Economics Of Aquaculture:

Economics of Aquaculture Curtis M Jolly, Howard A Clonts, 1993-08-24 Economics of Aquaculture presents basic economic theory in a concise and logical format which is easily adaptable to practical application Examples of economic solutions to common problems help you understand the need for economic application to aquaculture and the success that may come with sound economic planning and management It also provides coverage of virtually all basic principles of microeconomics farm management finance and marketing applicable to the aquacultural industry You will walk through the intricate maze of decisions which are necessary for success in the business environment The regular and on going business of aquacultural production and marketing is addressed as a continuous problem set for the student or producer Business decisions are shown to be logical extensions of those in production and vice versa A successful producer must be a successful business person if production is to remain an option Thus the real and logical need for economics in production is carefully presented Additionally producers and students alike will find that application of careful economic planning results in long term viability for individual producers as well as community projects cooperatives or even governmental projects Special sections in the book illustrate the savings or costs of right and wrong decisions as well as those related to short versus longer term planning and investment Other topics covered in this book include role of aquaculture in economic development fish demand and supply farm management and operation time value of money in the short and long term capital budgeting market structure and price theory government in aquaculture Along with students other readers will find the business help they need in Economics of Aquaculture Professional aquaculturalists will find the topics of basic production economics marketing and cost analysis particularly relevant and governmental administrators will find the presentation of basic principles time value of money capital budgeting and the role of government in aquaculture a valuable resource for years to come

Aquaculture Economics Yung-Cheng Shang, 1981 **Economics of Aquaculture Feeding Practices in Selected Asian Countries** Mohammad R. Hasan, 2007-01-01 After agreeing on the methodology and outline of the country reports the authors of the case studies for each feeding strategy and farming system analyzed demographic factors including age and marital status education and ownership structure physical characteristics average number of ponds and average pond size and other input features stocking strategies feeding practices types of feed frequency and intensity of feeding and labour utilization The case studies also identified the principal input costs assessed the economic rates of return gross and net margins returns to labour land and capital gross and net total factor productivity break even prices and production and returns on capital for each feeding strategy Problem areas were identified for the different farming systems The Economics of Salmon Aquaculture Frank Asche, Trond Bjørndal, 2011-03-01 First published in 1990 The Economics of Salmon Aquaculture was the first book to systematically analyse the salmon aquaculture industry from both a market and production perspective Since publication of the first edition of this book the salmon aquaculture industry has grown at a phenomenal

rate with salmon now being consumed in more than 100 countries worldwide This second edition of a very popular and successful book brings the reader right up to date with all the major current issues pertaining to salmon aquaculture Commencing with an overview of the production process in aquaculture the following chapters provide in depth coverage of the sources of the world s supply of salmon the growth in productivity technological changes environmental issues markets market structure and competitiveness lessons that can be learnt from the culture of other species optimal harvesting techniques production planning and investment in salmon farms Written by Frank Ashe and Trond Bjørndal two of the world s leading experts in the economics of aquaculture this second edition of *The Economics of Salmon Aquaculture* provides the salmon aquaculture industry with an essential reference work including a wealth of commercially important information This book is also a valuable resource for upper level students and professionals in aquaculture and economics and libraries in all universities and research establishments where these subjects are studied and taught should have copies of this important book on their shelves

9780813815879 **Economics of Aquaculture** Ram Kewal Prasad Singh, 2003-10 The book is a product of detailed field investigation carried out in villages of six major fish producing districts of Bihar in the back drop of an extensive review of the available literature on the subject The various econometric tools have been used to analyse the socio economic aspects of inland fish production which brings out many field insights The text is presented in 10 sections Chapter 1 provides a comprehensive introduction to the fishery development in different ecosystems Chapter 2 presents the analytical procedure and frame work adopted for making the findings and conclusions more precise and reliable Chapter 3 describes the profiles of fish farmers and ponds which have a great bearing on fishery development in Bihar Cultural practices adopted for fish production at pond level are discussed in Chapter 4 which provides insight about the adoption level of scientific fish production practices Chapter 5 presents the use of major inputs including human labour and fish seeds Fish species wise level of stocking sources of fish seeds and constraints there of are also discussed in detail Chapter 6 presents the analytical discussions of fish production conversion ratio potential production production efficiency and profitability in fish production Chapter 7 describes the profile of fishery labours and their employment pattern Chapter 8 is based on Secondary and primary data of fish marketing and cover arrival transportation grading sale pattern price spread marketing cost and profit margins in fish marketing Chapter 9 analysis the constraints in fish production which covers institutional technological economic and social constraints in fish production Summary and conclusions of all the chapters mentioned above presented in Chapter 10 The analytical discussions in the test of the book will be of a great help to future researches and policy makers engaged in fishery development Contents Chapter 1 Introduction Chapter 2 Methodological Approach Chapter 3 Profile of Fish Farmers and Ponds Chapter 4 Cultural Practices Chapter 5 Cost of Fish Production Chapter 6 Fish Production Potential Production Production Efficiency and Profit Efficiency Measures Chapter 7 Extent and Pattern of Employment Chapter 8 Fish Marketing Chapter 9 Constraints in Fish Production Chapter 10 Summary and Conclusions *Fisheries And Aquaculture Economics* A D Upadhyay, 2019-07-05 This book provides a detailed overview to the topic of international fisheries governance and the drivers of IUU fishing Technologies that directly address these challenges reduce costs and improve and expand farm operations both offshore and especially on land are reported in this communication The book provides information on the following areas to scientists resource managers and researchers working with big data to advance more sustainable fisheries practices Modeling in the areas of Feed Conversion Ratio FCR Specific Feeding Ratio SFR Key Performance Indicators KPI that are needed for efficient management of resources for sustainable production from fisheries sector Neural Network forecasts that exceeded other traditional forecasting methods such as linear or logistic regression systems Application of Big Data Analytics in aquaculture that facilitated to bring the techniques of aquaculture to a new level of in depth understanding and unlocking the economic potential of improved management decisions particularly can spot business trends prevent disease combat crime and even revolutionize the health of fisheries Application of ANN to forecast

water quality and temperature that benefits aquaculture process control Sensor Technology that offers real time environmental monitoring system for aquaculture in a wide range of areas and visual signal processing system to continuously control the feeding process of fish in aquaculture tanks Artificial Intelligence Systems that in turn helps in increased process efficiency reduced energy and water losses reduced labor costs reduced stress and disease better understanding of the process and efficient accounting are also Data Mining for better control on the food loss and food quality in the aqua farming industry Analysis of Value Chain of Processed Fish Products Partial Budget Analysis for better understanding of the farm s financial status and more efficient use of the resources available particularly for aquaculture practices Tips for right type of statistical test to equip the social science researchers capable of performing of Statistical tests for various rating scales mostly used for social sciences research A holistic global scale focus on challenges of IUU and technology initiatives to face the challenge This unique book explores a wide range of analytical issues centered on the aquaculture process management It is expected that this book will be most useful who aims in achieving FAO s Sustainable Development Goal 14 which calls on the international community to effectively regulate fish harvesting end overfishing illegal fishing and destructive fishing practices and to implement science based management *Aquaculture* Upton Hatch,2021-11-28 Presenting state of the art research on the economics of producing and marketing aquacultural products this volume addresses critical issues concerning profitability market acceptance and economic modeling of various aquacultural products Research approaches range from firm level bioeconomic modelling to market level econometric modelling of industry growth and product substitution The studies highlight the institutional structures and public policy issues that will shape growth and development of aquaculture into the twenty first century including trade policies food safety and environmental quality **Economics of Aquaculture Diversification in Indian Sundarban** Jaydev Misra,2018-01-01 Indian Sundarban is blessed with adequate diversity of Small Indigenous Fish Species SIFS It is usually believed that integration of those species in the form of commercial culture along with present carp based production system can increase the overall efficiency of aquaculture production on the one hand as well as can provide food and nutritional security to the poor fish farmers on the other But despite all efforts and enormous potentials the production level and productivity are still not adequate to meet the large gap between potential and actual yields of fish In the present book attempts have been made to locate the efforts of aquaculture diversification and its effect on efficiency of overall fish production in Sundarban on more secure foundation of data and methodology In this study based on primary survey attempts have been made to examine the structural and operational features of diversified aquaculture practices and to identify the factors which impede the development of fisheries in Indian Sundarbans **ECONOMICS OF AQUACULTURE** ,2013-01-01 **Aquaculture Economics : Basic concepts and methods of analysis** ,1981 **Aquaculture Businesses: A Practical Guide to Economics and Marketing** Carole Engle,2020-02-29 This exciting new book provides practical

guidance and advice for individuals who are seeking to manage and develop a successful aquaculture business Starting with an overview of the types of challenges faced by managers of aquaculture businesses the book then presents and contrasts the differences in challenges faced by new start up businesses and those that have been in business for many years The book includes step by step guidance on how to find key markets locate customers and determine their preferences how to develop estimates of capital requirements for land construction of buildings and production facilities and to purchase equipment Guidance is given to the reader on practical aspects of developing a financing plan including the key financial statements that show early indication of potential problems Comprehensive coverage is also provided of the various types of permits and regulations as well as the magnitude of costs and delays that can occur for an aquaculture business to be in compliance Finally advice is given on keeping an eye on emerging trends signs of changing consumer preferences and demand and external threats and opportunities Written by Carole Engle known and respected worldwide Aquaculture Businesses is an essential internationally applicable resource for aquaculture entrepreneurs and business men and women who are the management level decision makers for new start up businesses as well as for existing businesses that need to continue to grow and change with market dynamics All aquaculture farm owners and suppliers to the industry should have this excellent resource to hand Libraries in all universities and research establishments where aquaculture business studies economics or marketing are studied and taught should have copies of this book on their shelves 5m Books

Fisheries and Aquaculture Economics Anil Datt Upadhyay,Ajit Kumar Roy,Pramod Kumar Pandey,2019 **Economics of Aquaculture, Sea-fishing and Coastal Resource Use in Asia** Agricultural Economics Society of Southeast Asia. Biennial Meeting,Agricultural Economics Society of Southeast Asia,1979 **World Fish Farming: Cultivation and Economics** E. Brown,2012-03-19

Until the First Edition of World Fish Farming Cultivation and Economics was published several years ago there was little or no economic and technical information on commercial aquaculture either by countries or by species I tried at that time to partially fill the gap in the literature In this Second Edition I have updated data originally presented and increased the scope by adding new countries New trout data have been added for 10 western European countries sections on cost of production of food sized catfish and fingerlings in the USA new and improved chapters for Japan Hungary Indonesia the Philippines and the United Kingdom and completely new chapters pertaining to Poland Thailand and Czechoslovakia have all been added to this edition The book now includes 31 countries including all major producing ones Between 5.5 and 6.0 million metric tons of finfish shrimp and crayfish cultured production are represented which accounts for about 90% of the world's total The People's Republic of China and the USSR as well as countries on the continents of Europe Asia North America and Oceania are represented Because of only minimal reported cultured fish production in Africa and South America these continents have been omitted Also according to information received from New Zealand there is no culturing of fish in that country other than for restocking of public waters More than 100 species of cultured fish seven species of shrimp and prawns and six

species of crayfish are discussed **Fisheries And Aquaculture Economics** A D Upadhyay,Ajit Kumar Roy,Pramod Kumar Pandey,2023-06-14 This unique book explores a wide range of analytical issues centered on the aquaculture process management The Economics of Aquaculture in Comparison with Other Rural Development Opportunities in Pacific Island Countries Bill Johnstone,Tim Pickering,2003 **Economics of Aquaculture, Sea-fishing and Coastal Resource Use in Asia** William L. Collier,1979 *Economics of Aquaculture Development in Greece* IFREMER (PARIS). DIRECTION RESSOURCES VIVANTES. SERVICE ECONOMIE MARINE.,1987

Unveiling the Magic of Words: A Report on "**Economics Of Aquaculture**"
