Emily Stowe The Canadians:

Changing the Pattern Sydell Waxman, 1998-02-01 When Emily Stowe was born in Ontario in 1831 every girl's life followed a set pattern. Regardless of her personality, intelligence, capabilities, or creativity, her future was limited to housework and childcare. Emily Stowe was determined to change that pattern. Sydell Waxman, a writer, researcher, and lecturer on women of the 1800s, tells of the events in the life of the young Emily Stowe which caused her to become not only the first woman school principal and the first woman to practise medicine in Canada, but a pioneer in the fight for women's rights. With the help of original sketches and archival material, *Changing the Pattern* also creates a vivid picture of Canada in the late 1800s as it follows Emily's crusade to create new patterns for girls' lives. Emily Stowe Janet Ray, 1978

The Feminist Challenge to the Canadian Left, 1900-1918 Janice Newton, 1995 The resurgence of feminism in the early 1970s created shock waves across Canadian society that can be felt to this day. One of its results was a growing interest in women's history which initially focused on the struggle of women around the turn of the century to gain the right to vote. **100 Canadian Heroines** Merna Forster, 2004-11 100 Canadian Heroines profiles some remarkable women from the adventurous Gudridur the Viking to murdered Mi'kmaq activist Anna Mae Aquash. You'll meet heroines in science, sport, preaching, and teaching, politics, war, and peace, arts and entertainment, etc. The book is full of amazing facts and fascinating trivia about intriguing figures like mountaineer Phyllis Munday, activist Hide Shimizu, Arctic guide Tookoolito, unionist L. A. Roback, sexy movie mogul Mary Pickford, and singer Portia White. Great quotes and photos are featured in this inspiring collection. As we celebrate the 75th Anniversary of the Persons Case on October 18, 2004, discover some of the many heroines Canada can be proud of. Find out how we're remembering them or not. **Canadian Women Now and Then** Elizabeth MacLeod, 2020-04-07 A timely and relevant collection of stories about groundbreaking Canadian women present and past. Canadian women have long been trailblazers, often battling incredible odds and discrimination in the process. Here are biographies of more than one hundred of these remarkable women, from the famous to the lesser known. There are activists and architects, engineers and explorers, poets and politicians, and so many more. Each category pairs a historical groundbreaker with a present-day woman making her mark in that same field. Together, these women tell the story of Canada. And together, they offer a vision of what's possible. A unique look at Canadian history, sure to inspire all children to blaze trails of their own. MacDonald, 2021-11-15 Bessie Scott nearing the end of her first year at university in the spring of 1890 recorded in her diary Wore my gown for first time It didn't seem at all strange to do so Often deemed a cumbersome tradition by men the cap and gown were dearly prized by women as an outward sign of their hard won admission to the rank of undergraduates For the first generations of university women higher education was an exhilarating and transformative experience but these opportunities would narrow in the decades that followed In *University Women* Sara MacDonald explores the processes of integration and separation that marked women's contested entrance into higher education Examining the period between 1870 and 1930 this book is the first to provide a comparative study of women at universities across Canada MacDonald concludes that women's higher education cannot be seen as a progressive narrative a triumphant story of trailblazers and firsts of doors being thrown open and staying open The early promise of equal education was not fulfilled in the longer term as a backlash against the growing presence of women on campuses resulted in separate academic programs closer moral regulation and barriers that restricted their admission into the burgeoning fields of science technology engineering and mathematics The modernization of higher education ultimately marginalized women students researchers and faculty within the diversified universities of the twentieth century *University Women* uncovers the systemic inequalities based on gender race and class that have shaped Canadian higher education It is indispensable reading for those concerned with the underrepresentation of girls and women in STEM and current initiatives to address issues of access and equity within our academic institutions **Secondary Sources in the History of Canadian**
