Northeast Question KHRITISH SWARGIARY,2024-10-01 The Northeast of India is a place with many different groups of people each with their own special way of life It s beautiful but also a place where people have faced hard times Many folks there feel left out and not fully part of India As someone who cares deeply about this area I wanted to learn more and share what I found This book is my humble attempt to amplify these voices to bridge the chasm of misunderstanding that has long separated the Northeast from the rest of India It s a labor of love born from countless conversations with tribal elders young activists and everyday people who shared their hopes fears and dreams with a stranger who came to listen Through these pages I invite you to walk alongside the people of the Northeast to feel the weight of their history and to envision a future where their unique identities are celebrated as integral threads in the grand fabric of our nation My decision to write this book stemmed from numerous conversations and interactions with individuals from the Northeast Their stories often filled with pain resilience and hope prompted me to confront my own understanding of what it means to be part of a nation that frequently overlooks its most marginalized communities The narratives of these individuals are a testament to the harsh realities they endure from armed conflicts and insurgencies to the struggle for basic rights and recognition The Northeast s conflicts are not merely regional issues they reflect broader questions about national identity unity and the very nature of democracy in India Sustainable Development Goals in Northeast India Subhash Anand,Madhushree Das,Rituparna Bhattacharyya,R. B. Singh,2023-04-19 This book covers themes related to the geosphere biosphere sociosphere and

ecosphere dealing with changing geographical environmental and socio economic realities to plan a sustainable future for the northeast region NER of India The NER consists of eight states Assam Arunachal Pradesh Tripura Nagaland Manipur Mizoram Meghalaya and Sikkim and they carry political economic and social importance The book integrates the past present and future of geospheric attributes incorporating progress towards the Sustainable Development Goals SDGs to meet the demands for improving human wellbeing under diverse and challenging socio economic political and environmental conditions The key SDGs as in food and agriculture health education water energy and other overarching goals of the region have yet to incorporate providing sustainable jobs and promoting equality and inclusive development although there have

been a few studies in that regard The challenges to achieve SDGs in the NER are formidable compared to the rest of India The NER has put a great deal of effort into achieving the SDGs mainly in poverty SDG 1 good health SDG 3 education SDG 4 gender SDG 5 decent work SDG 8 and reduced inequalities SDG 10 similar to the rest of the country However the standard development indicators such as road length access to health care power consumption and other measures are far below the national average A multi pronged strategy has played a pivotal role in the region but development strategy to attain the SDGs 2030 must be more inclusive in empowering people with maximising self governance considering the resources needs and aspirations of the people This book evaluates the performance of the SDGs and fills in the gaps It includes case studies focusing on different SDGs using advanced cartographic statistical and GIS techniques and methods It also provides unique findings that serve as valuable resources for planners and policy makers so that a sustainable future in Northeast India can be achieved
