## **Emilia Medkova:**

**Emila Medková** Emila Medková, Karel Šrp, 2005 One of the most important Czech photographers of the second half of the twentieth century Emilia Medkova's black and white work was linked directly with Surrealism If there is no mystery in a photograph she once said if its reality has no other design then it is empty This catalogue accompanies her major recent retrospective in Prague *Gertrude Stein's Surrealist Years* Ery Shin, 2020-06-23 Examines how surrealism enriches our understanding of Stein's writing through its poetics of oppositions *Gertrude Stein's Surrealist Years* brings to life Stein's surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti-Semitism Stein's earlier works such as *Tender Buttons* and *Lucy Church Amiably* tend to prioritize formal innovations over narrative building and overt political motifs However Ery Shin argues that Stein's later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with *The Autobiography of Alice B. Toklas* and continuing in later works Stein renders legible her war-torn era's jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgängers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein's return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein's art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler's Europe how outliers like Stein can be included in the surrealist project surrealism's theoretical bind in the face of WWII and the age-old question of artistic legacy **Global Animation Theory** Franziska Bruckner, Holger Lang, Nikica Gilic, Daniel Šuljic, Hrvoje Turkovic, 2018-11-01 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by Knowledge Unlatched Scanning historical and current trends in animation through different perspectives including art history film media and cultural studies is a prominent facet of today's theoretical and historical approaches in this rapidly evolving field *Global Animation Theory* offers detailed and diverse insights into the methodologies of contemporary animation studies as well as the topics relevant for today's study of animation The contact between practical and theoretical approaches to animation at Animafest Scanner is closely connected to host of this event the World Festival of Animated Film Animafest Zagreb It has given way to academic writing that is very open to practical aspects of animation with several contributors being established not only as animation scholars but also as artists This anthology presents alongside an introduction by the editors and a preface by well-known animation scholar Giannalberto Bendazzi 15 selected essays from the first three Animafest Scanner editions They explore various significant aspects of animation studies some of them still unknown to the English-speaking communities **Praga Apache**, *La provocation* Eric Darragon, 2004
