Tabb,2012 Actions taken by the United States and other countries during the Great Recession focused on restoring the viability of major financial institutions while guaranteeing debt and stimulating growth Once the markets stabilized the United States enacted regulatory reforms that ultimately left basic economic structures unchanged At the same time the political class pursued austerity measures to curb the growing national debt Drawing on the economic theories of Keynes and Minsky and applying them to the modern evolution of American banking and finance William K Tabb offers a chilling prediction about future crises and the structural factors inhibiting true reform Tabb follows the rise of banking practices and financial motives in America over the past thirty years and the simultaneous growth of a shadow industry of hedge funds private equity firms and financial innovations such as derivatives He marks the shift from an American economy based primarily on the production of goods and nonfinancial services to one characterized by financialization then shows how these developments perspectives and approaches not only contributed to the recent financial crisis but also prevented the enactment of effective regulatory reform He incisively analyzes the damage that increasing unsustainable debt and excessive risk taking has done to our financial system and expands his critique to a discussion of world systems and globalization Revealing the willful blind spots of mainstream finance theory Tabb moves beyond an economic model reliant on debt expansion and dangerous levels of leverage proposing instead a social structure of accumulation that places economic justice over profit and more practically institutes an inclusive sustainable model for growth     Economics for Our Times Smith Augustus H,Howard Patterson S,2015-11-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We

A Life in Our Times John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of Fortune when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time The Affluent Society The New Industrial State and Economics and the Public Purpose In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the

steps of its author's astonishingly varied and useful life. Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal. That serious business is also to set the record straight on what his books were about and how he evolved his theory of The Affluent Society and The New Industrial State as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt The New York Times As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit James Fallows The New York Times Galbraith ranks with the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith Foreign Affairs Galbraith has assembled a well nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin Christian Science Monitor Absorbing and irresistible The New Yorker An enjoyable book full of fun full of wisdom and full of rare insights into the history of our times The New Republic A delightfully teeming book Galbraith's comic voice is a distinctive and durable literary achievement Atlantic Monthly A highly perceptive commentary on all our yesterdays anecdotal amusing animated and above all illuminating John Barkham Reviews *The Crisis of Our Time* John Carvalho, 2014-07-15 Dr John Carvalho former Harvard academician and winner of the United States National Research Service Award is no stranger to the word crisis As a scientist scholar and statesman he has spent decades working on the front lines of biomedical and theoretical exploration global health and the worldwide human rights movement The Crisis of Our Time is the astonishing partial memoir and discourse regarding his life's career and philosophy concerning the planet's most pressing problems Written in a way accessible to everyone Carvalho beginning with his passionate poetic and provocative first chapter challenges us to discover that the disastrous external crises of our lives emanate from the unity of our conscious and subconscious experiences Indeed the great troubles afflicting humanity war infectious disease economic recession terrorism family discord psychological trauma human rights violations dilemmas that appear unsolvable actually originate when without truthful self reflection we glorify mediocrity rather than strive to excel Employing cutting edge scientific information keen historical insight extensive cultural experience and profound philosophical analysis Carvalho dissects our crises to elucidate why they perpetuate In so doing he introduces his theory of causal circular systems to reveal how causes feed off and exacerbate effects which in turn reinforce those same causes Furthering his views he explores global

health the example par excellence as well as economics political history planetary climate change and the most central crisis of all Being or Nothingness the fears of the Self the dread of our mortality Ultimately this short but eye opening book creates epic meaning while using an artistic literary style that is virtually unseen in nonfiction Anyone who genuinely seeks excellence over mediocrity truth over falsity meaning over purposelessness and resolution over despair should read Crisis
