Emerging Trends For Eaps In The 21st Century:

Emerging Trends for EAPs in the 21st Century Nan Van Den Bergh, 2012-10-12 Raise your organization's productivity and morale with the proper EAPs. The development of employee assistance programs (EAPs) was one of the 20th century's most important workplace innovations. *Emerging Trends for EAPs in the 21st Century* examines the evolution of EAPs from their origin as a way of dealing with alcoholic employees to the multifaceted EAPs in the modern workplace. Today's EAPs serve employees affected by a great number of stressors related to the rapidly changing environment of today's workplaces as well as stressors related to the balancing of work and family issues. *Emerging Trends for EAPs in the 21st Century* stresses the important advantages to be found in working from a strengths and solution oriented case management approach rather than an assessment and referral model and of considering individuals challenged rather than troubled. Thus you will learn that trauma and abuse, illness and struggle may be injurious but they also may be sources of challenge and opportunity and you will see that every individual, couple, family, group, organization and community has strengths that can be fortified to help those who need it. *Emerging Trends for EAPs in the 21st Century* will show you the impact of today's changing workforce demography, the need for workplace sponsored services to assist caregivers and older workers, sophisticated intervention skills that organizations are using to help manage crisis change and evolution, today's new ways of providing help to your employees and bring you stimulating discussions and examinations of child, elder, dependent care services, prevention interventions for older workers, work-family programs, critical incident interventions, management consultation, health and wellness promotion. *Emerging Trends for EAPs in the 21st Century* offers insightful commentary, pragmatic information and predictions for the future of employee assistance programs as we move into the 21st century. *Monthly Labor Review* United States. Bureau of Labor Statistics, 2006. Publishes in depth articles on labor subjects, current labor statistics, information about current labor contracts and book reviews.

Workplace Disaster Preparedness, Response, and Management R. Paul Maiden, Rich Paul, Christina Thompson, 2013-05-13 Respond quickly and effectively to workplace trauma. For years employee assistance programs have been providing critical incident stress management services to employees who have been involved in or witness to workplace fatalities and accidents that are likely to traumatize workers and affect quality of work and increase sick leave and health claims. *Workplace Disaster Preparedness, Response and Management* presents successful strategies for rapid response to episodes of workplace violence, natural disasters and acts of terrorism that have become all too common occurrences in the workplace. *Workplace Disaster Preparedness, Response and Management* is a must read for professionals in the business of providing crisis response services and for employers responsible for planning and coordinating organizational responses to disasters. This unique book presents first-hand accounts from EAP program managers, Critical Incident Stress Management (CISM) professionals and crisis managers on their trauma response techniques and from health professionals involved in the aftermath of Hurricane Katrina and the Sept 11

attacks on the World Trade Centers and the Pentagon Workplace Disaster Preparedness Response and Management examines similar and dissimilar experiences of EAP professionals in responding to large scale traumatic events using military models in trauma response managing trauma in the South African mining industry trauma response techniques in high risk work settings compassion fatigue among professional helpers how various types of industries handle critical incidents EAP responses to natural disasters repetitious violence in the workplace organizational crisis intervention and much more Workplace Disaster Preparedness Response and Management also includes Bern Beidel's first person account as EAP Director for the United States House of Representatives of the response to anthrax contamination in mailrooms and office buildings in the nation's capital
