Economic Report of the President United States. Congress. Joint Economic Committee,1967 **Handbook of the Economics of Risk and Uncertainty** Mark Machina,W. Kip Viscusi,2013-11-14 The need to understand the theories and applications of economic and finance risk has been clear to everyone since the financial crisis and this collection of original essays proffers broad high level explanations of risk and uncertainty The economics of risk and uncertainty is unlike most branches of economics in spanning from the individual decision maker to the market and indeed social decisions and ranging from purely theoretical analysis through individual experimentation empirical analysis and applied and policy decisions It also has close and sometimes conflicting relationships with theoretical and applied statistics and psychology The aim of this volume is to provide an overview of diverse aspects of this field ranging from classical and foundational work through current developments Presents coherent summaries of risk and uncertainty that inform major areas in economics and finance Divides coverage between theoretical empirical and experimental findings Makes the economics of risk and uncertainty accessible to scholars in fields outside economics
