Drohan,2015-01-28 What led two mortal enemies to become allies nine years after the end of World War II When the Allies began their occupation of defeated Axis countries many people favored a program of harsh reparation and demilitarization For the United States this was tempered with a desire not only to prevent such a war from happening again but to help the occupied countries rebuild their economic and political infrastructure This aspiration coupled with the rise of communist China and its perceived threat not only to Southeast Asia but the world formed the catalyst for a U S Japanese alliance The alliance between the United States and Japan persists in spite of changing political world views The changes which have affected world politics have often resulted in corresponding adjustments to the U S Japan security agreement From 1954 to the present day this volume takes an in depth look at the fundamental nature of the relationship The book addresses the historical origins of security relations in both countries and the ways in which these formed the basis for their postwar security cooperation and examines the negotiated set of shared military economic and political agreements and expectations which have shaped their relationship The work s main focus however is the way in which this alliance has evolved Four cases of significant policy change in 1960 1981 1987 and 1997 are analyzed along with a discussion of the relevant strategic and tactical realities of the time The reactions of the United States and Japan to recent events such as Iraq s Kuwait invasion and the 2001 terrorist attacks on America are also discussed Numerous tables are included **Asia and Oceania** United States.

Woods,2011-11-01 The emergence of Asia Pacific regionalism as witnessed by the increasing influence of the Asia Pacific Economic Cooperation forum and the annual ASEAN Post Ministerial Conference highlights one of the major trends in late twentieth century geopolitics and international relations Asia Pacific Diplomacy traces the evolution of the Pacific economic cooperation movement by examining the diplomatic contributions of three international nongovernmental organizations INGOs the scholarly Pacific Trade and Development Conference PAFTAD the business oriented Pacific Basin Economic Council PBEC and the multipartite academic business and government Pacific Economic Cooperation Council PECC Lawrence Woods also provides a historical perspective by assessing the work of the Institute of Pacific Relations forerunner of the INGOs This book makes an important contribution to the study of international political and economic institutions It argues that as the regional cooperation movement expands at the governmental level an understanding of the nongovernmental roots of that movement is required if the diplomatic contributions of the INGOs are to be retained **U.S. Government Books** ,1987 **Special Bibliography Series** United States Air Force Academy.
