**The Asian Economy** Kenta Goto, Tamaki Endo, Asei Ito, 2020-07-30 The book is a key reading which provides a comprehensive and systematic overview of the contemporary Asian economy The book focuses on the structural changes that are rapidly transforming the regional economic landscape in the 21st century It highlights the concomitant challenges that have arisen and further discusses prospects and potentialities of Asian economies given this new economic environment The book also looks at broader social issues that are both the cause and result of these new and complex economic dynamism in Asia Understanding the Asian economy cannot be achieved without understanding the new

interrelationships and complexities that have evolved from this context which continue to be driven by drastic changes in technological demographic and social structures among others Each of the chapters are titled based on issues and are framed in present continuous tense intended to capture and emphasize the progressiveness of this new dynamism that are transforming the region in a fundamental way *Explaining Contemporary Asian Military Modernization* Sheryn Lee, 2021-04-19 This book proposes a novel theoretical framework of interactive arming in order to explain armament dynamics in contemporary Asia Frequently the modernisation of contemporary naval forces in Asia is described as an arms race with the underlying assumption being that weapons acquisitions and increases in defence expenditure are competitive and bilateral and due to conflicting purposes or mutual fears This book argues that the concept of an arms race is an unsuitable one for explaining contemporary military modernisation in 21st century Asia Instead it proposes a novel and innovative concept of interactive arming and argues that what drives conflict is political rivalry not weapons acquisitions Instead of perceiving arming as abnormal behaviour the book views arming as a natural strategic behaviour of states and military modernisation as a basic requirement for a state's ability to survive This book will be of much interest to students of Asian security strategic studies and international relations in general *Contemporary Asian America (second Edition)* Min Zhou, J. V. Gatewood, 2007-10 When *Contemporary Asian America* was first published it exposed its readers to developments within the discipline from its inception as part of the ethnic consciousness movement of the 1960s to the more contemporary theoretical and practical issues facing Asian America at the century's end This new edition features a number of fresh entries and updated material It covers such topics as Asian American activism immigration community formation family relations gender roles sexuality identity struggle for social justice interethnic conflict coalition and political participation As in the first edition *Contemporary Asian America* provides an expansive introduction to the central readings in Asian American Studies presenting a grounded theoretical orientation to the discipline and framing key historical cultural economic and social themes with a social science focus This critical text offers a broad overview of Asian American studies and the current state of Asian America
