Foss, 2005 The advent of the knowledge economy changes the ways in which firms organize their activities and how they strategize in the market place This non technical volume lays the foundations for an analysis of these phenomena In particular it shows how knowledge based approaches in management studies may be complemented by key ideas from the economics of organization The discussion is both theoretical and empirical Economics and Management of Organizations George Hendrikse, 2003 This text provides an assessment of the challenges facing organizations and the economic strategies and theories that can be applied to management problems It gives an introduction to economics organization and management Innovating Organization and Management Nicolai J. provides a unique scientific work on business and economic ethics Innovation, Organization and Economic Dynamics Giovanni Dosi, 2000-01-01 Conventional economic analysis of property rights in natural resources is too narrow and restrictive to allow for effective comparisons between alternative institutional structures In this book a conceptual framework is developed for the analysis of the East Europe (Albania, Bulgaria, Czechoslovakia, East Germany, Hungary, Poland, Rumania, Yugoslavia), 1964 Relational Methodologies and Epistemology in Economics and Management Sciences Biggiero, Lucio, 2016-01-18 The social sciences especially economics management and organizational science are experiencing a tremendous renewed interest for their epistemological and methodological statutes as witnessed by the many books and specialized journals established during the last two decades Relational Methodologies and Epistemology in the Economics and Management Sciences identifies and presents the four main network based methodologies including network analysis Boolean network simulation modeling artificial neural network simulation modeling and agent based simulation modeling in addition to their conceptual epistemological implications and concrete applications within the social and natural sciences Featuring a critical assessment of relational methodologies and their practical applications this timely publication is ideal for use by corporate R D departments researchers theorists and graduate level students **EBOOK: ECONOMICS & MANAGEMENT** HENDRIKSE, 2003-03-16 EBOOK ECONOMICS MANAGEMENT Economics and Management of Networks Gérard Cliquet, George Hendrikse, Mika Tuunanen, Josef Windsperger, 2007-03-20 Previous research on the institutional structure of franchising networks Bri ley et al 1991 Lutz 1995 Shane 1998 Lafontaine and Shaw 1999 2005 fuso 2002 Penard et al 2003a b does not explain the governance structure of the franchising firm as an institutional entity that consists of two interrelated parts Residual decision rights and ownership rights The latter includes not only residual income rights of franchised outlets but also residual income rights of franchisor owned outlets Previous studies primarily examines the incentive signalling and screening effects of fees royalties and other contractual provisions from the point of view of organizational economics see Dnes 1996 for a review without taking into account the interactions between residual decision and residual income rights as interrelated parts of the governance structure This paper fills this gap in the literature According to the property rights view decision rights should be allocated according to the distribution of intangible knowledge assets between the franchisor and franchisee and ownership rights should be assigned according to the residual decision rights Since ownership rights are diluted in franchising networks the dilution of residual income rights of franchised outlets is compensated by residual income rights of company owned outlets Under a dual ownership structure company owned outlets compensate the disincentive effect of low royalties for the franchisor and low royalties strengthen the investment incentives for the franchisee
