path dependence of patterns and policies of inclusion and exclusion and provides a framework for supporting social policy making

Handbook University of Sussex. Institute of Development Studies, 2006     *Books in Print* , 1994     The Asian Century, Sustainable Growth and Climate Change Moazzem Hossain, Malcolm McIntosh, 2013-01-01 This path breaking book investigates the challenges of realizing the Asian century Prosperity in Asia does not only mean economic growth the issues of public health sanitation income equality the social safety net and efficient use of natural resources are also important It argues for new policy initiatives in social environmental and natural resource areas of South Southeast and East Asia This insightful volume is presented in three parts Part I identifies the major socio economic factors which are likely to take away the opportunities in realizing the Asian century by 2050 Part II presents the responsible policy issues which would be needed to overcome the hurdles such as public finance natural resources public health and sanitation intra Asia migration and decentralized governance and Part III articulates major challenges in realizing Asian prosperity including sustainable international business and sustainable growth The topics examined range from demographic conditions and tax reform to responsible use of natural resources in the years to come The Asian Century Sustainable Growth and Climate Change will appeal to academics in the fields of Asian studies and environment ecology The major challenges in the future for South Asian growth due to the impact of climate change will prove invaluable for
